CONVENIENCE and usefulness have been our guiding stars in compiling this catalog. It presents in a simple ready-reference form the material now growing in our nurseries, briefly described in a manner that we believe will help you visualize the plant itself. New and unusual things are tested and shown in our formal gardens at our nurseries, to which you are invited. Information on pages 92 to 109 will, we hope, be of material assistance to you, and your comments suggesting further improvements will be appreciated. The high quality of our stock is self-evident, but we do emphasize the fact that every cultural operation has been religiously carried out irrespective of all conditions so as to maintain this quality—a trip through our nurseries will convince you. If this catalog helps you as a planting companion, it will have accomplished its purpose.

Conditions of Sale

Orders are Accepted Subject to prior sale, and to condition of stock at delivery date, under the following terms.

Goods in Transit.—All goods are at purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good condition.

Claims must be made within **five days** after receipt of goods. Stock delivered as per order and in good condition is not returnable.

Prices in this catalogue cancel all previous lists and quotations and are subject to change without notice and they are F. O. B. our nurseries, packing extra; 250, 25 or 5 of any one variety on one order will be furnished at the 1000, 100 or 10 rates respectively.

Terms Cash. For customers of established credit accounts will be opened due in 30 days from date of invoice. Interest at six per cent (6%) per year will be charged on all accounts from due date. Orders for C. O. D. shipment must be accompanied by one-fourth of the amount.

Special Selection: Plant materials specially selected at the nursery will be sold at prices commensurate with the value of the specimens chosen, irrespective of the listed prices.

Ball & Burlap—The charge for balling and burlapping any item where B. & B. is not specified in this list is as follows:

2 to 4 ft.... 30c 4 to 6 ft.... 50c 6 to 8 ft.... 75c
Larger sizes in proportion.

Specific dates for delivery are made subject to enforced delay caused by weather conditions.

Trees, Shrubs and Vines

		Each	Per 10	Per 100
ABELIA grandiflora.	5'-6'			Glossy Abelia
HALF-EVERGREEN. Dainty bell-shaped shell-pink flowers produced throughout summer. The glossy privet-like foliage will persist all winter in a protected spot. Neat shrub.				
9	to 12 in.	4" pots.....	.50	4.50 40.00
1½	to 2 ft.	B. & B.....	.75	6.00

ABIES concolor.	50'-60'			White Fir
EVERGREEN. This "Queen of the Firs" is a handsome thing with large flat silvery-green needles that seem to become more blue with age. As a pyramidal accent plant it is splendid, as it withstands city conditions and drought.				
15	to 18 in.	B. & B.....	1.75	15.00 125.00
1½	to 2 ft.	B. & B.....	2.50	22.50 175.00
2	to 2½ ft.	B. & B.....	3.50	30.00 250.00
2½	to 3 ft.	B. & B.....	4.25	37.50 325.00
3	to 4 ft.	B. & B.....	5.00	45.00
4	to 5 ft.	B. & B.....	6.00	

homolepis.	60'-80'			Nikko Fir
EVERGREEN. From the youthful broad-based pyramid this stately fir develops into a bold round-topped tree. Has long lustrous green needles with silvery reverse. Very hardy.				
3	to 4 ft.	B. & B.....	5.00	45.00
4	to 5 ft.	B. & B.....	6.50	60.00 550.00
5	to 6 ft.	B. & B.....	8.00	70.00 650.00
6	to 7 ft.	B. & B.....	9.00	80.00 750.00
7	to 8 ft.	B. & B.....	10.00	90.00
8	to 9 ft.	B. & B.....	12.00	

veitchi.	50'-60'			Veitch Fir
EVERGREEN. A rather dainty narrow pyramid of soft green. The silvery under side of needles is quite marked.				
1½	to 2 ft.	B. & B.....	2.50	22.50 20.00
2	to 3 ft.	B. & B.....	3.50	30.00
3	to 4 ft.	B. & B.....	5.00	
4	to 5 ft.	B. & B.....	6.00	
5	to 6 ft.	B. & B.....	7.50	

ACANTHOPANAX pentaphyllum	7'-8'			Five Leaf Aralia
Particularly useful for covering rocky slopes. Good bright green shining foliage, graceful arching habit, most adaptable.				
2	to 3 ft.		.40	3.50
3	to 4 ft.		.50	4.00

ACER

palmatum atropurpureum novum.	8'-10'			Purple Japan Maple
The characteristic wine-red coloring is persistent throughout summer in this improved form. Makes a well-shaped, compact bush, and improves with age. Are very bushy plants.				
12	to 15 in.	potgrown or B. & B.	1.00	7.50 60.00
1	to 1½ ft.	potgrown or B. & B.	1.25	10.00 90.00
1½	to 2 ft.	potgrown or B. & B.	1.75	15.00 125.00
2	to 2½ ft.	potgrown or B. & B.	2.50	22.50 175.00
2½	to 3 ft.	potgrown or B. & B.	4.00	35.00 300.00
3	to 4 ft.	B. & B.	6.00	55.00 525.00
4	to 5 ft.	B. & B.	7.50	

— aureum.	8'-10'			Goldenmoon Maple
Really a golden yellow shrub that stays within bounds.				
1½	to 2 ft.	B. & B.....	2.25	

ACER

Each Per 10 Per 100

palmatum crispum. 10'-12' Crested Purple Japanese Maple

The foliage is more deeply and irregularly cut and the coloring lighter and fresher. Unfortunately not well-known.

1	to	1½ ft.	B. & B.....	1.25	10.00	90.00
1½	to	2 ft.	B. & B.....	1.75	15.00	125.00
2	to	2½ ft.	B. & B.....	2.50	22.50	175.00
2½	to	3 ft.	B. & B.....	4.00	35.00	
3	to	4 ft.	B. & B.....	6.00	55.00	

— dissectum. 5'-6'**Cutleaf Japanese Maple**

Deeply cut leaves impart a lacy, soft appearance to the flat-topped low spreading bush. Grows very slowly, but at maturity is a characterful billowy mound of fresh green.

1	to	1½ ft.	B. & B.....	2.50	22.50	
1½	to	2 ft.	B. & B.....	4.00	35.00	
2	to	2½ ft.	B. & B.....	6.00		

— — purpureum. 5'-6'**Purple Cutleaf Maple**

Differs from the green, only in having wine-stained foliage.

1	to	1½ ft.	B. & B.....	2.50	20.00	175.00
1½	to	2 ft.	B. & B.....	4.00	35.00	300.00
2	to	2½ ft.	B. & B.....	6.00		

— nigrum. 10'-12'**Darkest Purple Form**

This is nearest to a purple maple. Vigorous, holds color well.

1	to	1½ ft.	B. & B.....	1.25	10.00	90.00
1½	to	2 ft.	B. & B.....	1.75	15.00	125.00
2	to	2½ ft.	B. & B.....	2.50	22.50	175.00
2½	to	3 ft.	B. & B.....	4.00	35.00	300.00
3	to	4 ft.	B. & B.....	6.00	55.00	500.00
4	to	5 ft.	B. & B.....	7.50		

pennsylvanicum. 30'-35'**Striped Maple**

The green bark is lined with white stripes. Prefers moisture.

3	to	4 ft.	1.00		
4	to	6 ft.	1.50		
6	to	8 ft.	2.25		

platanoides. 60'-80'**Norway Maple**

Probably the easiest tree to transplant successfully. Throws a dense shade, so must be trimmed high if grass is to grow under it. Holds its green foliage well until late in the fall.

8	to	10 ft.	2.00	16.50	120.00
8	to	10 ft., 1¼ to 1½ in.	2.25	20.00	135.00
9	to	10 ft., 1½ to 1¾ in.	2.75	22.50	175.00
10	to	12 ft., 1¾ to 2 in.	3.50	30.00	250.00
12	to	14 ft., 2 to 2½ in.	4.50	40.00	350.00
12	to	14 ft., 2½ to 3 in.	6.00	55.00	500.00
14	to	16 ft., 3 to 3½ in.	10.00	90.00	
16	to	18 ft., 3½ to 4 in.	13.50		

— globosum. 10'-12'**Globe Norway Maple**

Here is a really worth-while "standard" tree, far superior to and more permanent than the Catalpa. Has shapely tops.

5 yr. heads, 6 ft. stems.....	6.00		
6 yr. " "	7.50		

— schwedleri. 60'-80'**Schwedler Maple**

The young leaves are bright red, but as summer approaches turn to a rich dark green with a suggestion of purple in them. This brightens up again in autumn. Grows easily.

8	to	10 ft., 1¼ to 1½ in.	3.50	30.00	250.00
---	----	----------------------	-------	------	-------	--------

Each Per 10 Per 100

ACER rubrum. 80'-100'*Red Maple*

A well-loved native so noticeable in spring, when the fiery red blossoms cover the branches, and again in autumn, when the vivid scarlet dress is a high spot. Ordinarily found in low places but succeeds well in high land too.

8	to	10	ft., 1¼	to	1½	in.....	2.75	22.50
9	to	10	ft., 1½	to	1¾	in.....	3.25	27.50
10	to	12	ft., 1¾	to	2	in.....	4.00	33.00
12	to	14	ft., 2	to	2½	in.....	5.00	45.00
12	to	14	ft., 2½	to	3	in.....	6.75	60.00
14	to	16	ft., 3	to	3½	in.....	10.00	

saccharum. 100'*Sugar Maple*

Quite a princely tree dissatisfied with city life, but assumes noble proportions in clear atmosphere. The autumn colors ranging through all the fiery tones make this, for spectacularly beautiful foliage effects, the most glorious of all trees.

8	to	10	ft.....	2.25	20.00	150.00
8	to	10	ft., 1¼ to 1½ in.....	2.75	22.50	180.00
9	to	10	ft., 1½ to 1¾ in.....	3.25	27.50	225.00
10	to	12	ft., 1¾ to 2 in.....	4.00	33.00	270.00
12	to	14	ft., 2 to 2½ in.....	5.00	45.00	400.00
12	to	14	ft., 2½ to 3 in.....	6.75	60.00	525.00
14	to	16	ft., 3 to 3½ in.....	12.00	110.00	

spicatum. 15'-20'*Mountain Maple*

If used only for its gay autumn dress, a well worth-while little tree. The bunches of red-winged fruits are interesting.

2	to	3	ft.....	.85	7.50
3	to	4	ft.....	1.00	9.00
4	to	5	ft.....	1.50	

ACTINIDIA arguta. Vine, 30'*Bower Actinidia*

Rich green leaves—greenish white flowers—yellow berries—and rapid growth are the main characteristics of this vine.

2	yr.....	.50	4.00	30.00
3	yr.....	.60	5.00	40.00

AESCULUS**hippocastanum rubicunda. 40'-50'***Pink Horsechestnut*

Great trusses of deep pink flowers are held aloft each spring decorating the formal roundish pyramid like a Christmas tree.

7	to	8	ft.....	4.50
---	----	---	---------	------

parviflora. 9'-10'*Bottlebush Buckeye*

Truly a handsome shrub. It gradually spreads into a large mound much broader than high over which the refined horsechestnut leaves are mantled, serving as an excellent foil for the erect spikes of creamy-white flowers. Slow but good.

9	to	12	in.....	1.25	11.00
---	----	----	---------	------	-------

AKEBIA quinata. Vine, 15'-20'*Five Leaf Akebia*

A light lacy effect is produced by this dainty vine, and the subtle fragrance of the purple-brown flowers is attractive.

2	yr.....	.50	4.00	30.00
3	yr.....	.60	5.00	40.00

AMELANCHIER canadensis. 25'*Downy Shadblow*

The flurry of pure white flowers is the forerunner of spring—most noticeable in our native woods where this dainty denizen is sparsely scattered. The birds relish the fruits.

1½	to	2	ft.....	.60	5.00
2	to	3	ft.....	.80	7.00
4	to	5	ft.....	1.25	11.00

	Each	Per 10	Per 100
AMELANCHIER stolonifera. 4'-5' <i>Dwarf Shadblow</i>			
This dwarf form develops by underground stems into a large mass. Has typical dainty pure white flowers, a beautiful picture in very early spring. Endures considerable shade.			
1½ to 2 ft.....	.60	5.00	
AMPELOPSIS aconitifolia. Vine, 15'-20' <i>Monkshood Vine</i>			
Curiously shaped leaves somewhat similar to monkshood and orange berries are the features of this quick growing vine.			
2 yr.....	.60	5.00	
heterophylla. Vine, 30'-40' <i>Porcelain Ampelopsis</i>			
Quite similar to Monkshood vine but has bright blue berries.			
2 yr.....	.60	5.00	40.00
quinquefolia. Vine, 40' <i>Woodbine</i>			
A handsome woodbine used for autumnal effects. Vigorous.			
2 yr.....	.40	3.00	25.00
tricuspidata (veitchi). Vine, 40'-50' <i>Boston Ivy</i>			
Probably the most popular self-clinging vine. Striking in Fall.			
2 yr.....	.40	3.00	25.00
3 yr.....	.50	4.00	35.00
3" pots.....	.50	4.00	35.00
4" pots.....	.60	5.50	50.00
— lowi. Vine, 6'-8' <i>Geranium Creeper</i>			
A miniature edition of the Boston Ivy, clings closely and colors beautifully in fall. The thick-looking leaves are curiously twisted. Splendid on low walls for a permanent tracery.			
3 yr., 3" pots.....	.75	6.00	50.00
AMYGDALUS persica. 12'-15' <i>Double Flowering Peach</i>			
Really a glorious flowering form of our plain garden peach.			
4 to 5 ft.....	.90	7.50	
ARCTOSTAPHYLOS uva-ursi. 4"-6" <i>Bearberry</i>			
EVERGREEN. Forms a mat of green on the hot sandy banks of South Jersey, but seems to prefer some shade in cultivation. When the large red berries are in evidence it is particularly attractive. Must have acid soil to develop naturally.			
3" pots.....	.50	4.00	35.00
4" pots.....	.75	6.50	50.00
ARONIA arbutifolia. 8'-10' <i>Red Chokeberry</i>			
Most decorative red berried shrub, prefers a moist place.			
1½ to 2 ft.....	.50	4.50	40.00
2 to 3 ft.....	.60	5.50	50.00
3 to 4 ft.....	.75		
melanocarpa. 3'-4' <i>Black Chokeberry</i>			
This black fruited form is more bushy and the foliage assumes brighter tints in autumn. White flowers practically cover the branches in May. Unfortunately the berries shrivel.			
1½ to 2 ft.....	.50	4.00	30.00
2 to 3 ft.....	.60	5.00	
3 to 4 ft.....	.75	6.00	
— grandiflora. 8'-9' <i>Great Black Chokeberry</i>			
This vigorous relative has slightly larger flowers and fruits and while taller is not quite so bushy or neat. Good in mass.			
3 to 4 ft.....	.75	6.00	

Each Per 10 Per 100

AZALEA arborescens. 15'-18'

Sweet Azalea

The exquisitely fragrant white or blush flowers are among the latest of Azaleas to be seen in June. Succeeds in moist or well drained places. Eventually becomes gnarled, interesting.

15 to 18 in.	B. & B.....	2.00	16.50	135.00
1½ to 2 ft.	B. & B.....	2.50	21.00	180.00
2 to 2½ ft.	B. & B.....	3.00	27.00	225.00
2½ to 3 ft.	B. & B.....	3.75	33.00	300.00
3 to 4 ft.	B. & B.....	5.00	45.00	
4 to 5 ft.	B. & B.....	7.50		

akebona. 6'-8'

Japanese Azalea

HALF-EVERGREEN. Has surprisingly large lavender flowers and hairy leaves. Grows freely into an open shrub. Should be more widely known and used among conifers.

2 to 2½ ft.	B. & B.....	4.50	40.00	
2½ to 3 ft.	B. & B.....	7.50	60.00	
3 to 4 ft.	B. & B.....	9.00	75.00	

amoena. 4'-6'

Amoena Azalea

EVERGREEN. Grows broader than tall with good compact habit. The small box like leaves take on a warm bronzy hue in winter, but in spring a mantle of magenta flowers is the striking feature. Most hardy evergreen form.

9 to 12 in.	B. & B.....	1.00	9.00	80.00
12 to 15 in.	B. & B.....	1.50	12.50	100.00
15 to 18 in.	B. & B.....	2.25	17.50	150.00
1½ to 2 ft.	B. & B.....	3.00	25.00	225.00
2 to 2½ ft.	B. & B.....	4.00	35.00	300.00
2½ to 3 ft.	B. & B.....	6.00	55.00	500.00
3 to 3½ ft.	B. & B.....	10.50	95.00	
3½ to 4 ft.	B. & B.....	13.50	120.00	

calendulacea. 10'-12'

Flame Azalea

Possibly the most brilliant of our native shrubs, the flowers vary from orange to scarlet in late May. Rather dry acid soil.

15 to 18 in.	B. & B.....	2.00	16.50	135.00
1½ to 2 ft.	B. & B.....	2.50	21.00	180.00
2 to 2½ ft.	B. & B.....	3.00	27.00	225.00
2½ to 3 ft.	B. & B.....	3.75	33.00	300.00
3 to 4 ft.	B. & B.....	5.00	45.00	

fujimayo. 5'-6'

Japanese Azalea

HALF-EVERGREEN. Best feature is the double lavender pink flowers. Happiest in a warm spot with rhododendrons.

1½ to 2 ft.	B. & B.....	4.00	35.00	
-------------	-------------	------	-------	--

hinodegiri. 4'-5'

Hinodegiri Azalea

EVERGREEN. This is THE red Azalea which in May is actually covered in a blanket of vivid carmine flowers. The foliage is lighter green and larger than that of "Amoena" and has a richer bronzy color in winter. A fine spot plant.

6 to 12 in.	B. & B.....	.80	7.00	60.00
12 to 15 in.	B. & B.....	2.00	17.50	150.00
15 to 18 in.	B. & B.....	3.00	27.50	250.00
1½ to 2 ft.	B. & B.....	4.50	42.50	400.00
2 to 2½ ft.	B. & B.....	7.00	65.00	
2½ to 3 ft.	B. & B.....	12.00	110.00	
3 to 3½ ft.	B. & B.....	15.00	135.00	

hinomayo. 3'-4'

Pink Japan Azalea

HALF-EVERGREEN. Undoubtedly the best pink among the evergreen Azaleas, altho in exposed locations will lose most of its leaves in winter.

15 to 18 in.	B. & B.....	3.50	30.00	
--------------	-------------	------	-------	--

AZALEA kaempferi. 4'-5'

Each Per 10 Per 100

Torch Azalea

From salmon-pink to orange-red, the flowers transform this shrub into a thing of beauty. In a slightly shaded sheltered spot, it is almost evergreen, and the color of the flowers is preserved. Has successfully withstood our worst winters.

12 to 15 in.	B. & B.....	2.00	17.50	150.00
15 to 18 in.	B. & B.....	2.50	22.50	200.00
1½ to 2 ft.	B. & B.....	3.00	27.50	250.00
2 to 2½ ft.	B. & B.....	4.00	35.00	300.00
2½ to 3 ft.	B. & B.....	6.00	50.00	450.00
3 to 3½ ft.	B. & B.....	7.50	67.50	
3½ to 4 ft.	B. & B.....	9.00		

— **hybrids.** 3'-4'*Carmen, Cleopatra, Fedora, Louise*

HALF-EVERGREEN. Generally speaking, these hybrids have a lower, more bushy habit and the brilliant orange tints are missing. 'Tis a gloriously handsome family tho!

12 to 15 in.	B. & B.....	2.25	20.00	175.00
15 to 18 in.	B. & B.....	2.75	22.50	200.00
1½ to 2 ft.	B. & B.....	3.75	32.50	275.00
2 to 2½ ft.	B. & B.....	4.50	40.00	

ledifolia (indica alba.)*Snow Azalea*

EVERGREEN. And particularly useful in combination with "hinodegiri," as the large dazzling white flowers appear at the same time. Give it a favored spot, it will pay well.

15 to 18 in.	B. & B.....	3.50	30.00	
--------------	-------------	------	-------	--

macrantha. 3'-4'*Red Salmon Azalea*

EVERGREEN. A low growing form with single red flowers and clean shiny leaves—needs shelter for sure results.

9 to 12 in.	B. & B.....	2.00		
-------------	-------------	------	--	--

mollis. 4'-5'*Chinese Azalea*

The mass of delicately shaded large bell-shaped flowers running through orange and red tones make a display worth waiting for each May. Succeeds best in sunny place.

12 to 15 in.	B. & B.....	2.25	20.00	
15 to 18 in.	B. & B.....	3.00	27.50	250.00

2½ to 3 ft.	B. & B.....	3.75	33.00	300.00
3 to 4 ft.	B. & B.....	5.00	45.00	

schlippenbachi. 6'-8'

Royal Azalea

Appropriately named—for this shapely shrub is indeed a regal sight in spring, when the large pink flowers adorn the purple-brown twigs. Even for its autumn effect alone, it is decidedly worthwhile, when the leaves are crimson and gold.

9 to 12 in.	B. & B.....	2.25		
12 to 15 in.	B. & B.....	3.00		

vaseyi. 10'-12'

Pinkshell Azalea

A most exquisite thing when the pure pink flowers open in early May—apparently just lightly resting in the bare twigs, its beauty is breath-taking. Happiest on margin of woods.

15 to 18 in.	B. & B.....	3.25	30.00	270.00
1½ to 2 ft.	B. & B.....	3.75	35.00	300.00
2 to 2½ ft.	B. & B.....	4.50	40.00	350.00
2½ to 3 ft.	B. & B.....	5.50	50.00	450.00
3 to 3½ ft.	B. & B.....	7.50	70.00	

viscosa. 9'-10'

Swamp Azalea

Another beautiful native which offers its fragrant white, or occasionally tinged pink flowers in late June. Generally found in boggy woods, but does not object to upland home.

15 to 18 in.	B. & B.....	2.00	16.50	135.00
1½ to 2 ft.	B. & B.....	2.50	21.00	180.00
2 to 2½ ft.	B. & B.....	3.00	27.00	225.00
2½ to 3 ft.	B. & B.....	3.75	33.00	300.00
3 to 4 ft.	B. & B.....	5.00	45.00	420.00
4 to 5 ft.	B. & B.....	7.50		

BENZOIN aestivale. 12'-15'

Spice Bush

The yellow mist seen along the streams in April is the Benzoin's welcome to Spring and later on you will find loads of glistening scarlet berries, which like the rich foliage are spicily fragrant when crushed. Splendid for naturalizing.

1½ to 2 ft.....	.30	2.50	20.00
2 to 3 ft.....	.50	4.00	30.00
3 to 4 ft.....	.60	5.00	40.00

3	yr.....	.90	7.00	60.00

radicans. Vine. 60'-80'**Trumpet Vine**

The striking scarlet trumpets can be seen in most early settlements, sometimes as bush specimens or vast tall vines.

2	yr.....	.60	5.00	
---	---------	-----	------	--

BUDDLEIA alternifolia. 8'-10'**Alternate Leaf Buddleia**

Lilac purple flowers literally cover the wide spreading arching branches. Distinct habit, deep green leaves grayish beneath.

2	yr.....	.50	4.50	
---	---------	-----	------	--

dauidi veitchi 10'-12'.**Butterfly Bush**

Gray-green foliage, rich lavender spikes of flowers and yellow butterflies fluttering above the bush is a typical summer picture from June to September. Apt to die down somewhat in winter, but is larger and better the following year.

2	yr.....	.40	3.50	25.00
---	---------	-----	------	-------

— Ile de France. 4'-5'**Hybrid Butterfly Bush**

The vivid rosy-purple six inch flower spikes are arresting and being sweetly fragrant insure popularity of this compact shrub.

2	yr.....	.75	6.50	60.00
---	---------	-----	------	-------

BUXUS sempervirens. 8'-10'**Bush Boxwood**

EVERGREEN. In a comparatively short time makes a large round bush densely covered with long generally narrow leaves. Most large boxwood hedges are of this type and it is often readily clipped into odd shapes. Deliciously scented.

12	to	15	in. B. & B.....	.75		
----	----	----	-----------------	-----	--	--

— suffruticosa. 5'-6'**Dwarf Boxwood Bush**

EVERGREEN. Like wine this beloved plant improves with age, gradually becoming part of the family, and is passed down as an heirloom. In youth it makes good headway, but slows down year by year until it reaches three or four feet, after which it increases imperceptibly. Everyone knows the delicious boxwood smell most apparent in this dwarf kind. The small round deep green leaves withstand city conditions. A dwarf boxwood hedge which can start at three inches is practically a permanent institution.

5	to	6 ft.	B. & B.....	15.00		

— nana. 2'-3' Dwarf Hinoki Cypress

Because it is slow growing the Japanese use this variety most effectively in pots. It soon assumes the character of age, preserving the rich green coloring. Dwarfest and most compact of all Cypress, therefore most useful in rock gardens.

3	to	6 in.	B. & B.....	1.75	15.00	120.00
6 ^f	to	9 in.	B. & B.....	2.25	20.00	175.00
9	to	12 in.	B. & B.....	2.75	25.00	225.00
12	to	15 in.	B. & B.....	3.25		

— youngi. 20'-25' Young Golden Cypress

Has a loose graceful habit and yellow tipped branchlets. Resembles a hemlock from a little distance. A handsome form.

2	to	3 ft.	B. & B.....	3.50	30.00	275.00
3	to	4 ft.	B. & B.....	4.50	40.00	
4	to	5 ft.	B. & B.....	6.00	55.00	
5	to	6 ft.	B. & B.....	7.50	67.50	
6	to	7 ft.	B. & B.....	12.00		
7	to	8 ft.	B. & B.....	15.00		
8	to	10 ft.	B. & B.....	18.00		

pisifera. 40'-50' Sawara Cypress

Quickly develops into loose pyramid: hardiest of the family.

2	to	2½ ft.	B. & B.....	1.50	13.50	120.00
2½	to	3 ft.	B. & B.....	2.00	18.00	150.00
3	to	4 ft.	B. & B.....	2.75	22.50	200.00
4	to	5 ft.	B. & B.....	3.50	30.00	270.00
5	to	6 ft.	B. & B.....	5.00	45.00	400.00
6	to	7 ft.	B. & B.....	7.50		
7	to	8 ft.	B. & B.....	9.00		

— aurea. 35'-40' Golden Sawara Cypress

Foliage is shining yellow. A better specimen than the green type.

2	to	2½ ft.	B. & B.....	1.50	13.50	120.00
2½	to	3 ft.	B. & B.....	2.00	18.00	150.00
3	to	4 ft.	B. & B.....	2.75	22.50	200.00

5	to	6 ft.	B. & B.....	5.00	45.00	400.00
6	to	7 ft.	B. & B.....	7.50	67.50	
7	to	8 ft.	B. & B.....	9.00		
8	to	10 ft.	B. & B.....	12.00		

Each Per 10 Per 100

CHAMAECYPARIS (RETINOSPORA) ALL EVERGREEN

pisifera filifera. 20'-25'**Thread Cypress**

Has long stringy drooping branches, but forms well shaped compact broad pyramid of a good green shade. Even without care remains in good condition indefinitely. Good spot plant.

1½ to 2 ft.	B. & B.....	1.25	10.00	75.00
2 to 2½ ft.	B. & B.....	1.50	12.50	90.00
2½ to 3 ft.	B. & B.....	2.25	20.00	150.00
3 to 4 ft.	B. & B.....	3.00	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	375.00
5 to 6 ft.	B. & B.....	6.00	52.50	
6 to 7 ft.	B. & B.....	8.25		

— — aurea. 10'-15'**Golden Thread Cypress**

This form grows more loosely, but the golden threads are brighter than any other evergreen. Stays low until a good age.

15 to 18 in.	B. & B.....	1.50	12.50	100.00
1½ to 2 ft.	B. & B.....	2.25	20.00	150.00
2 to 2½ ft.	B. & B.....	3.00	27.00	225.00
2½ to 3 ft.	B. & B.....	4.00	35.00	300.00
3 to 4 ft.	B. & B.....	5.25	48.00	400.00
4 to 5 ft.	B. & B.....	7.50	67.50	
5 to 6 ft.	B. & B.....	10.00		

— — aureo-variegata. 10'-12'**Variegated Thread Cypress**

The half green, half yellow coloring is not so remarkable, but its billowy outline gives it rugged age-old individuality.

15 to 18 in.	B. & B.....	1.25	10.00	90.00
1½ to 2 ft.	B. & B.....	2.00	18.00	165.00
2 to 2½ ft.	B. & B.....	3.00	27.00	225.00
2½ to 3 ft.	B. & B.....	4.50	40.00	
3 to 3½ ft.	B. & B.....	6.00	52.50	
3½ to 4 ft.	B. & B.....	9.00		

— plumosa. 35'-40'**Plume Cypress**

A feathery pyramid that can be sheared into formal shapes. It makes a good hedge where a close fine texture is called for.

2 to 2½ ft.	B. & B.....	1.50	13.50	120.00
2½ to 3 ft.	B. & B.....	2.00	18.00	150.00
3 to 4 ft.	B. & B.....	2.75	22.50	200.00
4 to 5 ft.	B. & B.....	3.50	30.00	270.00
5 to 6 ft.	B. & B.....	5.00	45.00	400.00
6 to 7 ft.	B. & B.....	7.50	67.50	
7 to 8 ft.	B. & B.....	9.00		
8 to 10 ft.	B. & B.....	12.00		

— — aurea. 25'-30'**Golden Plume Cypress**

Quite a favorite for high lights in a mixed planting. The yellow foliage is particularly bright in spring. Easily trimmed.

1½ to 2 ft.	B. & B.....	1.20	10.00	90.00
2 to 2½ ft.	B. & B.....	1.50	13.50	120.00

4 to 5 ft.	B. & B.....	4.50		

CHIMAPHILA maculata. 6"-8" **Pipsissewa**

EVERGREEN. Essentially a shady woods plant where it revels in leaf mold, but soon establishes a home in a shady pocket in the rock garden. The handsome long narrow leaves are beautiful, marbled white with purple tinges throughout, and the loveliest white saucers are held up on long stems.

4" Pots.....	.50	4.00	35.00	
--------------	-----	------	-------	--

CHIONANTHUS virginica. 20'-25' **White Fringe**

Loose tassels of fragrant white flowers are effective against the bold dark green foliage; really handsome for "dominant" spots. Dark purple plum-like fruits are quickly eaten by birds.

2 to 3 ft.....	.60	5.00	40.00	
3 to 4 ft.....	.85	7.50	60.00	
4 to 5 ft.....	1.25	11.00	90.00	
5 to 6 ft.....	1.50	13.50		

CLADRASTIS lutea. 40'-50' **Yellow-wood**

Has loose bunches of fragrant white pea-shaped flowers in June. The clear yellow autumn coloring is striking, too.

3 to 4 ft.....	2.00	15.00	135.00	
4 to 6 ft.....	3.00	27.50	225.00	
6 to 8 ft.....	3.50			

CLEMATIS paniculata. Vine, 25'-30' **Sweet Autumn Clematis**

The sweet September fragrance of this old favorite indicates its presence long before the flower-laden vine is seen; and the feathery seeds are also decorative. Belongs to the home.

2 yr.....	.40	3.00	25.00	
3 yr.....	.60	4.50	35.00	

CLETHRA alnifolia. 7'-8' **Summer Sweet**

Useful for damp woodlands where the erect white flower spikes spice the air with a "peppery" odor all summer. Will grow contentedly even in poor soil or sun, best in half shade.

1½ to 2 ft.....	.45	3.50	30.00	
2 to 3 ft.....	.50	4.50	40.00	
3 to 4 ft.....	.60	5.50	50.00	

COLUTEA arborescens. 10'-12'		Each	Per 10	Per 100
			Bladder Senna	
So called because the reddish seed pods are inflated, which follow the small bright yellow pea blossoms. Interesting.				
3	to 4 ft.....	.50	4.00	
CORNUS alba (sibirica.) 8'-10'			Coral Dogwood	
Grows vigorously in moist places, where the vivid red bark is strikingly evident throughout winter, particularly if used with the yellow twig form. Birds quickly eat the berries.				
2	to 3 ft.....	.45	3.50	25.00
3	to 4 ft.....	.60	5.00	40.00
4	to 5 ft.....	.75	6.00	
alternifolia. 15'-20'			Pagoda Dogwood	
Too seldom used, this handsome shrub is full of character, with flat spreading tiers of branches creating deep shadows.				
2	to 3 ft.....	.60	5.00	
3	to 4 ft.....	.75	6.50	
amomum. 8'-10'			Silky Dogwood	
In autumn the bluish fruits are most ornamental, and even in winter the purplish branches give color. Good for massing, particularly in swampy areas. Has large silky foliage.				
2	to 3 ft.....	.45	3.50	
3	to 4 ft.....	.60	5.00	
controversa. 25'-30'			Giant Dogwood	
Rarely seen and of no outstanding merit although the blue-black berries are quite large and it develops character with age.				
4	to 5 ft.....	1.20	10.00	
5	to 6 ft.....	1.80	15.00	
florida. 25'-30'			White Flowering Dogwood	
Surely everyone knows this splendid tree. Nothing is so spectacularly beautiful in spring as the banks of white flowers that border the woods. Then the profusion of glittering red berries and finally the brilliant autumn display of rich coloring, pink, crimson, scarlet, maroon. And in winter the twiggy intricate branch system forms a lacy network full of interest and beauty. Very adaptable and transplants readily.				
3	to 4 ft.....	.90	7.50	60.00
4	to 5 ft.....	1.50	12.00	90.00
5	to 6 ft. B. & B.....	2.25	20.00	180.00
6	to 8 ft. B. & B.....	3.00	27.00	240.00
8	to 10 ft. B. & B.....	5.25	48.00	
10	to 12 ft. B. & B.....	7.50		
— rubra. 25'-30'			Red Flowering Dogwood	
Substitute pink flowers and you can imagine what a gorgeous effect can be made by using this form either alone or with the white type. Splendid free flowering specimens.				
2	to 3 in. B. & B.....	1.50	13.50	120.00
3	to 4 ft. B. & B.....	2.25	20.00	180.00

5	to 6 ft. B. & B.....	6.00	52.50	480.00
6	to 7 ft. B. & B.....	7.50	67.50	600.00
7	to 8 ft. B. & B.....	12.00	110.00	
8	to 9 ft. specimens, B. & B.....	18.00		
kousa. 15'-20'			Kousa Dogwood	
In this Japanese counterpart of our dogwood the white flowers are borne after the leaves have expanded and thus lengthens the "Dogwood season." Large crimson strawberry-like fruits are attractive to humans and birds alike.				
2	to 3 ft. B. & B.....	1.00	9.00	75.00
3	to 4 ft. B. & B.....	1.50	13.50	120.00
4	to 5 ft. B. & B.....	2.10	18.00	
5	to 6 ft. B. & B.....	2.70	24.00	
6	to 8 ft. B. & B.....	3.30	30.00	

Each Per 10 Per 100

CORNUS kousa chinensis. 15'-20' *Chinese Dogwood*

Has still larger flowers; and don't the birds relish the fruits!

2	to	3	ft.	B. & B.....	1.00	9.00	75.00
3	to	4	ft.	B. & B.....	1.50	13.50	120.00
4	to	5	ft.	B. & B.....	2.10	18.00	
5	to	6	ft.	B. & B.....	2.75	24.00	
6	to	8	ft.	B. & B.....	3.30		

mas. 15'-20' *Cornelian Cherry*

Generally the first shrub to show color in spring when the twiggy branches are covered in a yellow mist that gradually becomes brighter. Later the cherry-like fruits are attractive and palatable. Should be used extensively in border plans.

2	to	3	ft.....	.90	8.00	70.00
3	to	4	ft.....	1.20	10.00	90.00
4	to	5	ft.....	1.80	15.00	135.00
5	to	6	ft.....	2.50	22.50	

paniculata. 10'-12' *Gray Dogwood*

Here is the massing shrub "par excellence." Bordering swampy sections great mounds can be seen with the myriad clusters of white berries on red stems adding color to the countryside. A splendid foliage mass. Good in upland too.

1½	to	2	ft.....	.45	3.50	
2	to	3	ft.....	.60	5.00	40.00
3	to	4	ft.....	.70	6.00	50.00
4	to	5	ft.....	.90		

stolonifera. 8'-10' *Red Osier Dogwood*

Valued chiefly for its bright red twigs, a welcome note in the dull winter landscape. Severe annual pruning will bring out the color. Will form a thicket eventually. Loves moisture.

2	to	3	ft.....	.40	3.00	
---	----	---	---------	-----	------	--

— flaviramea. 6'-8' *Goldentwig Dogwood*

Surprisingly bright yellow bark brightens any corner where this fellow is planted. Smaller than, but good with red osier.

2	to	3	ft.....	.55	4.50	
3	to	4	ft.....	.75	6.00	

COTONEASTER acutifolia. 8'-10' *Pekin Cotoneaster*

So hardy that in the colder middle west this shrub is used extensively as a hedge plant, and it has just the right spreading twiggy habit to show off the numerous black berries.

2	to	3	ft.....	.60	5.00	40.00
3	to	4	ft.....	.70	6.00	50.00

adpressa. 9'-12" *Creeping Cotoneaster*

Decidedly a rock plant, where the creeping branches weave in and around intricately, forming an interesting mound. The glossy dark green wavy leaves show off the large bright red berries to perfection. Must have a sunny spot.

3	in. pots.....	.75	6.00	50.00
4	in. pots.....	1.50	13.50	

apiculata. 4'-5'

Graceful spreading branches, shiny foliage, flowers tinged pink, and large bright red fruits—surely a handsome fellow.

4	in. pots.....	1.50	13.50	
---	---------------	------	-------	--

dammeri. 12''-15'' *Dammer Cotoneaster*

EVERGREEN. Long branches trail along the ground rooting where they touch, are scantily clothed with inch long roundish dark green leaves. Bright red fruits, evergreen foliage and prostrate habit make this a rock garden favorite.

3	in. pots75	6.00	50.00
5	in. pots	1.50	13.50	

COTONEASTER

Each Per 10 Per 100

dielsiana. (applanata) 5'-6'*Diel's Cotoneaster*

Has slender arching branches, pinkish flowers and small foliage. Bright red fruits add to its beauty.

4 in. pots90 7.50

divaricata. 4'-6'*Spreading Cotoneaster*

When studded with scarlet fruits, this shrub justifies a choice position. Vigorous and spreading with good clean foliage.

Another little-known gem, useful as a hedge or specimen.

1 to 1½ ft. B. & B..... .90 7.50

1½ to 2 ft. B. & B..... 1.50 12.50 110.00

2 to 2½ ft. B. & B..... 2.00 18.00

foveolata. 8'-10'*Pitted Cotoneaster*

A big fellow with splendid autumn dress, which shows off the glittering black berries. Has interesting irregular growth.

3 in. pots..... .75 6.00

horizontalis. 2'-3'*Rock Cotoneaster*

HALF EVERGREEN. The flat spray-like branches make an ideal cover for rocks or bank, especially when the deep green box-like leaves are bejewelled with the scarlet berries. Full open sunny place is best. Rather difficult to transplant.

3 in. pots..... .75 6.00 50.00

— perpusilla. 1'-2'*Dwarf Rock Cotoneaster*

HALF EVERGREEN. Smaller and neater than its parent, but even more effective in rock work. The bright red berries are generally larger, leaves are smaller, but more numerous.

4 in. pots..... 1.25 10.00 75.00

hupehensis. 5'-6'*Hupei Cotoneaster*

really a handsome flowering shrub, the willowy branches forming garlands of white in June and then are weighted down with numerous red fruits. Leaves yellow in August.

4 in. pots..... 1.50 13.50

racemiflora soongarica. 6'-7'*Coral Fruited Cotoneaster*

When seen in full fruit, this lovely shrub never fails to excite admiration and cause superlative adjectives. The wide spreading branches are just loaded with coral berries, contrasting vividly with the round gray-green leaves. Plant in open and give space to develop, at least six feet apart.

2 to 3 ft. B. & B..... 2.25 20.00

rotundifolia. 6'-7'*Roundleaf Cotoneaster*

HALF EVERGREEN. Red berries in galore, clean attractive foliage and easily grown; there is no good reason why this shrub should not be extensively planted. Good for hedges.

4 in. pots..... .75 6.50

salicifolia floccosa. 8'-10'*Willowleaf Cotoneaster*

EVERGREEN or practically so, the long slender leaves are dark green above, lighter beneath, and show off the red berries beautifully. Surely a most graceful spreading shrub.

4 in. pots..... 1.50 13.50 120.00

zabeli miniata. 4'-6'*Zabel Cotoneaster*

It is difficult to visualize any shrub that fruits more profusely. The slender spreading branches become garlands of vivid red berries which are effectively contrasted by the yellow autumn foliage. Easily grown and a beauty.

1 to 1½ ft. B. & B..... 1.20 10.00 90.00

1½ to 2 ft. B. & B..... 1.50 13.50

Each Per 10 Per 100

CRATAEGUS carrieri. 15'-20'**Carrier Hawthorn**

Very large round orange-red fruits persist nearly all winter.
Has distinctive gray bark; open growth and rather round head.

3	to	4	ft.	B. & B.....	1.50	13.50	
---	----	---	-----	-------------	------	-------	--

coccinea. 10'-12'**Thicket Hawthorn**

That is right, a real thicket shrub, for the intricate maze of branches forms a veritable barrier. The white May-flowers are large and give place to rather dull brown-red berries. Shiny bright green foliage is almost oval, good till late fall.

3	to	4	ft.....		1.25	11.00	90.00
4	to	5	ft.....		1.50	13.50	125.00
5	to	6	ft.....		2.25	20.00	
6	to	8	ft.	B. & B.....	3.60		

cordata. 20'-25'**Washington Thorn**

Beginning in May with white flowers followed by brilliant scarlet fruits which last nearly all winter, and throughout its pageant of autumn color this is interesting and beautiful.

4	to	5	ft.	B. & B.....	2.00	18.00	150.00
5	to	6	ft.	B. & B.....	3.00	27.00	

crusgalli. 20'-25'**Cockspur Thorn**

Apart from the mass of white flowers, this Thorn is valuable for the shiny rich green leaves that stay fresh until late autumn, then turn orange. If left by birds, some fruits will persist until spring. A practical hedge, an interesting tree.

3	to	4	ft.....		1.25	11.00	90.00
4	to	5	ft.....		1.50	13.50	125.00
5	to	6	ft.....		2.25	20.00	

mollis. 20'-25'**Downy Hawthorn**

Has large light green thin leaves, showy white red-centered flowers, scarlet pear-shaped fruits. Vigorous and ornamental.

3	to	4	ft.....		1.25	11.00	90.00
4	to	5	ft.....		1.50	13.50	125.00
5	to	6	ft.....		2.25	20.00	175.00
6	to	8	ft.	B. & B.....	3.25	30.00	270.00
8	to	10	ft. specimens, B. & B.....		5.25	48.00	
10	to	12	ft. specimens, B. & B.....		7.50		

pedicellata. 15'-18'

Has rather large shiny scarlet fruits somewhat pear-shaped and handsome dark green leaves.

2	to	3	ft.	B. & B.....	1.35	12.00	90.00
3	to	4	ft.	B. & B.....	1.80	15.00	
4	to	5	ft.	B. & B.....	2.25		

oxycantha. 20'-25'**English Hawthorn**

In England this "May-Tree" is often used for hedging, but the clusters of large fragrant white flowers with their elusive fragrance and red berries make it worthy of general planting.

3	to	4	ft.....		.75	6.00	50.00
4	to	5	ft.....		1.00	8.50	75.00
5	to	6	ft.....		1.35	12.00	105.00
6	to	8	ft.	B. & B.....	2.70	24.00	210.00
8	to	10	ft.	B. & B.....	3.75		

— Double White, — Double Pink, — Paul's Scarlet.

Double flowering forms that have been perpetuated because of the freedom with which they produce their blossoms.

8	to	10	ft. (white only) B. & B.....		7.50		

CRYPTOMERIA

Each Per 10 Per 100

— **lobbi.** 50'-60'*Lobb Cryptomeria*

EVERGREEN. For this section undoubtedly the best form. It makes an irregular column of dark green, which changes to a warm purple bronze in winter. It wears so well that it has been most effectively used to replace native cedars that succumb to civilization. It is difficult to imagine any tree that has more dignity and inherent character than this. An avenue of large trees creates a most inspiring effect. A warm, moist, well-drained spot is ideal; grows late in fall.

4	to	5	ft.	B. & B.....	4.50	40.00	
5	to	6	ft.	B. & B.....	6.00	55.00	500.00

7	to	8	ft.	B. & B.....	11.00	100.00	900.00
8	to	9	ft.	B. & B.....	13.50	120.00	
9	to	10	ft.		18.00		

CYDONIA japonica. 3'-4'*Flowering Quince*

Quite unnoticed until the dazzling scarlet pageant of flowers arrests your attention in early spring. Seedling plants vary in color, and the fruits are spicily fragrant. Makes good hedge.

1	to	1½	ft.		.40	3.00	25.00
1½	to	2	ft.		.50	4.00	30.00
2	to	2½	ft.		.60	5.00	40.00
2½	to	3	ft.		.75		

— **alpina.** 1'-2'*Alpine Quince*

A slow growing almost prostrate form with pink flowers.

12	to	18	in.		.75	6.50	
2½	to	3	ft.	B. & B.....	3.00		

— **grandiflora.** 3'-4'

Cream colored flowers variegated with pink—quite a novelty.

2½	to	3	ft.	B. & B.....	3.00		
----	----	---	-----	-------------	------	--	--

— **navalis.** 3'-4'*White Flowering Quince*

The best white form with large flowers freely produced.

1½	to	2	ft.		1.20		
----	----	---	-----	--	------	--	--

maulei. 2'-3'*Lesser Flowering Quince*

If brilliancy is desired this low spiny bush ranks high for the vivid red flowers are remarkable in April. Try training this and other varieties on a south wall—surprisingly good.

1½	to	2	ft.		.75	6.00	
----	----	---	-----	--	-----	------	--

CYTISUS scoparius 5'-6'*Scotch Broom*

The long slender bright green branches are always conspicuous particularly when the pea-shaped yellow flowers are strung them in spring.

5	in. pots	1½	to	2	ft.	.75	6.00
---	----------	----	----	---	-----	-----	------

DAPHNE cneorum. 1'*Rose Daphne*

EVERGREEN. Gray-green foliage, rose-pink deliciously fragrant flowers and a clean, neat habit make this garden gem the most appealing subject to any plant lover. Seems to thrive equally well in acid or sweet soil, in half shade or full sun, and it certainly seems at home in the rock garden.

9	to	12	in.	B. & B.....	1.20	10.50	90.00
12	to	15	in.	B. & B.....	1.80	15.00	135.00

DEUTZIA gracilis. 3'-4'*Slender Deutzia*

One of the most useful of all low shrubs. A profusion of snow white flowers cover the round topped bush in May.

1½	to	2	ft.		.50	4.00	30.00
2	to	2½	ft.		.60	5.00	

— **rosea.** 3'*Rose Panicle Deutzia*

The pinkish flowers are an added attraction to the neat habit.

1½	to	2	ft.		.50	4.00	
----	----	---	-----	--	-----	------	--

DEUTZIA

Each Per 10 Per 100

lemoinei. 4'-5'

Lemoine Deutzia

Large dazzling white flowers are produced in amazing abundance making a "high spot" in June.

1½ to 2	ft.....	.35	3.00
2 to 3	ft.....	.45	3.50

magnifica. 6'-8'

Showy Deutzia

Really magnificent in bloom, has great clusters of white flowers, more showy and desirable than any other variety.

2 to 3	ft.....	.40	3.00	25.00
3 to 4	ft.....	.50	4.00	30.00

scabra crenata. 6'-7'

Scallop leaf Deutzia

Rather stiff branches set off the pinkish fringed flowers.

3 to 4	ft.....	.50	4.00	30.00
4 to 5	ft.....	.60		

— Pride of Rochester. 8'-9'

Pink Deutzia

Deservedly popular, this husky fellow produces clouds of tassel-like flowers in May which last for some weeks. The usual blush coloring sometimes deepens to a real pink.

2 to 3	ft.....	.40	3.00	
3 to 4	ft.....	.50	4.00	30.00
4 to 5	ft.....	.60		

DIERVILLA trifida. 3'-4'

Dwarf Bush Honeysuckle

So called because the yellow mid-summer flowers somewhat resemble the honeysuckle. In landscape planting it is a most useful low bush for shade, where autumn color shows well. Soon forms a sightly mass by underground stems.

1 to 1½	ft.....	.50	4.50	40.00
---------	---------	-----	------	-------

ELAEAGNUS longipes. 5'-6'

Gumi - Cherry Eleagnus

Hot dry sunny place seems to perfect this shrub. Except for their fragrance the yellow flowers might be unnoticed, but the long stemmed orange-red fruits are most decorative.

1½ to 2	ft.....	.50	4.00	30.00
2 to 3	ft.....	.60	5.00	40.00
3 to 4	ft.....	.75	6.50	55.00
4 to 5	ft.....	1.00	9.00	

pungens reflexa. 10'-12'

Thorny Eleagnus

EVERGREEN. When established will successfully brave our winters and is certainly worthy of trial. The wavy rich green two or three inch leaves are brown, scaly beneath, and the small clusters of silvery flowers are "scented before seen" followed by decorative orange fruits.

2 to 2½	ft. B. & B.....	2.25		
---------	-----------------	------	--	--

umbellata. 8'-10'

Autumn Eleagnus

The oval scarlet fruits are most striking in September against the silver foliage.

3 to 4	ft.....	.60		
4 to 5	ft.....	.75		
5 to 6	ft.....	1.00		

ENKIANTHUS campanulatus. 12'-15'

Redvein Enkianthus

Something to enthuse over! Without artificial shaping will develop into a handsome large shrub well clothed with clean foliage which turns brilliant red in fall. Bunches of nodding flowers are borne on the whorled branches, and these red-veined white cups are quite unlike any other flower.

2 to 2½	ft. B. & B.....	3.75		
---------	-----------------	------	--	--

ERICA carnea. 10'-12'

Spring Heath

EVERGREEN. Opening in early spring, the bright rosy-pink flowers persist for months, surely a most striking thing.

3 in. pots.....		.60	5.00	40.00
-----------------	--	-----	------	-------

Each Per 10 Per 100

EUONYMUS alatus. 7'-8'**Winged Euonymus**

Pink and crimson in autumn, interesting corky branches in winter, this handsome interesting shrub is all too little known.

2	to	3	ft.....	.50	4.50	40.00
3	to	4	ft.....	.75	6.00	55.00
4	to	5	ft.....	1.00	9.00	80.00
5	to	6	ft.....	1.50	13.50	

patens. 8'-10'**Spreading Euonymus**

HALF-EVERGREEN. If in doubt plant this shrub—it seems contented in all places and conditions. The glossy 3-inch wavy leaves become stained with purple as autumn progresses and the orange fruits hang on almost until spring. Makes a broad round specimen, perfectly shaped for hedges.

1½	to	2	ft.	B. & B.....	.90	7.50
----	----	---	-----	-------------	-----	------

radicans. Vine, 15'-20'**Wintercreeper**

EVERGREEN. Makes good cover for wall or ground.

2	yr.....	.40	3.00	25.00
---	---------	-----	------	-------

— carrieri. 3'-4'**Glossy Wintercreeper**

EVERGREEN. Large shiny leaves mark this brisk grower as quite distinct. Will make a fine hedge, but rarely fruits.

2	yr.....	.35	3.00	
---	---------	-----	------	--

— coloratus. 4'-6'**Purple Wintercreeper**

EVERGREEN. For a ground cover in shade there are few things to equal this. The long narrow leaves are rosy-purple underneath and the veins pencilled in gray. Most adaptable.

2	yr.....	.40	3.00	25.00
---	---------	-----	------	-------

— minimus. 3'**Baby Wintercreeper**

EVERGREEN. Tiny leaves, pencilled in gray, are daintily arranged along the climbing vines, which grow vigorously to their appointed stature; then age. Useful for rock gardens.

3	in. pots.....	.40	3.50	
---	---------------	-----	------	--

— vegetus. Vine, 12'-15'**Bigleaf Wintercreeper**

EVERGREEN. Generally conceded to be the most reliable self-clinging evergreen vine in the north. From the shrubby bush long basal shoots climb on almost any support. Has thick dull green round leaves and orange fruits in profusion.

2	yr.....	.40	3.00	25.00
3	yr.....	.50	4.00	30.00

EVODIA chinensis. 20'-25'**Evodia**

A small tree with compound leaves, tiny pinkish white flowers in small clusters followed by reddish seed pods. Scarce.

1½	to	2	ft.....	.60	5.00	
----	----	---	---------	-----	------	--

EXOCHORDA grandiflora. 8'-10'**Pearl Bush**

During May the dazzling whiteness of the lovely frail-looking flowers always attract attention. Annual pruning improves.

2	to	3	ft.....	.40	3.60	
3	to	4	ft.....	.50	4.50	

FAGUS americana. 80'-100'**American Beech**

Grows slowly, but a handsome native, whose clean gray-barked trunks are familiar in light woods. Prefers well drained alkaline soil and spring planting. Truly a beautiful tree.

2	to	3	ft.	B. & B.....	2.00	18.00	150.00
3	to	4	ft.	B. & B.....	2.50	22.50	210.00
4	to	5	ft.	B. & B.....	3.25	30.00	
5	to	6	ft.	B. & B.....	5.25		
6	to	7	ft.	B. & B.....	7.50		

Each Per 10 Per 100

FAGUS sylvatica. 80'-100' *European Beech*

Has smaller darker leaves and grows even more slowly than the native. Likes similiar treatment, shade while young.

2	to	3	ft.	B. & B.....	2.00	18.00	150.00
3	to	4	ft.	B. & B.....	2.50	22.50	210.00
4	to	5	ft.	B. & B.....	3.25	30.00	
5	to	6	ft.	B. & B.....	5.25		

— **asplenifolia. 60'-70'** *Fernleaf Beech*

Well named for the deeply cut long narrow graceful leaves.

2	to	3	ft.	B. & B.....	3.50	30.00	
3	to	4	ft.	B. & B.....	4.50	40.00	
4	to	5	ft.	B. & B.....	6.50	60.00	
5	to	6	ft.	B. & B.....	9.00		

— **fastigiata. 40'-50'** *Upright Beech*

Not considering time this would be an excellent substitute for the Lombardy Poplar. Inspiring when mature. Scarce.

1 ½	to	2	ft	B. & B.....	2.75	22.50	
-----	----	---	----	-------------	------	-------	--

— **pendula. 50'-60'** *Weeping Beech*

Of all "weeping" trees this is the finest, the branches descend to the ground in broad tortuous curves making a character specimen even in winter. Effective on rolling contours.

2	to	3	ft.	B. & B.....	3.50	30.00	
3	to	4	ft.	B. & B.....	5.00		
4	to	5	ft.	B. & B.....	7.50		
5	to	6	ft.	B. & B.....	10.00		

— **riveri. 70'-80'** *Rivers Purple Beech*

The best purple leaf tree, grafted. Handsome and dignified.

2	to	3	ft.	B. & B.....	3.50	30.00	270.00
3	to	4	ft.	B. & B.....	4.50	42.50	375.00
4	to	5	ft.	B. & B.....	6.50	57.50	500.00
5	to	6	ft.	B. & B.....	9.00	80.00	725.00
6	to	7	ft.	B. & B.....	12.00		

FORSYTHIA intermedia. 8'-9' *Border Golden Bell*

Almost synonymous with April, and the long branches are useful for winter forcing. This form has arching branches.

2	to	3	ft.....		.40	3.50	30.00
3	to	4	ft.....		.50	4.50	35.00
4	to	5	ft.....		.65	5.50	45.00

— **spectabilis. 8'-9'** *Showy Border Golden Bell*

Here is the most spectacular member of the family, with larger deeper yellow flowers in profusion. Indispensable.

2	to	3	ft.....		.40	3.50	30.00
3	to	4	ft.....		.50	4.50	35.00

ovata. 6'-8' *Korean Goldenbell*

Of all the goldenbells this has proved most hardy. While the amber yellow flowers are not so numerous or showy as other forms, they will defy any winter we can ever expect.

2	to	3	ft.....		.90	7.50	
---	----	---	---------	--	-----	------	--

suspensa. 6'-8' *Weeping Golden Bell*

Much more graceful, particularly if allowed to hang over a retaining wall. The willowy branches root at the tips and form an immense mass in a few years. Effective on walls.

1 ½	to	2	ft.....		.35	3.00	25.00
2	to	3	ft.....		.40	3.50	30.00
3	to	4	ft.....		.50	4.50	35.00

FORSYTHIA

Each Per 10 Per 100

viridissima. 8'-9'*Green Stem Forsythia*

The last to flower. Vigorous, upright stems have green bark.

2	to	3	ft.....	.40	3.50	30.00
3	to	4	ft.....	.50	4.50	35.00
4	to	5	ft.....	.65	5.50	45.00
5	to	6	ft.....	.90		

GENISTA pilosa. 1'-2'*Silky Leaf Broom*

Will convert a hot, stony bank into a blanket of brilliant yellow in May and June. The dark, neat foliage is attractive.

4" pots, 3 yr.....	1.25	9.00	75.00
--------------------	------	------	-------

sagittalis. 9"-12" **Arrowhead Broom*

Low almost prostrate flat jointed stems curve up to hold the little bunches of clear yellow pea-blossoms in June and July, and afterwards the silky seed pods hold attention.

3 yr90	7.50	60.00
------------	-----	------	-------

GINKGO biloba. 100'*Maidenhair Tree*

Full of interest, historically and physically, a grand old patriarch of a bygone age. Practically insect, dust and disease proof; good for city planting, but oh! how slowly it grows.

6	to	8	ft.....	3.50	30.00	240.00
8	to	10	ft., 1 1/4 to 1 1/2 in.....	5.00	45.00	
10	to	12	ft., 1 1/2 to 1 3/4 in.....	6.75		

GYMNOCLADUS dioica. 60'-80'*Kentucky Coffee Tree*

Gnarled branchlets and thick branches create a picture of age.

2	to	3	ft.....	.90		
3	to	4	ft.....	1.25		

HALESIA tetraptera. 20'-25'*Great Silver Bell*

During May a lovely thing indeed. Myriads of little pearly bells dangle from the reaching branches, to be followed by interesting brown winged seeds. Will yet come into its own.

3	to	4	ft.....	.60	5.00	40.00
4	to	5	ft.....	.75	6.00	55.00
5	to	6	ft.....	1.00	9.00	80.00
6	to	8	ft.....	1.35	12.50	

HAMAMELIS mollis. 15'-25'*Chinese Witch Hazel*

Every February this glorious shrub surprises us with its fragrant ribbon-like flowers of spun gold draped throughout the branches. Always a cheerful spot in a drab winterscape, even in zero weather. In summer the handsome velvety gray-green foliage clothes this well shaped bush, which seems happiest in slightly moist place. Indispensable for the border.

1 1/2	to	2	ft.....	.90	7.50	
-------	----	---	---------	-----	------	--

vernalis*Vernal Witch Hazel*

Not so showy but sweetly fragrant these pale yellow flowers mature in January, opening and closing with warm and cold spells. The small foliage is smooth but deeply veined.

There is also a form with flowers stained with brownish-red.

2	to	3	ft.....	.75	6.50	55.00
3	to	4	ft.....	.90	8.00	75.00
4	to	5	ft.....	1.35	12.00	

virginiana. 15'-25'*Witch Hazel*

The fringy light yellow flowers are conspicuous in November brightening our native woods. Splendid in mass when the rich yellow autumn color is effective bordering swamps.

1 1/2	to	2	ft.....	.50	4.00	30.00
2	to	3	ft.....	.60	5.00	40.00
3	to	4	ft.....	.70	6.00	50.00
4	to	5	ft.....	.80	7.00	60.00
5	to	6	ft.....	1.00	9.00	

Each Per 10 Per 100

HEDERA helix. 60'-75' **English Ivy**

EVERGREEN. Where hardy the finest ground or wall cover. For this section it is best to plant where morning sun does not strike. In winter the rich green foliage is beautifully veined with white. Once established it becomes ageless.

3 in. pots..... .30 2.50 20.00

4 in. pots35 3.00 25.00

— **baltica. 30'-40' EVERGREEN.** **Baltic Ivy**

Quite similar to the English Ivy, but has smaller leaves veined white, which in winter assume a purplish tone. Being really hardy this is more reliable for general use. Clings tightly.

4 in. pots..... .60 5.00 40.00

— **conglomerata. 1½'-2' EVERGREEN.** **Bunchleaf Ivy**

The curiously twisted stems are crowded with small wavy leaves. Looks perfectly at home in the rock garden where it never grows out of bounds, introduces a weathered effect.

3 in. pots..... .50 4.50 35.00

— **gracilis. 40'-50' EVERGREEN.** **Small Leaf English Ivy**

A more refined offspring from the English Ivy. The slender vines are not so densely clothed with foliage which is deliciously marbled white and seems hardier than the type.

4 in. pots60 5.00 40.00

— **Lexington form. EVERGREEN**

After many years of trial and observation this form can be pronounced as quite hardy as it withstands the severe weather of New England. It clings easily to almost any support and the rather small leaves make an attractive covering.

4 in. pots..... .75 6.00 50.00

HIBISCUS syriacus. 10'-12' **Rose of Sharon**

Has a characteristic upright habit useful in formal work.

Plant in spring as it grows until late autumn. Flowers August.

Ardens, Double purple

Rubens, Single red

Boule de Feu, Double red

Peoniflorus, Double pink

2 to 3 ft..... .50 4.00 30.00

3 to 4 ft..... .60 5.00 40.00

coelestis, Single blue

W. R. Smith, Single white

2 to 3 ft..... .75 6.50

HYDRANGEA

arborescens grandiflora. 4'-5' **Snow Hill Hydrangea**

The rather straggling habit is more than offset in July and August by the fine display of white flowers borne in large bunches. Prune severely for best results. Useful in shade.

2 to 3 ft..... .40 3.00

3 to 4 ft..... .50 4.00 35.00

bretschneideri. 6'-8' **Shaggy Hydrangea**

Develops into a handsome round bush bearing characteristic white flowers that assume a purple tinge with age. The chestnut brown bark peeling off the branchlets is interesting.

2 to 3 ft..... .60 5.00

3 to 4 ft..... .75 6.50

paniculata. 10'-12' **Panicle Dogwood**

The long loose trusses of white flowers are borne gracefully and make this a most desirable shrub for August bloom.

3 to 4 ft..... .60 5.00

HYDRANGEA

Each Per 10 Per 100

paniculata grandiflora. 8'-10'*Peegee*

Almost everyone knows the great heads of white flowers that gradually turn pink when cut and dried for decoration.

2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.60	5.00	

petiolaris. Vine, 35'-40'*Climbing Hydrangea*

Until it takes on some age the sterling character of this little known climbing shrub is not appreciated. The large round leaves shingle the wall forming a perfect background for the flat topped bunches of fragrant white flowers in early summer. The old stems have brown bark. Prefers north wall.

4	in. pots.....	1.50	13.50	120.00
8	in. pots 7 yr	5.00		

quercifolia. 3'-4'*Oak Leaf Hydrangea*

Glorious in its autumn dress when the large oak-like leaves assume brilliant colors. The white flowers gradually turn purplish when old: worthwhile shrub, semi-shade or woods margin.

1½	to	2	ft.....	.60	5.00	40.00
2	to	3	ft.....	.75		

HYPERICUM aureum. 3'-4'*Golden St. Johnswort*

Most welcome in July and August when the brilliant yellow flowers are at their best. Even in a dry rocky place will maintain its neat cheerful habit and covering of blue green foliage.

1½	to	2	ft.....	.45	3.50	30.00
2	to	3	ft.....	.50	4.00	
3	to	4	ft.....	.60	5.00	

moserianum. 12"-15"*Goldflower*

HALF EVERGREEN. Many reddish arching stems arise from the ground, each well laden in midsummer with lovely golden yellow flowers with a soft brush-like centre. Will well repay a little shelter. Very useful in herbaceous border.

2	year.....	.40	3.00	
---	-----------	-----	------	--

ILEX cornuta. 10'*Chinese Holly*

EVERGREEN. One that bids well to become a favorite. The oblong rectangular leaves vary from 1½ to 4 inches long but retain the characteristic shape and leathery texture. Scarlet berries are attractive. Need shelter for several winters.

1	to	1½	ft.	B. & B.....	1.50	
---	----	----	-----	-------------	------	--

crenata. 12'-15'*Japanese Holly*

EVERGREEN. Has thick dark lustrous green leaves of variable size never larger than a privet, really quite unlike a holly. Forms a fine large bush for permanent planting and does not object to some shade. Black berries not noticeable.

1	to	1½	ft. Bushy, B. & B.....	1.50	13.50	120.00
1½	to	2	ft. " B. & B.....	2.75	22.50	200.00
2	to	3	ft. " B. & B.....	4.00	35.00	300.00
3	to	4	ft. " B. & B.....	5.25	48.00	

— convexa (bullata.) 3'-4'*Boxleaf Japan Holly*

EVERGREEN. Think of this as a dwarf boxwood which it resembles both in habit and foliage. Any plant lover cannot help but enthuse over an old specimen broader than high well clothed in roundish convex leaves that withstand the hardest winters. Eventually this will be the recognized substitute for dwarf boxwood edging in cold climates.

6	to	9	in. B. & B.....	.75	6.50	55.00
9	to	12	in. B. & B.....	1.00	8.50	65.00
12	to	15	in. B. & B.....	1.20	10.00	90.00
15	to	18	in. B. & B.....	1.80	15.00	135.00

ILEX crenata Each Per 10 Per 100
microphylla. 8'-10' *Littleleaf Japanese Holly*

EVERGREEN. Even the smallest plant shows inherent character and sturdiness. Being more hardy than the type this form is recommended for general use, particularly as the twiggy branches make an ideal hedge or handsome specimen.

1	to	1½ ft.	Bushy, B. & B.....	1.50	13.50	120.00
1½	to	2 ft.	" B. & B.....	2.75	22.50	200.00

6	to	7 ft.	B. & B.....	10.00		

— **xanthocarpa. 25'-30'** *Yellow Fruited Holly*

EVERGREEN. Finally we found this true form with really yellow berries. Similar to the type but more hardy.

5 in. pots	12 to 15 in.....	2.25			
------------	------------------	------	--	--	--

verticillata. 8'-10' *Common Winterberry*

One of the few native shrubs that carries its bright red fruits practically throughout winter. While generally found in swampy ground it seems perfectly happy when high and dry. Plant in groups to insure a crop of berries—it's a holly!

1½	to	2 ft.....	.50	4.00	30.00
2	to	3 ft.....	.60	5.00	40.00
3	to	4 ft.....	.75	6.00	50.00
4	to	5 ft.....	1.00	9.00	75.00
5	to	6 ft.....	1.35	12.00	
6	to	7 ft.....	2.25		

INDIGOFERA amblyantha. 5'-6' *Pink Indigo*

Beginning in July clusters of pink pea-blossoms bejewel the arching branches until October. Airy bright green foliage creates a soft effect often lacking in small border planting.

1½	to	2 ft.....	.60	5.00	40.00
2	to	3 ft.....	.75	6.50	50.00
3	to	4 ft.....	1.00		

gerardiana. 3'-4' *Himalaya Indigo*

Rosy purple flowers and a compact much branching habit are main differences of this form. Will become almost herbaceous in cold exposures but improves every year.

1½	to	2 ft.....	.60	5.00	
2	to	3 ft.....	.75	6.50	

INDIGOFERA

Each Per 10 Per 100

kirilowi. 3'-4'*Kirilow Indigo*

Very small rose colored flowers in dense bunches brighten up the compact bush in July. Withstands drought and heat.

1½ to 2	ft.60	5.00
2 to 3	ft.75	6.50

potanini. 5'-6'*Potanin Indigo*

More upright and compact than the former with slightly larger pale pink flowers. An occasional freeze back helps.

2 to 3	ft.75	6.50
3 to 4	ft.	1.00	9.00

JASMINUM nudiflorum. 4'-5'*Winter Jasmine*

Most effective when the long slender viny branches are trained on a sunny wall to display the bright starry yellow bells in April and sometimes during a warm February. As a shrub the branches will root as they spread, into a mass.

2 yr50	4.00	30.00
------	-------	-----	------	-------

JUNIPERUS. ALL EVERGREEN.*Junipers and Cedars***chinensis. 18'-20'***Chinese Juniper*

A formal narrow cone of gray-green foliage assuming more character with age. Reliable and useful even in cold climate.

2 to 2½	ft.	B. & B.	2.00	17.50	125.00
2½ to 3	ft.	B. & B.	2.50	22.50	175.00
3 to 4	ft.	B. & B.	3.25	27.50	225.00
4 to 5	ft.	B. & B.	4.50	40.00	350.00
5 to 6	ft.	B. & B.	5.50	50.00	450.00
6 to 7	ft.	B. & B.	7.50	65.00	
7 to 8	ft.	B. & B.	9.00		
8 to 10	ft.	B. & B.	12.00		

— albo variegata. 8'-10'*White Leaf Chinese Juniper*

Creamy white branchlets are interspersed throughout the bush. Other foliage is blue-gray. Forms stocky pyramid.

2 to 2½	ft.	B. & B.	2.00	17.50	
2½ to 3	ft.	B. & B.	2.50	22.50	175.00
3 to 4	ft.	B. & B.	3.25	27.50	225.00
4 to 5	ft.	B. & B.	4.50	40.00	350.00
5 to 6	ft.	B. & B.	5.50	50.00	
6 to 7	ft.	B. & B.	7.50		

— columnaris. 20'-25'*Column Chinese Juniper*

Rapidly grows into a slender shaft of gray-green. Splendid "accent" plant. An annual trimming keeps column compact.

2 to 2½	ft.	B. & B.	2.00	17.50	125.00
2½ to 3	ft.	B. & B.	2.50	22.50	175.00
3 to 4	ft.	B. & B.	3.25	27.50	225.00
4 to 5	ft.	B. & B.	4.50	40.00	350.00
5 to 6	ft.	B. & B.	5.50	50.00	450.00
6 to 8	ft.	B. & B.	7.50	65.00	600.00
8 to 10	ft.	B. & B.	11.00	100.00	
10 to 12	ft.	B. & B.	16.50		

— — viridis. 20'-25'*Green Column Juniper*

This green form is more pyramidal and grows more slowly.

2 to 2½	ft.	B. & B.	2.00	17.50	125.00
2½ to 3	ft.	B. & B.	2.50	22.50	175.00
3 to 4	ft.	B. & B.	3.25	27.50	225.00
4 to 5	ft.	B. & B.	4.50	40.00	350.00
5 to 6	ft.	B. & B.	5.50	50.00	
6 to 7	ft.	B. & B.	7.50	65.00	
7 to 8	ft.	B. & B.	9.00	82.50	
8 to 10	ft.	B. & B.	12.00		

JUNIPERUS. ALL EVERGREEN. Each Per 10 Per 100
chinensis fortunei. 12'-15' *Fortune Juniper*

Quite distinct with its informal broadly pyramidal outline, and gray-green foliage this is most useful in mixed planting.

2½ to 3	ft.	B. & B.....	2.50	22.50	175.00
3 to 4	ft.	B. & B.....	3.25	27.50	225.00
4 to 5	ft.	B. & B.....	4.50	40.00	350.00
5 to 6	ft.	B. & B.....	6.00		
6 to 8	ft.	B. & B.....	9.00		

— **japonica. 4'-5'** *Japanese Juniper*

Being extremely hardy this low spreading bush retains its handsome rich green coloring throughout the coldest winter.

Grows slowly and looks at home in a large rock garden.

1½ to 2	ft.	B. & B.....	2.00	15.00	
2 to 2½	ft.	B. & B.....	2.75	22.50	200.00
2½ to 3	ft.	B. & B.....	3.50	30.00	

— — **globes** Formal compact spheres. *Trimmed Globes*

1½ to 2	ft.	B. & B.....	3.00	27.50	
---------	-----	-------------	------	-------	--

— — **aurea. 3'-4'** *Golden Japan Juniper*

Very bright yellow scaly leaves cover this little, slow grower.

12 to 15	in.	B. & B.....	2.00	15.00	
15 to 18	in.	B. & B.....	2.50		

— — **aureo variegata. 4'-5'** *Variegated Japan Juniper*

An odd form intermediate, both in color and growth, between the green type and golden variety.

15 to 18	in.	B. & B.....	2.00	15.00	
1½ to 2	ft.	B. & B.....	2.75	22.50	
2 to 2½	ft.	B. & B.....	3.00	27.50	

— **neaboriensis. 8'-10'** *Conical Chinese Juniper*

Possibly the most formal cone-shaped Juniper we have. Although never trimmed the neat tight pyramid always looks as though just "groomed." A perfect accent or tub plant.

2½ to 3	ft.	B. & B.....	2.50	22.50	175.00
3 to 4	ft.	B. & B.....	3.25	27.50	225.00
4 to 5	ft.	B. & B.....	4.50	40.00	350.00
5 to 6	ft.	B. & B.....	5.50	50.00	450.00
6 to 7	ft.	B. & B.....	7.50	65.00	
7 to 8	ft.	B. & B.....	9.00		

— **oblonga. 10'-12'** *Oblonga Juniper*

Known as "sylvestris" in the South this plant has a wide range for it is extremely hardy. From the broad round base a leader shoots up to form a feathery irregular pyramid. In winter the gray foliage is tinted with frosted purple-lavender.

3 to 4	ft.	B. & B.....	3.25	27.50	
4 to 5	ft.	B. & B.....	4.50	40.00	350.00
5 to 6	ft.	B. & B.....	5.50		

— **pfitzeriana. 5'-6'** *Pfitzer Juniper*

Naturally develops into a low spreading vase-shaped bush formed by handsome plume-like branches. Being resistant to cold, dust, smoke and drought it is widely used in city plantings, and deserves its popularity. Another indispensable.

15 to 18	in.	B. & B.....	1.25	10.00	90.00
1½ to 2	ft.	B. & B.....	1.75	15.00	120.00
2 to 2½	ft.	B. & B.....	2.00	18.00	150.00
2½ to 3	ft.	B. & B.....	2.75	22.50	200.00
3 to 3½	ft.	B. & B.....	4.00	35.00	300.00
3½ to 4	ft.	B. & B.....	5.00	45.00	400.00
4 to 5	ft.	B. & B.....	6.00	52.50	

JUNIPERUS. ALL EVERGREEN. Each Per 10 Per 100
chinensis sargentii. 2'-2½' *Sargent Juniper*

Prostrate in habit, this hardy ground cover quickly forms a mat of bright grass-green foliage in a sunny spot. Very hardy.

12 to 15 in.	B. & B.....	1.50	13.50	120.00
15 to 18 in.	B. & B.....	1.75	15.00	135.00
1½ to 2 ft.	B. & B.....	2.25	20.00	180.00
2 to 2½ ft.	B. & B.....	3.00	27.50	250.00
2½ to 3 ft.	B. & B.....	5.00	45.00	

communis aurea. 2'-2½' *Golden Common Juniper*

Much lower habit this bright yellow form is often seen in "foundation" plantings where a transitional line is needed.

1 to 1½ ft.	B. & B.....	1.35	12.00	
-------------	-------------	------	-------	--

— **montana.** 1½' *Mountain Juniper*

In its native rocky home the large perfectly flat carpets of cheerful green are strikingly effective. The prostrate branches just reach out horizontally about a foot off the ground and cover surprisingly large areas. This true variety is scarce.

12 to 18 in.	B. & B.....	1.35	12.00	100.00
1½ to 2 ft.	B. & B.....	2.00	15.00	

— **suecica.** 3'-4' *Swedish Juniper*

Compact dwarf columns of light green. Good rock plant.

15 to 18 in.	B. & B.....	1.25	10.00	75.00
1½ to 2 ft.	B. & B.....	1.50	12.50	100.00
2 to 2½ ft.	B. & B.....	2.00	17.50	

conferta. 9"-12" *Shore Juniper*

For a Juniper has unusually large bloomy black berries and half inch spiny pointed leaves. Rather difficult to transplant but useful for seashore planting. Bright green in winter.

15 to 18 in.	B. & B.....	1.75		
--------------	-------------	------	--	--

excelsa stricta. 5'-6' *Spiny Greek Juniper*

These blue-gray "blobs" are so often seen in window boxes formal gardens and mixed foundation plantings. Useful.

10 to 12 in.	B. & B.....	.85	7.50	60.00
12 to 15 in.	B. & B.....	1.00	9.00	75.00
15 to 18 in.	B. & B.....	1.50	12.00	90.00
1½ to 2 ft.	B. & B.....	1.75	15.00	120.00
2 to 2½ ft.	B. & B.....	2.25	20.00	150.00
2½ to 3 ft.	B. & B.....	3.00	25.00	200.00
3 to 4 ft.	B. & B.....	4.50	40.00	

horizontalis. 1'-2' *Creeping Savin*

Has long prostrate branches that crawl over and around stones to spread its green plumes. A sunny rocky slope with plenty of room is an ideal spot.

1 to 1½ ft.	B. & B.....	1.50	12.50	100.00
1½ to 2 ft.	B. & B.....	2.00	17.50	150.00
2 to 2½ ft.	B. & B.....	2.75	22.50	
2½ to 3 ft.	B. & B.....	3.50	30.00	

— **Bar Harbor.** 6"-12" *Bar Harbor Juniper*

Of all ground Junipers we rate this first, it actually "hugs" the ground and makes a velvety mat of gray-green foliage which in winter changes to a most attractive metallic purple and lavender coloring. Made to order for the rock garden.

12 to 15 in.	B. & B.....	1.50		
--------------	-------------	------	--	--

JUNIPERUS ALL EVERGREEN Each Per 10 Per 100

*horizontalis douglasi. 1'**Waukegan Juniper*

Rather slow irregular growth, steely blue foliage turning purple in winter. Irregular trailing habit effective in rocks.

1	to	1½ ft.	B. & B.....	1.50	12.50	100.00
1½	to	2 ft.	B. & B.....	2.25	20.00	150.00
2	to	2½ ft.	B. & B.....	2.75	22.50	

— *glauca. 1'**Blue Creeping Savin*

Quite an improvement upon the green type, both in neatness and coloring. In summer it is blue gray, purple in winter.

1½	to	2 ft.	B. & B.....	2.25	20.00	150.00
2	to	2½ ft.	B. & B.....	2.75	22.50	200.00
3	to	4 ft.	B. & B.....	3.75		

— *plumosa. 1'-2'**Plumed Spreading Juniper*

Even a single plant will make a neat low dense mat of soft silver-green which gradually takes on a rich deep lavender purple color with colder weather. Truly a handsome thing.

12	to	15 in.	B. & B.....	1.00	9.00	75.00
15	to	18 in.	B. & B.....	1.50	12.50	90.00
1½	to	2 ft.	B. & B.....	2.00	15.00	135.00
2	to	2½ ft.	B. & B.....	2.75	24.00	210.00
2½	to	3 ft.	B. & B.....	3.50		
3	to	3½ ft.	B. & B.....	4.50		
3½	to	4 ft.	B. & B.....	6.50		

*sabina. 5'-6'**Savin*

A vase shape bush of dark green, dependable in exposures.

12	to	15 in.	B. & B.....	1.20	10.00	90.00
15	to	18 in.	B. & B.....	1.50	13.50	120.00
1½	to	2 ft.	B. & B.....	2.00	18.00	150.00
2	to	2½ ft.	B. & B.....	2.50	22.50	

— *tamariscifolia. 1'-2'**Tamarix Juniper*

Gray-green foliage on short branchlets create a pleasing soft feathery texture, and the peculiar flat effect is pleasing, too.

12	to	18 in.	B. & B.....	1.75	15.00	135.00
1½	to	2 ft.	B. & B.....	2.50		
2	to	2½ ft.	B. & B.....	3.00	27.50	

*squamata. 1'-2'**Scaly Leaf Juniper*

Stays "good" indefinitely and is one of the finest winter evergreens. All the creeping branches are well clothed with scaly gray-green foliage equally resistant to heat or cold.

12	to	15 in.	B. & B.....	2.00	15.00	125.00
15	to	18 in.	B. & B.....	2.75	22.50	200.00
1½	to	2 ft.	B. & B.....	3.50	30.00	
2	to	2½ ft.	B. & B.....	4.50		
2½	to	3 ft.	B. & B.....	5.50	50.00	
3	to	4 ft.	B. & B.....	7.50	67.50	

— *meyeri. 6'-8'**Meyer Juniper*

Stiff branches and large "leaves" tend to create a coarse rugged texture quite unlike any other plant. Altho bushy it has an interesting outline and the silvery blue summer dress becomes tinged with a lavender sheen as winter approaches.

15	to	18 in.	B. & B.....	1.25	10.00	85.00
1½	to	2 ft.	B. & B.....	1.75	15.00	125.00
2	to	2½ ft.	B. & B.....	2.50	22.50	200.00
2½	to	3 ft.	B. & B.....	3.50	30.00	275.00
3	to	3½ ft.	B. & B.....	4.50	40.00	360.00

JUNIPERUS ALL EVERGREEN Each Per 10 Per 100**squamata variegata. 1'-2** *Variegated Scaly Juniper*

But for the occasional sprays of creamy white, this variety is similar to the green type, remaining just as good in winter.

12 to 15 in.	B. & B.....	2.00	15.00	125.00
15 to 18 in.	B. & B.....	2.75	22.50	200.00
1½ to 2 ft.	B. & B.....	3.50	30.00	275.00
2 to 2½ ft.	B. & B.....	4.25	37.50	350.00
2½ to 3 ft.	B. & B.....	5.00	45.00	
3 to 4 ft.	B. & B.....	7.50		

virginiana. 30'-50' *Redcedar*

Our well loved native Cedar which has given rise to all the following variations. An occasional trimming will improve it.

6 to 8 ft.	B. & B.....	7.50		
8 to 10 ft.	B. & B.....	9.00		

— burki. 12'-15' *Burk's Cedar*

Forms a well shaped dense column of silvery gray until frost, then becomes overlaid with a flush of purple. Handsome.

2½ to 3 ft.	B. & B.....	2.50	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	
4 to 5 ft.	B. & B.....	4.50	40.00	
5 to 6 ft.	B. & B.....	5.50	50.00	
6 to 7 ft.	B. & B.....	7.50	67.50	600.00
7 to 8 ft.	B. & B.....	10.00	90.00	
8 to 10 ft.	B. & B.....	13.50		

— cannarti. 20'-25' *Cannart Cedar*

Like a true aristocrat this handsome Cedar is unobtrusively dignified and dislikes any fussy trimming that would interfere with its natural character. Columnar in outline, the surface is broken by short lateral branches making black shadow spots on a very deep green mantle of foliage. In autumn when the crop of steely blue berries are in evidence, it is almost gay enough to be saved for Christmas decoration.

2 to 2½ ft.	B. & B.....	2.00	17.50	125.00
2½ to 3 ft.	B. & B.....	2.50	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00
5 to 6 ft.	B. & B.....	6.00	54.00	480.00
6 to 7 ft.	B. & B.....	8.25	75.00	675.00
7 to 8 ft.	B. & B.....	11.00	100.00	
8 to 10 ft.	B. & B.....	13.50		

— elegantissima. 15'-18' *Goldtip Redcedar*

Well named from the bright yellow branchlets, turning bronzy in winter, really a warm color that doesn't look "dead."

3 to 4 ft.	B. & B.....	3.25	27.50	
4 to 5 ft.	B. & B.....	4.50	40.00	
5 to 6 ft.	B. & B.....	5.50	50.00	
6 to 7 ft.	B. & B.....	7.50	67.50	

— glauca. 20'-25' *Silver Redcedar*

One might call this the blue counterpart of the Cannart Cedar.

The whole irregular column is richly clad in a blue-gray mantle which among other evergreens gives a frosted effect.

1½ to 2 ft.	B. & B.....	1.75	12.50	100.00
2 to 2½ ft.	B. & B.....	2.00	17.50	125.00
2½ to 3 ft.	B. & B.....	2.50	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00
5 to 6 ft.	B. & B.....	6.00	54.00	480.00
6 to 7 ft.	B. & B.....	8.25	75.00	
7 to 8 ft.	B. & B.....	11.00	100.00	
8 to 10 ft.	B. & B.....	13.50		

JUNIPERUS ALL EVERGREEN. Each Per 10 Per 100 *virginiana globosa.* 4'-5' Globe Cedar

Needs no trimming to keep it dwarf and compact. Some interesting shapes are assumed, as the plants mature.

12 to 15 in.	B. & B.....	2.25	20.00	150.00
15 to 18 in.	B. & B.....	3.00	27.50	225.00
1½ to 2 ft.	B. & B.....	4.00	35.00	300.00
2 to 2½ ft.	B. & B.....	5.00	45.00	
2½ to 3 ft.	B. & B.....	6.00		
3 to 3½ ft.	B. & B.....	7.50		

— *keteleeri.* 18'-20' Keteleer Cedar

Handsome dark green leaves set off large slaty blue berries which are unusually decorative in winter. Develops into a fairly thick column that is compact right to the broad base.

2 to 2½ ft.	B. & B.....	2.00	17.50	125.00
2½ to 3 ft.	B. & B.....	2.50	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00
5 to 6 ft.	B. & B.....	6.00	54.00	480.00
6 to 7 ft.	B. & B.....	8.25	75.00	
7 to 8 ft.	B. & B.....	11.00	100.00	
8 to 10 ft.	B. & B.....	13.50		

— *pyramidalis.* 25' Pyramidal Redcedar

As a dense narrow spire of green few things can equal this.

2 to 3 ft.	B. & B.....	3.00	27.00	
------------	-------------	------	-------	--

— *schottii.* 20'-25' Schott Redcedar

More formal and lighter green compact than Cannart's Cedar and with occasional trimming makes a handsome column.

2 to 2½ ft.	B. & B.....	2.00	17.50	125.00
2½ to 3 ft.	B. & B.....	2.50	22.50	175.00
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00
5 to 6 ft.	B. & B.....	6.00	54.00	480.00
6 to 7 ft.	B. & B.....	8.25	75.00	
7 to 8 ft.	B. & B.....	11.00	100.00	
8 to 10 ft.	B. & B.....	13.50		

— *smithii.* 6'-8' Smith's Juniper

Is quite unusual in habit and color; really an open but well furnished bush richly clad in a mantle of light grass-green foliage that remains fresh and bright throughout the winter.

2½ to 3 ft.	B. & B.....	2.75	22.50	
3 to 4 ft.	B. & B.....	3.25	27.50	225.00
4 to 5 ft.	B. & B.....	4.50	40.00	350.00

KALMIA *angustifolia.* 3'-4' Sheep Laurel

EVERGREEN. Quite distinct from its more popular brother by reason of the small gray-green foliage and small pretty pink flowers. Does well in open sun.

1½ to 2 ft.	B. & B.....	2.25	20.00	
-------------	-------------	------	-------	--

latifolia. 6'-8' Mountain Laurel

EVERGREEN. Doubtless the most valuable and beautiful of our broadleaf evergreens. In July nothing can approach the glorious effect created by a mass of laurel with its great wealth of pink flowers. Even in zero weather the clean foliage retains its vigor and deep green color. While most adaptable to sun or shade the ideal location is slight shade.

12 to 15 in.	B. & B.....	1.25	10.00	90.00
15 to 18 in.	B. & B.....	1.80	15.00	135.00

2 to 2½ ft.	B. & B.....	2.75	24.00	225.00
2½ to 3 ft.	B. & B.....	3.75	33.00	
3 to 4 ft.	B. & B.....	6.00		

Each Per 10 Per 100

KERRIA japonica fl. pl. 4'-5' Double Kerria or Globeflower

Green stems and rich golden flowers that in May resemble "button" chrysanthemums combine to make this a most popular "old fashioned" useful shrub. Nice for winter color.

1½ to 2	ft.....	.60	5.00	45.00
2 to 3	ft.....	.75	6.50	60.00
3 to 4	ft.....	.90	8.00	70.00

KOELREUTERIA paniculata. 25'-30' Varnish Tree

Most conspicuous when the large loose bunches of bright yellow flowers crown the trees in July. The compound foliage is pleasing and for dry city conditions is excellent.

3 to 4	ft.....	1.00	9.00	
4 to 5	ft.....	1.50	13.50	
5 to 6	ft.....	2.25	20.00	
6 to 8	ft.....	3.00	27.50	

KOLKWTZIA amabilis. 5'-6' Beauty Bush

During late spring the common name is well deserved for the graceful slender branches are transformed to ropes of gay little pink bells. Improves with age, so don't expect many flowers on young shrubs. These are all well branched.

1½ to 2	ft.....	.40	3.00	25.00
2 to 3	ft.....	.50	4.00	30.00
3 to 4	ft.....	.70	6.00	
4 to 5	ft.....	.90	7.50	

LABURNUM vulgare. 20'-25' Golden Chain

Golden yellow flowers hang from the green branches resembling a yellow wisteria. Plant in a favored sheltered spot.

6 to 8	ft.....	2.25	19.50	
8 to 10	ft.....	3.00	27.00	

LARIX europaea. 50'-60' European Larch

With its fresh yellow-green needles this tree is traditionally spring like; in fall the soft textured pyramid turns to gold.

4 to 6	ft.	B. & B.....	2.75	22.50
6 to 8	ft.	B. & B.....	4.00	35.00
8 to 10	ft.	B. & B.....	5.00	45.00
10 to 12	ft.	B. & B.....	6.50	
12 to 15	ft.	B. & B.....	7.50	

leptolepis. 50'-60' Japanese Larch

Grows more rapidly, otherwise quite similar to the European.

8 to 10	ft.	B. & B.....	5.00	45.00
10 to 12	ft.	B. & B.....	6.50	60.00
12 to 15	ft.	B. & B.....	7.50	

LAUROCERASUS schipkaensis. 6'-8' Cherry Laurel

EVERGREEN. Rarely seen, this handsome shrub should prove useful for bold effects with its five inch lustrous green leaves. A rather sheltered spot where the morning sun does not reach is best.

12 to 15	in.	B. & B.....	1.35	12.00
15 to 18	in.	B. & B.....	1.80	16.50

LEIOPHYLLUM buxifolium. 1'-2' Box Sand Myrtle

EVERGREEN. Particularly attractive and cheerful in June when small pinkish flowers bejewel the branches. Although naturally irregular the cultivated specimens are generally well shaped little cushions with small boxwood-like leaves.

9 to 12	in.	B. & B.....	2.00	15.00	120.00
12 to 15	in.	B. & B.....	2.25	20.00	150.00
15 to 18	in.	B. & B.....	3.00	24.00	210.00
1½ to 2	ft.	B. & B.....	3.75	33.00	

LESPEDA formosa. 6'-7' Each Per 10 Per 100
Purple Bush Clover

Reddish purple flowers just hide the clover-like leaves in July and August. Although the slender arching branches may freeze back, it quickly makes a handsome graceful shrub.

3	to	4	ft.....	.50	4.50	35.00
4	to	5	ft.....	.60	5.00	45.00

LEUCOTHOE catesbaei. 3'-4' Drooping Leucothoe

EVERGREEN. What a glorious welcome sight the rich purple foliage makes in winter, and even in summer the thick shiny green five inch leaves, so regularly arranged on the arching branches are striking. Then in May, graceful sprays of fragrant white flowers hang from the branches, giving the effect of a flowering fern. Handsome as Christmas decorations. Useful for shady ground cover work. Moist acid soil is ideal. Truly needed in "natural" work.

1	to	1½	ft. B. & B.....	1.00	9.00	75.00
1½	to	2	ft. B. & B.....	1.50	13.50	120.00
2	to	2½	ft. B. & B.....	2.25	18.00	150.00
2½	to	3	ft. B. & B.....	2.75	25.00	

LIGUSTRUM amurense. 10'-12' Amur Privet

HALF EVERGREEN. Admittedly a splendid hedge plant, but don't overlook it as a specimen shrub where the pleasing graceful lines of the spreading branches are seen to advantage.

2	to	3	ft.....	.25	2.00	15.00
3	to	4	ft.....	.30	2.50	20.00

ibota. 8'-9' Ibota Privet

HALF EVERGREEN. Has spreading arching branches clothed with clean foliage which remains good until mid-winter. The bunches of shiny black berries are decorative.

3	to	4	ft.....	.40	3.00	
---	----	---	---------	-----	------	--

— regelianum. 4'-6' True Spreading Regal Privet

HALF EVERGREEN. Either as a hedge plant or for the shrubbery border this is a good subject with low branches.

1½	to	2	ft.....	.30	2.50	
2	to	3	ft.....	.45	3.50	30.00
3	to	4	ft.....	.60	5.00	

ovalifolium. 10'-15' California Privet

HALF EVERGREEN. In addition to being "the hedge plant supreme" this shrub is splendid for mass planting.

				Per 10	Per 100	Per 1000
1½	to	2	ft.....	1.50	6.00	50.00
2	to	3	ft.....	2.00	9.00	60.00
3	to	4	ft.....	2.50	12.00	90.00

Each Per 10 Per 100

LIQUIDAMBAR styraciflua. 100' Sweet Gum

The swampy places where this pyramidal tree grows are transformed into beauty spots in early autumn by the blazing scarlet coloring of the star shaped leaves. Even when the corky barked branches are bare they are very interesting.

6	to	8	ft.....	3.50	30.00	
8	to	10	ft.....	4.50	40.00	
10	to	12	ft.....	6.00	50.00	

LIRIODENDRON tulipifera. 150' Tulip Tree

Greenish yellow tulip-like flowers top the branchlets in June, and the unique "cut-off" shape of the leaves is remarkable. Makes a magnificent tree with clean straight 100 foot trunk.

6	to	8	ft.....	1.80	15.00	
8	to	10	ft., 1¼ to 1½ in.....	2.50	22.50	
10	to	12	ft., 1½ to 2 in.....	3.75	33.00	
12	to	14	ft., 2 to 2½ in.....	5.50	48.00	
14	to	16	ft., 2½ to 3 in.....	6.75		

Each Per 10 Per 100

LITHOSPERMUM prostratum, Heavenly Blue. 4-6" Gromwell

EVERGREEN. Wiry tortuous trailing stems slowly form irregular mats of deep green in which are studded the bluest of blue flowers from May to August. Acid soil, half shade.

3 in. pots.....	.75	6.00	50.00
4 in. pots.....	1.00	8.50	75.00

LONICERA fragrantissima. 6'-8' Winter Honeysuckle

HALF EVERGREEN. So called because of persistent foliage and the early appearance of the deliciously fragrant flowers on bare branches in March. Red berries in summer.

2 to 3 ft.....	.50	4.50	40.00
3 to 4 ft.....	.60	5.00	45.00

heckrotti. Vine, 15'-20' Everblooming Honeysuckle

A twining vine-like shrub which in July until September is bedecked with attractive tubular flowers of purplish-rose outside and old gold within. Floriferous, handsome and hardy.

2 yr.....	.50	4.00	35.00
-----------	-----	------	-------

henryi. 15'-20' Henry Honeysuckle

HALF EVERGREEN. Has narrow two inch rich green leaves, reddish flowers and black fruits. Attractive neat vine.

2 yr.....	.50	4.00	35.00
-----------	-----	------	-------

japonica halliana. Vine, 20'-25' Hall's Japan Honeysuckle

HALF EVERGREEN. Wherever planted this old favorite takes possession with its tropical luxuriant growth, whether as ground cover, trellis vine or bank planting, but the sweetly fragrant handsome creamy flowers are best on a support.

2 yr.....	.30	2.50	20.00
-----------	-----	------	-------

korolkowi floribunda. 8'-10' Broad Blueleaf Honeysuckle

Forms a large intricately branched mound of blue-gray foliage bespangled in early summer with cheery pink bells which give place to an abundance of glittering red berries.

1½ to 2 ft.....	.50	4.00	30.00
2 to 3 ft.....	.60	5.00	40.00
3 to 4 ft.....	.75	6.50	

maacki podocarpa. 10'-12' Late Honeysuckle

Rather straggling, but a vigorous habit. Brilliant red fruits.

2 to 3 ft.....	.50	4.00	30.00
3 to 4 ft.....	.60	5.00	40.00
4 to 5 ft.....	.75	6.00	

minutiflora. 8'-10' Bunchberry Honeysuckle

When in full fruit the orange berries transform this into a lovely shrub. Unfortunately little known. One of the best.

2 to 3 ft.....	.40	3.00	25.00
3 to 4 ft.....	.50	4.00	30.00
4 to 5 ft.....	.60	5.00	

morrowi. 7'-8' Morrow Honeysuckle

Distinct useful shrub of wide spreading habit handsome in June when the creamy flowers expand, and again when the bright red berries ripen. Clean gray-green foliage, vigorous.

2 to 3 ft.....	.40	3.00	
3 to 4 ft.....	.50	4.00	

nitida. 4'-5' Shiny Leaf Honeysuckle

EVERGREEN. In a sheltered place this lovely little bush will be attractive all year. Fragrant creamy white flowers are produced rarely, giving place to purple transparent berries.

3 in. pots.....	.60	5.00	45.00
4 in. pots.....	.75	6.00	

LONICERA		Each	Per 10	Per 100
periclymenum belgica. Vine, 15'-20'		Dutch Woodbine		
Good healthy looking glossy foliage clothes the long vines, making excellent foil for the fragrant cream-purple flowers.				
2	yr.....	.40	3.00	25.00
3	yr.....	.50	4.00	35.00
syringantha wolfi. 4'-5'		Wolf Honeysuckle		
Short twiggy branches, some prostrate, are densely covered with small dusty green leaves, brightened up by fragrant rosy-lilac flowers and then by red fruits. Handsome shrub				
1½	to 2 ft.....	.60	5.50	50.00
2	to 3 ft.....	.75	6.00	
tatarica. 8'-10'		Tatarian Honeysuckle		
Most adaptable old favorite. The best form has pink flowers in early June followed by a generous crop of scarlet fruits.				
2	to 3 ft.....	.40	3.00	25.00
3	to 4 ft.....	.50	4.00	30.00
thibetica. 3'-4'		Tibetan Honeysuckle		
For dry rocky slopes this is not only a useful but a handsome shrub; pale purple flowers are followed by red berries.				
1	to 1½ ft.....	.75	6.50	
1½	to 2 ft.....	1.00	9.00	
MAGNOLIA acuminata cordata. 15'-20'		Yellow Cucumber Tree		
The only yellow flowering Magnolia; also distinct by reason of its heart shaped leaves. Thrives best in a protected spot.				
2	to 3 ft. B. & B.....	3.50	30.00	250.00
3	to 4 ft. B. & B.....	5.00	45.00	400.00
4	to 5 ft. B. & B.....	7.00	65.00	
conspicua. 30'-35'		Yulan Magnolia		
Has a certain dignified beauty that marks the tree as an aristocrat. Sweetly scented six inch white flowers are proudly held up by bare branches in April. Good summer foliage.				
1½	to 2 ft. B. & B.....	2.50	20.00	150.00
2	to 3 ft. B. & B.....	3.50	30.00	250.00
3	to 4 ft. B. & B.....	5.00	45.00	
4	to 5 ft. B. & B.....	7.00	65.00	
glauca. 15'-20'		Sweet Bay		
HALF EVERGREEN. Altho rather sparingly produced during May and June, the creamy white three inch flowers are so fragrant as to permeate the air for a good distance around with a delicious gardenia-like scent. Naturally rather loose the shrub can be improved by judicious pruning while young. Handsome lustrous leaves, mealy white underneath and red seed pods add to its interest. Best in moist places.				
1½	to 2 ft. B. & B.....	1.50	12.50	100.00
2	to 3 ft. B. & B.....	2.00	17.50	135.00
3	to 4 ft. B. & B.....	2.75	22.50	200.00
4	to 5 ft. B. & B.....	4.00	35.00	300.00
5	to 6 ft. B. & B.....	5.50	50.00	
6	to 8 ft. B. & B.....	7.50		
kobus. 30'-35'		Kobus Magnolia		
The hardy form we have "borealis" is a symmetrical fast growing tree that must acquire age before blooming freely but the semi-double starry white flowers are indeed beautiful.				
2	to 3 ft. B. & B.....	2.00	17.50	135.00
3	to 4 ft. B. & B.....	2.75	22.50	200.00
4	to 5 ft. B. & B.....	4.00	35.00	300.00
5	to 6 ft. B. & B.....	6.00	55.00	500.00
6	to 8 ft. B. & B.....	7.50	65.00	
8	to 10 ft. B. & B.....	9.00		

MAGNOLIA

Each Per 10 Per 100

liliflora nigra. 15'-18'**Purple Lily Magnolia**

Darkest of all is this rapid growing shrub with its long brownish purple flowers continually opening until late spring. The shiny leaves are distinct and even small plants bloom freely.

1½ to 2	ft.	B. & B.....	1.50	12.50	100.00
2 to 3	ft.	B. & B.....	2.25	20.00	180.00
3 to 4	ft.	B. & B.....	3.00	27.00	225.00
4 to 5	ft.	B. & B.....	5.00	45.00	
5 to 6	ft.	B. & B.....	7.50		
6 to 7	ft.	B. & B.....	10.00		
7 to 8	ft.	B. & B.....	13.50		
8 to 10	ft.	B. & B.....	16.50		

parviflora. 10'-12'**Oyama Magnolia**

What a pity this charming shrub is not widely used. The lovely white cup shape flowers have a rosette of deep crimson stamens in the centre and their delicious fragrance is noticeable all summer as the occasional blooms expand. Give plenty of room for its spreading development, in a favored spot.

1½ to 2	ft.	B. & B.....	3.00	27.00	225.00
2 to 3	ft.	B. & B.....	4.00	35.00	300.00
3 to 4	ft.	B. & B.....	6.00	55.00	450.00
4 to 5	ft.	B. & B.....	9.00	82.50	
5 to 6	ft.	B. & B.....	15.00	135.00	
6 to 8	ft.	B. & B.....	21.00		

soulangiana. 18'-20'**Saucer Magnolia**

Here is the spectacular member of this glorious family. Every branch plays its part in effectively covering the whole shrub with great purplish pink cups in early spring. In small plants the white inside of the flowers give a bicolor effect. When trained in one stem as a tree the large bold foliage is effective.

1½ to 2	ft.	B. & B.....	1.50	12.50	100.00
2 to 3	ft.	B. & B.....	2.00	17.50	135.00
3 to 4	ft.	B. & B.....	2.75	22.50	200.00
4 to 5	ft.	B. & B.....	4.25	37.50	325.00
5 to 6	ft.	B. & B.....	7.00	60.00	525.00
6 to 7	ft.	B. & B.....	10.00	90.00	750.00
7 to 8	ft.	B. & B.....	13.50	12.00	
8 to 10	ft.	B. & B.....	16.50	150.00	

— **TREE FORM.** Trained as single stem for shade tree.

4 to 8 ft., same price as above.

— alexandrina. 18'-20'**Alexander Magnolia**

Quite similar in general appearance to the Saucer Magnolia but the flowers appear a little earlier and are of a rosy color.

1½ to 2	ft.	B. & B.....	2.50	20.00	150.00
2 to 3	ft.	B. & B.....	3.50	30.00	250.00
3 to 4	ft.	B. & B.....	5.00	45.00	400.00
4 to 5	ft.	B. & B.....	7.00	65.00	

— lennei. 15'-18'**Lenne Magnolia**

A handsome fellow satisfied with fewer flowers, but each one a perfect rosy-purple pear shaped cup, firmly held erect, the broad thick petals are surprisingly white on the inside and flowering late are rarely damaged by frost. Even the big leathery leaves alone make this a worth while specimen.

1½ to 2	ft.	B. & B.....	2.50	20.00	150.00
2 to 3	ft.	B. & B.....	3.50	30.00	250.00
3 to 4	ft.	B. & B.....	5.00	45.00	400.00

MAGNOLIA

Each Per 10 Per 100

soulangeana norbertiana. 15'-18'
Norbert Magnolia

Differs from the mother plant in having slightly smaller upright flowers thus giving a more formal "staccato" effect.

1½ to 2 ft.	B. & B.....	2.50	20.00	150.00
2 to 3 ft.	B. & B.....	3.50	30.00	250.00

5 to 6 ft.	B. & B.....	10.00	90.00	

speciosa alba. 12'-15'
Showy White Magnolia

Except for a purple stained stripe on the outside the numerous flowers are white. Grows vigorously and forms a neat bush.

1½ to 2 ft.	B. & B.....	2.50	20.00	150.00
2 to 3 ft.	B. & B.....	3.50	30.00	250.00
3 to 4 ft.	B. & B.....	5.00	45.00	400.00
4 to 5 ft.	B. & B.....	7.00	65.00	
5 to 6 ft.	B. & B.....	10.00		

stellata. 10'-12'
Star Magnolia

Appropriately named for dazzling white semi-double flowers which on bare twiggy branches herald the parade of its larger brothers. Occasionally a flush of tender pink will emphasize the purity of the narrow wavy petals. Delightfully fragrant.

15 to 18 in.	B. & B.....	1.50	13.50	120.00
1½ to 2 ft.	B. & B.....	1.75	15.00	135.00
2 to 2½ ft.	B. & B.....	2.50	22.50	185.00
2½ to 3 ft.	B. & B.....	4.00	35.00	300.00
3 to 4 ft.	B. & B.....	5.50	50.00	450.00
4 to 5 ft.	B. & B.....	7.50		

tripetala. 30'-40'
Umbrella Magnolia

Big in every way, leaves two feet long, white flowers ten inches across and a clean trunk. Tropical looking but hardy.

4 to 6 ft.....	1.50	13.50	120.00
6 to 8 ft.....	2.25	20.00	150.00
8 to 10 ft.....	3.00		

MAHONIA aquifolium. 3'-4'
Oregon Holly Grape

EVERGREEN. Thin wavy holly-like leaves vary in color from deep green to rich purple-red, especially noteworthy in winter. When happily placed not too exposed, will perfect pretty yellow flowers followed by little grape-like bunches of black fruits. A rather loose, many stemmed bush for half shade.

1 to 1½ ft.	B. & B.....	1.00	9.00	75.00
-------------	-------------	------	------	-------

MALUS arnoldiana. 12'-15'
Arnold Crab

Enthusiasm is difficult to restrain when crabapples are in bloom. The dainty pastel shading of the airy flowers, the brilliant coloring of the fruits, the intricate branching habits, all serve to set them apart as worthy of a place in almost every planting. Arnold's Crab has semi-double flowers deep pink in bud expanding to almost white. The waxy yellow little apples are most decorative before they are relished by birds.

3	to	4	ft.....	1.00	9.00	75.00
4	to	5	ft.....	1.35	12.00	90.00
5	to	6	ft.....	1.80	15.00	135.00
6	to	8	ft. B. & B.....	3.60		

atrosanguinea. 12'-15'
Carmine Crab

Dark pink shading to deep purplish crimson flowers just envelop the whole structure of branches in May. Shapely tree.

3 to 4 ft.....	1.00	9.00	
4 to 5 ft.....	1.35	12.00	90.00
5 to 6 ft.....	1.80	15.00	135.00
6 to 8 ft.	B. & B.....	3.60	
8 to 10 ft.	B. & B.....	5.25	

MALUS

Each Per 10 Per 100

coronaria. 15'-18'**Wild Sweet Crab**

The fragrance of the pastel tinted blush pink apple blossoms just penetrate the air in spring; each tree has its own character.

4	to	5	ft.....	1.80	15.00
5	to	6	ft.....	2.25	20.00

floribunda. 12'-15'**Japanese Flowering Crab**

Bright pink buds and white open flowers make a pleasing contrast. The yellow fruits about pea size will turn red if the birds are not too voracious. Truly a handsome thing.

3	to	4	ft.....	1.00	9.00
4	to	5	ft.....	1.35	12.00
5	to	6	ft.....	1.80	15.00
6	to	8	ft. B. & B.....	3.60	

halliana parkmanni. 12'-15'**Parkman Crab**

Irregular crooked branches help to make this a picturesque winter picture and serve excellently to display the semi-double bright rose flowers nodding on long thin stems. Grows slowly.

3	to	4	ft.....	1.50	12.50	100.00
4	to	5	ft.....	1.80	15.00	135.00
5	to	6	ft.....	2.25		
6	to	8	ft. B. & B.....	4.50		

ioensis plena. 15'-18'**Bechtel Crab**

Each fragrant flower resembles a little pink rose prettily dangling on a two inch stalk. Quickly develops into a formal compact little tree and is the last crab apple to flower.

3	to	4	ft.....	1.00	9.00	
4	to	5	ft.....	1.35	12.00	90.00
5	to	6	ft.....	1.80	15.00	120.00
6	to	8	ft. B. & B.....	3.60	30.00	
8	to	10	ft. B. & B.....	5.25		

niedzwetzkyana. 12'-15'**Redvein Crab**

Leaves, flowers, fruit, bark and even the wood of this form are reddish purple. Improves with age, give space to develop.

3	to	4	ft.....	1.00	9.00	75.00
4	to	5	ft.....	1.35	12.00	90.00
5	to	6	ft.....	1.80	15.00	
6	to	8	ft. B. & B.....	3.60		

prunifolia. 15'-18'**Pear Leaf Crab**

Handsome red or yellow apples about an inch across dangle from the strong branches and persist way into the winter. Large white flowers are so numerous as to resemble snow.

5	to	6	ft.....	2.25	
6	to	8	ft. B. & B.....	3.60	

sargentii. 8'-9'**Sargent Crab**

An interesting shrubby habit makes this a most useful shrub for the smaller place. Hard to decide whether it is most attractive when blanketed with sparkling white flowers or when the myriad glittering red berry like fruits are strung along the spreading branches and they defy zero weather.

3	to	4	ft.....	1.50	13.50	120.00
4	to	5	ft.....	2.00	18.00	150.00
5	to	6	ft. B. & B.....	3.00	27.00	
6	to	7	ft. B. & B.....	5.25	48.00	
7	to	8	ft. B. & B.....	7.50		

scheideckeri. 12'-15'**Scheidecker Crab**

Has large semi-double pure pink flowers of lasting quality followed by a profusion of waxy yellow fruits over a half inch in diameter. Somewhat formal and upright in habit.

3	to	4	ft.....	1.00	9.00	75.00
4	to	5	ft.....	1.35	12.00	90.00
5	to	6	ft.....	1.80	15.00	
6	to	8	ft. B. & B.....	3.60		

MALUS

Each Per 10 Per 100

sieboldi. 12'-15'**Toringo Crab**

In the bud deep rose is predominant but the open flowers fade to white. Large golden yellow or reddish apples in autumn.

3	to	4	ft.	1.00	9.00	75.00
4	to	5	ft.	1.35	12.00	
5	to	6	ft.	1.80	15.00	
6	to	8	ft. B. & B.	3.60	33.00	
8	to	10	ft. B. & B.	5.25	48.00	

— calocarpa. 12'-15'**Thick Fruited Crab**

Particularly handsome while the cherry like fruits abundantly decorate the branches. The bloomy covering at first hides the brilliant scarlet coloring of these little apples but they persist until midwinter. The spring display of large pink and white flowers seems to become more beautiful each year.

6	to	8	ft. B. & B.	3.60		
---	----	---	-------------	------	--	--

spectabilis. 12'-15'**Chinese Flowering Crab**

Fragrant semi-double delicate pink flowers distinguish this beautiful upright form which for flower effect alone easily ranks among the best. Small yellow fruits are not showy.

3	to	4	ft.	1.00	9.00	75.00
4	to	5	ft.	1.35	12.00	90.00
5	to	6	ft.	1.80	15.00	
6	to	8	ft. B. & B.	3.60	33.00	

theifera. 15'-18'**Tea Crab**

Even for a crab apple this is amazingly floriferous for the whole stiffly branching structure is buried under a heavy cloud of red buds and blush white flowers. The formal outline and floral effect resembles that of a cherry tree.

3	to	4	ft.	1.50	13.50	
4	to	5	ft.	2.00	18.00	
5	to	6	ft. B. & B.	3.00	27.00	
6	to	8	ft. B. & B.	5.25		
8	to	10	ft. B. & B.	7.50		

toringoides. 18'-20'**Cutleaf Crab**

A cloud of white in spring but when in full fruit superlatives are inadequate for description. The yellow fruits larger than a pea flushed with bright red are borne in profusion.

3	to	4	ft.	1.35	12.00	
---	----	---	-----	------	-------	--

MITCHELLA repens. 2''**Partridge Berry**

EVERGREEN. Round half inch white veined dark green leaves are formally arranged on the wiry little vines which hug the ground, an effective carpet in shady woods. Fragrant white flowers are followed by well known bright red berries. A gem for the rock garden and in terrariums.

3	in.	pots	.25	2.10	15.00	
---	-----	------	-----	------	-------	--

MORUS alba pendula. 8'-10'**Tea's Weeping Mulberry**

Grafted on five to six foot stems. Picturesque when old.

2	yr.	heads	2.00	15.00		
---	-----	-------	------	-------	--	--

MYRICA carolinensis. 5'-6'**Northern Bayberry**

Few things will grow in such poor dry soil as this bayberry. The gray wax berries crowded on stiff branches last just as well when cut and dried for inside decoration as they do outside. Quickly acquires a look of age. Aromatic foliage.

12	to	15	in.	.50	4.00	30.00
15	to	18	in.	.60	5.00	45.00
1½	to	2	ft.	.75	6.50	

Each Per 10 Per 100

NYSSA sylvatica. 60'-70'*Tupelo—Sour Gum*

Wavy, knotted interlacing branches give this native peculiar interest in winter but it is the brilliant scarlet autumn color that stands out. Prefers moist location, dislikes transplanting.

2	to	3	ft.....	1.35	12.00	100.00
3	to	4	ft.....	1.80	15.00	120.00
4	to	5	ft.....	2.25		

OXYDENDRUM arboreum. 30'-35' *Sorrel Tree—Sourwood*

Throughout the year a handsome tree with thick shiny leaves that turn vivid scarlet early in Fall and remain colored until winter. The long bunches of white summer flowers are not to be overlooked and even the gray fruits are conspicuous.

2	to	3	ft.	B. & B.....	.90	7.50	60.00
3	to	4	ft.	B. & B.....	1.25	11.00	90.00
4	to	5	ft.	B. & B.....	1.75	15.00	120.00
5	to	6	ft.	B. & B.....	2.50	22.50	200.00
6	to	8	ft.	B. & B.....	4.00	36.00	
8	to	10	ft.	B. & B.....	6.00		

PACHISTIMA canbyi. 6'-9"*Canby Pachistima*

EVERGREEN. Somewhat resembles a miniature box bush. In an open moist place will gradually spread to make a pleasing glossy green mound. Useful in rockwork or for edging.

3	in.	pots.....		.50	4.50	35.00
---	-----	-----------	--	-----	------	-------

myrsinites. 1½'-2'*Myrtle Pachistima*

EVERGREEN. The larger brother with leaves sometimes an inch long; and more of a bush.

3	in.	pots.....		.50	4.50	
---	-----	-----------	--	-----	------	--

PACHYSANDRA terminalis. 6'-9"*Japanese Spurge*

EVERGREEN. Probably the most notable of all ground covers preferring shade but succeeds even in dry sterile soil.

				Per 10	100	1000
2¼	in.	deep pots		2.00	12.00	90.00
				Each	Per 10	Per 100

PHELLODENDRON amurense. 40'-50' *Amur Cork Tree*

One of the few trees that will thrive in cities. Large compound leaves and thick corky branches give the appearance of a handsome black-walnut. Withstands considerable drought.

10	to	12	ft., 2½ to 3	in.....	6.00	
12	to	14	ft., 3	to 3½ in.....	7.50	

PHILADELPHUS coronarius. 8'-10'*Mock Orange*

Vigorous and long lived this old fashioned "Sweet Syringa" is often found planted near the door or windows of farm-houses where the delicious fragrance of its white flowers could be enjoyed in May and June. Endures some shade.

2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.60	5.00	40.00
4	to	5	ft.....	.75	6.00	

lemoinei. 4'-5'*Lemoine Mock Orange*

The sweet fragrance has been retained in this neat compact hybrid. Needs practically no pruning, but remains within bounds indefinitely; the small leaves hidden by the flowers.

1½	to	2	ft.....	.40	3.00	20.00
2	to	3	ft.....	.50	4.00	30.00

— Avalanche. 4'-5'*Avalanche Mock Orange*

Similar to "Lemoine" but more vigor, fragrance and flowers.

1½	to	2	ft.....	.40	3.00	20.00
2	to	3	ft.....	.50	4.00	30.00

PHILADELPHUS

Each Per 10 Per 100

lemoinei Mont Blanc. 4'-5' White Mountain Mock Orange

These hybrids are most useful small shrubs that succeed in spite of many adverse conditions. None are more cheerful and dazzling than this when its annual June show is given.

1½ to 2	ft.....	.40	3.00	20.00
2 to 3	ft.....	.50	4.00	
3 to 4	ft.....	.60	5.00	

virginalis. 7'-8'**Virginal Mock Orange**

Few shrubs have caused a greater stir of admiration than this introduction. Each flower, mostly quite double, is almost two inches across and large clusters just weigh down each branch so as to create a "heavy snowfall." The sheer white blossoms just glisten in sun or moonlight and throughout the whole summer you can enjoy the delicious fragrance from the continually open flowers. Prune out all old wood.

1½ to 2	ft.....	.30	2.50	20.00
2 to 3	ft.....	.40	3.00	25.00
3 to 4	ft.....	.50	4.00	30.00
4 to 5	ft.....	.60	5.00	40.00

PHOTINIA villosa. 12'-15'**Christmas Berry**

Unsung and little known but particularly handsome in autumn when the bold leathery foliage turns almost as red as the bright berries thickly strung over the bush all winter.

2 to 3	ft.....	.70	6.00	
3 to 4	ft.....	.90	7.50	
4 to 5	ft.....	1.20	9.00	
5 to 6	ft.....	1.50		
6 to 8	ft.....	2.25		

PHYSOCARPUS opulifolia nana. 3'-4'**Dwarf Ninebark**

One of the good small shrubs that will add interest to the border with flat-topped bunches of creamy flowers in June.

3 to 4	ft.....	.60	5.00	45.00
--------	---------	-----	------	-------

PICEA asperata. 70'-80'**Rough Branch Spruce**

ALL EVERGREEN. Somewhat similar to a refined Norway Spruce, but rather slow to become established. The needles are gray-green: on large trees the bark peels in flakes.

9 to 12 in.	B. & B.....	1.35	12.00	
-------------	-------------	------	-------	--

canadensis. 50'-60'**White Spruce**

Seems happiest in coldest New England where it naturally grows right down to the shore line. Forms a shapely compact tree densely clothed with short silvery green needles. Grows slowly here: compact specimens.

2 to 3	ft.	B. & B.....	1.75	
3 to 4	ft.	B. & B.....	3.00	
5 to 6	ft.	B. & B.....	6.75	
6 to 7	ft.	B. & B.....	9.00	

excelsa. 80'-100'**Norway Spruce**

Generally regarded as more valuable for windbreaks and hedges than as a decorative tree, although while young the dark green symmetrical pyramid is most useful as a Christmas tree or tub specimen. Grows rapidly, well shaped plants.

1½ to 2	ft.	B. & B.....	1.00	9.00	75.00
2 to 2½	ft.	B. & B.....	1.35	12.00	90.00
2½ to 3	ft.	B. & B.....	1.80	15.00	120.00
3 to 4	ft.	B. & B.....	2.25	20.00	180.00
4 to 5	ft.	B. & B.....	3.75	33.00	300.00
5 to 6	ft.	B. & B.....	6.00	52.50	
6 to 8	ft.	B. & B.....	7.50	67.50	

PICEA. ALL EVERGREEN.		Each	Per 10	Per 100
excelsa aurea. 30'-40'			Golden Spruce	
The exposed side of the needles turns light yellow in spring deepening to bronze in autumn, otherwise similar to the type.				
6	to 8 ft.	B. & B.....	15.00	
— clanbrasiliانا. ? 4'-5'			Barry Spruce	
Forms a broad billowy mass of light green. Extremely hardy and grows more quickly than most of the dwarf forms.				
9	to 12 in.	B. & B.....	2.25	20.00 180.00
12	to 15 in.	B. & B.....	2.75	22.50
15	to 18 in.	B. & B.....	3.50	30.00
1½	to 2 ft.	B. & B.....	4.50	40.00
2	to 2½ ft.	B. & B.....	6.00	55.00
2½	to 3 ft.	B. & B.....	8.00	75.00
— conica. 6'-8'			Arrowhead Norway Spruce	
Without any trimming forms a perfectly symmetrical dense cone, admirable for formal work or "foundation plantings."				
12	to 15 in.	B. & B.....	2.25	20.00
15	to 18 in.	B. & B.....	3.00	27.50 225.00
1½	to 2 ft.	B. & B.....	4.00	35.00 300.00
2	to 2½ ft.	B. & B.....	5.00	45.00 400.00
2½	to 3 ft.	B. & B.....	6.00	55.00 500.00
3	to 4 ft.	B. & B.....	7.50	67.50
— microsperma. 1½'-2'			Small cane Spruce	
Diminutive in all its parts and exceedingly slow in growth—just a little green hummock.				
4	to 6 in.	B. & B.....	2.50	
6	to 9 in.	B. & B.....	3.25	
— pendula. 20'-25'			Weeping Spruce	
Creates a curious sad effect with the inverted branches growing toward the ground. The grotesque lines look well among large boulders or in exotic gardens, especially when old.				
2	to 3 ft.	B. & B.....	6.00	
— procumbens. 2'			Prostrate Norway Spruce	
In youth this little fellow has the shape of a flat pumpkin but slowly covers a broader area without adding to its height, and all through its long life is neat, well defined and beautifully clothed with short rich green needles. Quite a favorite.				
4	to 6 in.	4 in. pots.....	2.50	22.50
12	to 15 in.	B. & B.....	4.50	
15	to 18 in.	B. & B.....	6.00	55.00
18	to 21 in.	B. & B.....	7.50	67.50
21	to 24 in.	B. & B.....	9.00	
2	ft.	B. & B.....	12.00	
— pumila. 3'-4'			Dwarf Norway Spruce	
More globular than most, but very dense. Needs a little protection from winter sun but able to stand low temperatures.				
4	to 6 in.	4 in. pots.....	2.50	22.50
12	to 15 in.	B. & B.....	4.50	40.00
15	to 18 in.	B. & B.....	6.00	
— pyramidalis. 40'-50'			Pyramidal Norway Spruce	
All the branches ascending to form a narrow shapely pyramid.				
8	to 10 ft.	B. & B.....	15.00	
10	to 12 ft.	B. & B.....	21.00	
— repens. 1½'			Creeping Norway Spruce	
Wide spreading prostrate branches make a thick irregular blanket of interesting texture, perfectly at home among rocks.				
4	to 6 in.	4 in. pots.....	2.50	22.50
6	to 9 in.	B. & B.....	2.25	20.00 150.00
2½	to 3 ft.	B. & B.....	12.00	

PICEA. ALL EVERGREEN. Each Per 10 Per 100**glauca conica. 5'-6'** Dwarf Alberta Spruce

A perfect miniature reproduction of a tall forest tree, having branches crowded into a compact narrow cone with a rugged old look about it. Very thin slaty green foliage makes an exceedingly fine texture. Best where slightly shaded.

6	to	9 in.	B. & B.....	.90	7.50	60.00
9	to	12 in.	B. & B.....	1.25	10.00	90.00
12	to	15 in.	B. & B.....	1.50	13.50	120.00
15	to	18 in.	B. & B.....	2.25	20.00	150.00
18	to	21 in.	B. & B.....	3.00	27.00	225.00

koyamai. 40'-50' Koyamai Spruce

When young a broad-based cone, but lengthens into a narrow pyramid with husky looking branches and thick needles.

4	to	5 ft.	B. & B.....	6.00		
5	to	6 ft.	B. & B.....	8.25		
6	to	7 ft.	B. & B.....	12.00		

omorika. 60'-80' Serbian Spruce

We rate this as the King of Spruces, handsome from a foot high to its lofty maturity. On the under side the flat needles are lustrous green with white stripes above, giving a bicolor effect. Its narrow pyramidal outline is maintained and the severest climate does not influence its slow but sure growth.

1½	to	2 ft.	B. & B.....	4.00	35.00	300.00
2	to	3 ft.	B. & B.....	5.00	45.00	400.00
3	to	4 ft.	B. & B.....	9.00		
6	to	7 ft.	B. & B.....	22.50		
7	to	8 ft.	B. & B.....	27.00		
8	to	10 ft.	B. & B.....	36.00		

orientalis. 60'-70' Oriental Spruce

Graceful widespreading branches sweep the ground merging into a central spire which rises with classic outline to pierce the sky. Glossy blackish green needles increase its sombre dignity—a picture of aristocratic beauty. Quite useful in small plantings owing to its slow growth and rich color.

1½	to	2 ft.	B. & B.....	4.00	35.00	300.00
2	to	2½ ft.	B. & B.....	5.25	48.00	400.00
2½	to	3 ft.	B. & B.....	7.50	65.00	
3	to	4 ft.	B. & B.....	9.00		
4	to	5 ft.	B. & B.....	12.00		
6	to	7 ft.	B. & B.....	22.50		

polita. 60'-75' Tigertail Spruce

Is the most distinct of all Spruces by reason of the thick rigid spiny needles sparsely distributed around the stubby branches.

1	to	1½ ft.	B. & B.....	1.50	13.50	
---	----	--------	-------------	------	-------	--

pungens. 70'-80' Colorado Spruce

A bold native Spruce with dull gray-green thick needles. Quite symmetrical and handsome when young, but becomes picturesque in old age when the lower branches disappear.

1½	to	2 ft.	B. & B.....	1.25	10.00	75.00
2	to	2½ ft.	B. & B.....	2.00	15.00	125.00
2½	to	3 ft.	B. & B.....	2.75	22.50	200.00
3	to	4 ft.	B. & B.....	4.00	35.00	300.00
4	to	5 ft.	B. & B.....	5.50	50.00	450.00
5	to	6 ft.	B. & B.....	7.50	67.50	
6	to	7 ft.	B. & B.....	10.00		
7	to	8 ft.	B. & B.....	13.50		

PICEA	ALL EVERGREEN		Each	Per 10	Per 100
<i>pungens glauca.</i>	70'-80'				
					Colorado Blue Spruce
From the variable seedlings has been selected this intensely "blue" form, so popular even in very small sizes. Well shaped.					
1½	to 2 ft.	B. & B.....	2.25	20.00	
2	to 2½ ft.	B. & B.....	3.75	35.00	
3	to 4 ft.	B. & B.....	5.25	45.00	
4	to 5 ft.	B. & B.....	7.50		
5	to 6 ft.	B. & B.....	12.00		
6	to 7 ft.	B. & B.....	15.00		

— *kosteri.* 50'-60' Koster's Blue Spruce

Probably the most widely known of all evergreens, due to the brilliant silvery blue foliage, which is kept uniform by grafting selected specimens. Spectacular as a lawn specimen and ideal for the color climax or contrast in mixed plantings.

12	to 15 in.	B. & B.....	2.75	22.50	200.00
15	to 18 in.	B. & B.....	4.00	35.00	300.00
1½	to 2 ft.	B. & B.....	5.00	45.00	400.00
2	to 2½ ft.	B. & B.....	6.00	55.00	500.00

4	to 5 ft.	B. & B.....	15.00	135.00	
5	to 6 ft.	B. & B.....	18.00	165.00	
6	to 7 ft.	B. & B.....	24.00		
7	to 8 ft.	B. & B.....	30.00		
8	to 9 ft.	B. & B.....	40.00		

PIERIS *floribunda.* 4'-5' Mountain Andromeda

EVERGREEN. Both for foliage and floral effect this hardy native is well nigh indispensable. Dark green leathery privet-like leaves remain untouched in zero weather and serve splendidly as background for the upright clusters of waxy white flowers in May. Acid soil, half shady spot preferred.

12	to 15 in.	B. & B.....	1.75	15.00	135.00
15	to 18 in.	B. & B.....	2.25	20.00	180.00
1½	to 2 ft.	B. & B.....	3.00	27.00	
2	to 2½ ft.	B. & B.....	4.00	36.00	

japonica. 6'-7' Japanese Andromeda

EVERGREEN. Almost the ideal shrub without a flaw. In early spring graceful pendants of waxy white urnshaped flowers are prettily interspersed among the lustrous deep green foliage. Then comes the tender green young growths beautifully winestained until the waxy leaves mature into their leathery texture defying both extreme heat and cold. In mid-winter the rugged character of the bush is emphasized by the young unopened flower buds held aloft unharmed by wind and weather to again play their part in a glorious display in May.

12	to 15 in.	B. & B.....	1.50	13.50	120.00
15	to 18 in.	B. & B.....	2.25	20.00	150.00
1½	to 2 ft.	B. & B.....	3.00	27.00	225.00
2	to 2½ ft.	B. & B.....	4.00	36.00	
2½	to 3 ft.	B. & B.....	5.50		

PINUS *cembra* 30'-40' Swiss Stone Pine

ALL EVERGREEN. Slow growing so it may be safely used in low plantings, Generally seen as a blunt compact pyramid clothed in soft textured coat of bluish-green needles, but eventually becomes a picturesque round topped tree.

6	to 9 in.	B. & B.....	1.50	13.50	
2½	to 3 ft.	B. & B.....	9.00		

PINUS ALL EVERGREEN Each Per 10 Per 100
densiflora umbraculifera. 8'-10' *Japanese Umbrella Pine*

"Tanyosho" is a vivid green flat topped cushion that very slowly expands with age. An occasional "bobbing" of the new growth in Spring will increase its neat formal appearance.

12 to 15 in.	B. & B.....	1.25	11.00	90.00
15 to 18 in.	B. & B.....	1.50	13.50	120.00

6	to	7	ft.	B. & B.	8.25	75.00	

— fastigiata. 35'-40'*Upright White Pine*

Stiffly ascending branches form a narrow columnar tree, clothed with the same soft green mantle of needles as the parent.

1½	to	2	ft.	B. & B.	2.25	20.00	
2	to	3	ft.	B. & B.	3.00		
3	to	4	ft.	B. & B.	4.50		

— nana. 2½'-3'*Dwarf White Pine*

Notwithstanding the very compact habit this little fellow is a vigorous healthy bush. Foliage is quite similar to the type.

12	to	15	in.	B. & B.	3.00	27.00	
----	----	----	-----	--------------	------	-------	--

PLATANUS orientalis. 70'-80'*European Plane Tree*

For general use a far superior tree with broad leaves that resist insects, dust and smoke. Notwithstanding rapid growth the "Sycamore" attains a fabulous age. The shapely head casts comfortable shade allowing grass to grow freely, so makes a splendid lawn tree, but whether at the seashore or on the city street it "carries on" successfully. Splendid trees.

8	to	10	ft., 1¼ to 1½ in.	2.00	18.00		
10	to	12	ft., 1½ to 1¾ in.	2.75	24.00

15	to	18	in.50	4.00	30.00	

		Each	Per 10	Per 100
PRUNUS cerasifera pissardi. 10'-12' <i>Purple Leaf Plum</i>				
Annual pruning of old wood will intensify the reddish purple coloring of the peach like leaves. Pink flowers hardly noticed.				
4	to 5 ft.....	.90	7.50	
5	to 6 ft.....	1.20	10.00	
glandulosa. 4'-5' <i>Double Flowering Almond</i>				
Every willowy branch becomes a fairy wand of pure pink in very early spring. A real domestic indispensable favorite.				
1½	to 2 ft.....	.60	5.00	40.00
2	to 3 ft.....	.75	6.00	
— alba. 4'-5' <i>White Almond</i>				
Very double white flowers are the only point of difference.				
1½	to 2 ft.....	.50	4.00	
2	to 3 ft.....	.60	5.00	
maritima. 8'-10' <i>Beach Plum</i>				
Frail dainty white blossoms lightly sprinkled over the bush serve to accentuate the bare erratic stiff branches which never seem so happy as when in large drifts at their seashore home.				
1½	to 2 ft.....	.60	5.00	40.00
2	to 3 ft.....	.70	6.00	50.00
3	to 4 ft.....	.90	7.50	65.00
4	to 5 ft.....	1.20		
serrulata. 30'-40' <i>Oriental Cherry</i>				
Has typical smooth chestnut brown cherry-bark with semi-double white flowers, which in May are apt to be outshone by the exquisite pageantry of its many offsprings here named.				
6	to 8 ft.....	2.25		
— Amanogawa. 20'-25' <i>Upright Cherry</i>				
A distinct form with a Lombardy Poplar style of growth. Semi-double pink flowers gracefully hang in dense clusters.				
3	to 4 ft.....	1.50	12.50	
4	to 5 ft.....	2.00	18.00	
5	to 6 ft. B. & B.....	3.00		
6	to 8 ft. B. & B.....	5.25		
— Beni-Higan. 30'-40' <i>Single Pink</i>				
Great clouds of pale pink single flowers begin to expand in March and gradually envelop the whole tree. Vigorous growth.				
6	to 8 ft. B. & B.....	5.25		
8	to 10 ft. specimens B. & B.....	9.00		
— Fugenzo (Kofugen) (James H. Veitch) 30' <i>Double Pink</i>				
One of the latest to bloom; the unusually large double pink flowers expand with the coppery young foliage, a nice contrast. Probably one of the most popular and reliable sorts.				
4	to 5 ft.....	2.00	18.00	
5	to 6 ft. B. & B.....	3.00		
6	to 8 ft. B. & B.....	5.25		
— Gyoiko 30'-40' <i>Double Light Green</i>				
The green double flowers are more unique than pretty.				
4	to 5 ft.....	2.00		
— Kwanzan. 30' <i>Double Pink</i>				
Large very double deep pink flowers, almost red in bud, and bronze young growth coupled with its rapid growth justify the highest rating to this good form. Well formed, vigorous.				
4	to 5 ft.....	2.00	18.00	
5	to 6 ft. B. & B.....	3.00		
6	to 8 ft. B. & B.....	5.25		

PRUNUS serrulata.

Each Per 10 Per 100

— **Mikurumagaeshi. 25'-30'** *Double Light Pink*

Perhaps the prettiest with its bunches of frilled tassel-like flowers strung along the thick branches. The shell pink shading is just as delicate as the elusive fragrance. Scarce.

5	to	6	ft.	B. & B.....	3.00	
6	to	8	ft.	B. & B.....	5.25	

— **Mount Fuji (Shirotae) 30'** *Double White*

Undoubtedly the finest double white. Large and pure in color the flowers blanket the well formed tree as would snow.

4	to	5	ft.....		2.00	18.00
5	to	6	ft.	B. & B.....	3.00	
6	to	8	ft.	B. & B.....	5.25	
8	to	10	ft.	B. & B.....	9.00	

— **Naden. 30'-40'** *Siebold Cherry*

Very floriferous and showy when literally smothered in pale pink semi-double blossoms arranged in short stemmed clusters.

4	to	5	ft.....		2.00	18.00
5	to	6	ft.	B. & B.....	3.00	

— **sachalinensis. (sargentii) 30'-40'** *Yama Cherry*

More vigorous and showy than the Mother tree, having large white to pink single flowers covering bare branches in April.

4	to	5	ft.	B. & B.....	2.25	
5	to	6	ft.	B. & B.....	3.00	

— **Shirofugen. 30'** *Double Blush Pink*

Pink in bud, the very large double flowers become white, then gradually assume a blush as they mature. Vigorous.

8	to	10	ft. specimens	B. & B.....	9.00	
---	----	----	---------------	-------------	------	--

— **Yoshino (Yedoensis). 40'-50'** *Single Blush Pink*

Because of its conspicuous position around the Tidal Basin in Washington, D. C. this species is widely known, and also it is the "advance guard" of the gorgeous display during cherry blossom season. The single pink flowers become flushed with purple before falling. An excellent shade tree.

4	to	5	ft.....		2.00	18.00
5	to	6	ft.	B. & B.....	3.00	
6	to	8	ft.	B. & B.....	5.25	
8	to	10	ft. specimens	B. & B.....	9.00	

subhirtella pendula. 12'-15' *Weeping Japan Cherry*

Is it possible to adequately describe those gossamer pink fountains that come from fairyland each spring? And yet they are sturdy trees that need little attention beyond a well-drained place in the sun. These are the popular tall stemmed kind.

2	yr. head.....	3.00	27.00	240.00
5	yr. head specimens	B. & B.....	9.00	
6	yr. head specimens	B. & B.....	12.00	

— — **(GRAFTED LOW)** *Weeping Cherry*

And these have branches right from the ground to produce a more informal natural effect. Similar single pink flowers.

3	to	4	ft.	B. & B.....	3.00	27.50
4	to	5	ft.	B. & B.....	4.00	36.00
5	to	6	ft.	B. & B.....	6.00	
6	to	8	ft.	B. & B.....	9.00	

— — **flore pleno. 12'-15'** *Double Fl. Weeping Cherry*

Imagine if you can, a glorified Weeping Cherry with the same graceful fountain-like sweep of branches each thickly studded with double pink flowers—it is truly magnificent.

2	yr. head	3.00	27.00	
---	----------------	------	-------	--

PRUNUS

Each Per 10 Per 100

tomentosa. 6'-8'*Nanking Cherry*

Each of the straight branches is completely surrounded by tiny white cherry blossoms, which give way to an exuberant crop of small scarlet cherries; and don't the birds relish them.

4	to	5	ft.....	.80	7.00	
5	to	6	ft.....	1.00		

triloba plena. 7'-8'*Double Flowering Plum*

Larger and still more gorgeous than cousin "Almond." The bright pink double flowers thickly stud each branch and twig.

3	to	4	ft.....	.90	8.00	70.00
---	----	---	---------	-----	------	-------

PSEUDOTSUGA douglasii. 70'-80'*Douglas Fir*

EVERGREEN. Handsome and symmetrical from the seed bed to the towering forest monarch, this Rocky Mountain form has variable gray green foliage with soft pleasing texture.

1½	to	2	ft.	B. & B.....	1.25	11.00	90.00
2	to	2½	ft.	B. & B.....	2.00	15.00	125.00

14	to	16	ft., 3	to	3½	in.....	12.00	105.00	
16	to	18	ft., 3½	to	4	in.....	15.00	135.00	

rubra. 70'-80'*Red Oak*

Typically oak-like this majestic tree soon acquires size and an ageless look. Beginning in spring on fuzzy tender pink clusters the glossy green leaves become stained and blotched with warm crimson red in autumn and hang on till spring. Wide spreading branches need plenty of room for development.

8	to	9	ft.....	4.00	35.00	300.00
9	to	10	ft. 1¼ to 1½ in.....	5.50	50.00	
10	to	12	ft. 1½ to 2 in.....	7.00	65.00	
10	to	12	ft. 1¾ to 2 in.....	8.25	75.00	
12	to	14	ft. 2 to 2½ in.....	10.00	90.00	

RHAMNUS caroliniana. 20'-25' *Carolina Buckthorn*

Handsome deep green leaves make a splendid background. Red berries change to black. A good dominant border shrub.

4	to	6	ft.....	.60	5.00	
---	----	---	---------	-----	------	--

cathartica. 10'-12' *Common Buckthorn*

Another good background shrub with glittering black berries.

2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
4	to	5	ft.....	.60	5.00	40.00
5	to	6	ft.....	.75	6.50	

RHODODENDRON arbutifolia. 4' *Daphne Rhododendron*

EVERGREEN. The lovely pure pink little fairy bells brighten the shapely compact bush in June. Leaves are dull green, thick and about one and one half to three inches long. Of all the dwarf varieties this has proved most reliable with us.

9	to	12	in.	B. & B.....	2.50	22.50
12	to	15	in.	B. & B.....	3.25	30.00
15	to	18	in.	B. & B.....	4.50	40.00

canadense. 3'-4' *Rhodora*

Shy as most woodland subjects are the charming Rhodora of poetical fame is seldom seen. Tender purple flowers are borne on bare twigs brightening its natural moist shady home.

1½	to	2	ft.	B. & B.....	2.25	
----	----	---	-----	-------------	------	--

carolinianum (Nursery Grown) 5'-6' *Carolina Rhododendron*

EVERGREEN. In an open sunny place the charming pink May bells are more colorful and the whole plant is more bushy, although half shade is quite satisfactory on acid soil.

15	to	18	in.	B. & B.....	2.25	18.00	150.00
1½	to	2	ft.	B. & B.....	3.00	24.00	210.00

Boule de Nieve. 4'-5'**Snowball Rhododendron**

Extremely hardy, this dwarf form retains its irregular mounded outline, well furnished with light green leaves and liberally dotted with large clusters of sheeny white flowers.

12 to 15 in.	B. & B.....	4.00	36.00	300.00
15 to 18 in.	B. & B.....	5.25	48.00	450.00
1½ to 2 ft.	B. & B.....	6.75	60.00	525.00
2 to 2½ ft.	B. & B.....	9.00	82.50	750.00
2½ to 3 ft.	B. & B.....	12.00	110.00	

RHODOTYPOS kerrioides. 5'-6'**Jetbead**

A compact well furnished shrub studded in May and June with four-petal flowers that are as intensely white as the bead-like fruits are glittering jet black. These persist all winter.

3 to 4 ft.....	.50	4.50	40.00
4 to 5 ft.....	.70	6.00	

RHUS canadensis. 4'-5'**Fragrant Sumach**

Clusters of yellow spiny flowers precede the glistening little grape-like bunches of coral-red globules that ripen in June. The aromatic foliage turns brilliant orange and scarlet in autumn. Vine-like habit is particularly useful for dry slopes.

1½ to 2 ft.....	.50	4.00	
2 to 3 ft.....	.60	5.00	45.00

Each Per 10 Per 100

RHUS cotinus. 12'-15'
Smoke Tree

Until the filmy purplish cloud of fruit cluster becomes so noticeable in July we are apt to overlook the fine qualities of this handsome shrub. The clean flat round leaves are stained pink while young, then mature with yellow and purple tones in fall. As a specimen few shrubs can equal its bold rugged outline which is accentuated as the thick branches become gnarled with great age. These are fine bushy plants.

1½ to 2	ft.....	.50	4.50	35.00
2 to 3	ft.....	.60	5.00	
3 to 4	ft.....	.75	6.00	
4 to 5	ft.....	1.10	9.00	
5 to 6	ft.....	1.25	11.00	
6 to 8	ft.....	1.50	13.50	

SPECIMENS 7x5 ft. B. & B 5.00 to 10.00

ROBINIA hispida. 6'-8'
Rose Acacia

Clusters of bright rose colored sweet pea-like flowers hang from the slender branches in May. By means of spreading underground stems a mass is quickly formed and this habit is utilized for holding slopes. Thrives on poor soil and drought.

3 to 4	ft.....	.90	7.50	
--------	---------	-----	------	--

ROSA blanda. 3'-4'
Meadow Rose

Lovely pink flowers about two inches across are sparsely produced on thornless reddish branches in May. Plant in masses.

1½ to 2	ft.....	.50	4.50	
2 to 3	ft.....	.60	5.50	

F. J. Grootendorst. 4'-5'
Grootendorst Rose.

Although small, the red flowers are produced over a long season—bushy habit is useful for hedging.

2 to 3	ft.....	.60	5.00	
--------	---------	-----	------	--

hugonis. 6'-8'
Hugonis Rose

In early May each arching branch becomes almost overnight a beautiful rope of clear yellow single flowers. And the small fernlike foliage alone justifies its use in the shrub border.

2 to 3	ft.....	.75	6.00	
--------	---------	-----	------	--

lucida (virginiana.)
Virginia Rose

Has large shining leaves and goodly numbers of rose pink flowers lasting into July. A good native to introduce.

1½ to 2	ft.....	.50	4.50	
---------	---------	-----	------	--

rubiginosa. 5'-6'
Sweetbrier

Cherry-pink flowers in June call attention to aromatic foliage.

1½ to 2	ft.....	.50	4.50	
---------	---------	-----	------	--

rugosa 5'-6'
Red Rugosa Rose

Handsome as a massed shrub with rich green glossy foliage and surprisingly large single crepe-like deep pink flowers that scent the air with fragrance. The large yellow and red hips are decorative, too. A useful shrub for seaside exposures.

1½ to 2	ft.....	.40	3.00	
2 to 3	ft.....	.60	5.00	40.00

— alba. 4'-5'
White Rugosa Rose

Exquisitely dainty white flowers are produced all summer.

1½ to 2	ft.....	.50	4.00	
2 to 3	ft.....	.60	5.00	

— Max Graf. 4'-5'
Hybrid Rugosa Rose

Excellent as a ground cover when the long growth forms a rich green blanket of rugosa-like leaves bejewelled in June with shiny pink flowers. Rambles happily on a slope.

2 yr.....		.60	5.00	
-----------	--	-----	------	--

	Each	Per 10	Per 100
ROSA setigera. 10'-12'			<i>Prairie Rose</i>
Long arching branches will cover the ground to make a great broad bush. Large single pink flowers in July. Fine for covering wide rocky slopes, where few other shrubs succeed.			
2 yr.....	.50	4.50	
wichuriana. Vine. 8'-10'			<i>Memorial Rose</i>
Most useful as a ground cover on sunny slopes where the small glossy green leaves effectively hide the long stringy vines, which root where they touch the ground. Small single white flowers brighten the picture in July. Has red fruits.			
2 yr.....	.50	4.00	30.00
SALIX babylonica. 30'-40'			<i>Babylon Weeping Willow</i>
Long stringy branches droop vertically to the ground, and with the narrow light green leaves create a soft velvety texture. Grows rapidly especially when close to water.			
4 to 6 ft.....	1.50	13.50	120.00
6 to 8 ft.....	2.00	18.00	150.00
8 to 10 ft.....	2.50		
elegantissima. 50'-60'			<i>Thurlow Weeping Willow</i>
Although not quite so pendulous the wider spreading branches display the graceful curving green branchlets to splendid advantage. Even quicker growing and more vigorous than "Babylon" willow. Should be planted more freely.			
6 to 8 ft.....	1.50	13.50	
pentandra. 30'-40'			<i>Laurel Willow</i>
Well named for the rich green shiny foliage serves to make this an ideal background, at seashore or inland, grows quickly.			
6 to 8 ft.....	1.35	12.00	
SCHIZOPHRAGMA hydrangeoides. 25'-30'			<i>Hydrangea Vine</i>
For permanence this self-clinging vine is most desirable. The round leaves are about four inches across and shingle a wall beautifully. Quite similar to the climbing Hydrangea this can be identified by the single petaled bracts among the more numerous true flowers. Must be supported for best results.			
3 in. pots.....	1.25		
SCIADOPITYS verticillata. 20'-25'			<i>Umbrella Pine</i>
<i>EVERGREEN.</i> So called because the thick four inch leaves are arranged in whorls similar to the ribs of an umbrella. These dark green glossy needles handsomely clothe the branches which make a dense pyramidal head. Growing very slowly it can be safely used in low plantings. Drainage is essential for this unique beautiful conifer. Excellent spot plant.			
5 to 6 ft. B. & B.....	22.50		
6 to 7 ft. B. & B.....	30.00		
SOPHORA japonica. 60'-70'			<i>Chinese Scholar Tree</i>
Improves with age as the tortuous branches assume interesting shapes, and the crop of greenish yellow pea-shaped flowers increases. Really a fine tree that should be used for avenue or specimen purposes. Easily satisfied as to soil.			
2 to 3 ft.....	1.25	10.00	90.00
3 to 4 ft.....	1.80	15.00	
4 to 5 ft.....	2.50	22.50	
viciifolia. 5'-6'			<i>Vetch leaf Sophora</i>
Clusters of porcelain blue or pale violet pea blossoms appear in June to decorate this shrub. Thrives in dry sunny spot.			
1½ to 2 ft.....	.90	7.50	
2 to 3 ft.....	1.50	13.50	
3 to 4 ft.....	2.00		

Each Per 10 Per 100

SORBARIA arborea glabrata. 12'-15' *Tree Spirea*

All too rarely is this bold handsome August blooming shrub seen. The feathery bunches of flowers are often two feet long, gracefully held aloft or extended at ends of arching branches. Large compound leaves add to the tropical effect.

3	to	4	ft.....	.90	7.50	
---	----	---	---------	-----	------	--

sorbifolia. 5'-6' *Ural False Spirea*

Quickly spreads by suckers to make a handsome clump well clothed with refined ash-like foliage, topped in August by creamy panicles of fuzzy flowers. Will grow almost anywhere.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.60	5.00	40.00

SORBUS aucuparia. 25'-30' *European Mountain Ash*

Ideal for the small lawn, the Rowan tree is extremely popular in Europe, where the great clusters of orange-red fruits figure in song and story, but here they serve the more practical purpose of food for robins. Good drainage is a necessity.

6	to	8	ft.....	1.50	13.50	120.00
8	to	9	ft.....	2.50	22.50	
9	to	10	ft. 1¼ to 1½ in.....	3.00	27.00	
10	to	11	ft. 1½ to 1¾ in.....	3.75	33.00	
11	to	12	ft. 1¾ to 2 in.....	4.50	40.00	
12	to	14	ft. 2 to 2½ in.....	6.00	52.50	
12	to	14	ft. 2½ to 3 in.....	7.50		

quercifolia. 25'-30' *Oakleaf Mountain Ash*

As the name indicates, the leaves bear a resemblance to a chestnut oak, but it does not seem to flower or fruit so freely.

6	to	8	ft.....	1.80	15.00	
8	to	10	ft.....	2.75	25.00	
10	to	12	ft.....	3.25	30.00	
12	to	14	ft.....	4.50		

SPIRAEA Anthony Waterer. 3' *Waterer Spirea*

Flat topped heads of rose pink flowers are produced all summer. Compact useful shrub for "facing" tall border shrubs.

15	to	18	in.....	.40	3.00	20.00
1½	to	2	ft.....	.50	4.00	30.00
2	to	3	ft.....	.60	5.00	40.00

arguta. 4'-5' *Garland Spirea*

Very small grass green foliage creates a fine textured mass which in May is delicately dotted with many white flowers.

2	to	3	ft.....	.50	4.00	
---	----	---	---------	-----	------	--

thunbergi. 4'-5' *Thunberg Spirea*

Even finer than "arguta" this feathery light green shrub is a bank of snow in April when every twig bears its quota of white flowerlets. Striking orange and scarlet autumn coloring.

2	to	3	ft.....	.50	4.00	
3	to	4	ft.....	.60	5.00	

trichocarpa. 5'-6' *Korean Spirea*

Quite similar but coarser than Van Houtte which flowers about three weeks before this neat broad spreading bush.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	35.00
3	to	4	ft.....	.60	5.00	

triloba. 3'-4' *Three lobe Spirea*

Has unfortunately been eclipsed by the offspring "Van Houtte" to which it is similar but smaller in every part.

Really very beautiful and useful as a low "facing" shrub.

1½	to	2	ft.....	.40	3.50	
----	----	---	---------	-----	------	--

Each Per 10 Per 100

SPIRAEA van houttei. 6'-8'*Van Houtte Spirea*

Generally "overdone" but nevertheless very beautiful in June, when the arching branches are transformed into snowy garlands which defy description. Fortunately no special soil or location is needed but space it must have and please don't prune formally or "bob" its growth—let it grow naturally.

2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	30.00
4	to	5	ft.....	.60	5.00	

STEPHANANDRA flexuosa. 5'-6'*Cutleaf Stephanandra*

Graceful arching branches well clothed with finely cut bright green leaves changing to reddish purple in autumn. Never grows "out of hand" so is very useful to face tall shrubs.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.60	5.00	40.00
4	to	5	ft.....	.75	6.00	

STRANVAESIA davidiana. 12'-15'

EVERGREEN. Handsome indeed where the loose bunches of orange scarlet berries shine out against the rich deep green broad leaves. Given a sheltered spot it will well repay one.

4 in. pots,	12 to 15 in.....	1.20	10.00	90.00
-------------	------------------	------	-------	-------

STYRAX japonica. 18'-20'*Japanese Snowbell*

To say merely "a beautiful tree" is almost a travesty on this comparatively unknown subject. In July the wide spreading branches are closely strung with nodding pure white bells, an exceedingly handsome picture. Specimens or lawn plants are more effective than in mass. Spring planting is best.

2	to	3	ft.....	.60	5.00	45.00
3	to	4	ft.....	.75	6.00	50.00
4	to	5	ft.....	.90	7.50	
5	to	6	ft.....	1.25		

obassia. 25'-30'*Fragrant Snowbell*

Strikingly large round handsome leaves partially hide the well shaped white flowers but the fragrance causes one to look up and see the loose bunches along the branches. Rarely seen but a splendid thing that will be appreciated when known.

10	to	12	ft. specimens, B. & B	13.50
----	----	----	-----------------------	-------

SYMPHORICARPOS chenaulti 3'-4' *Chenault Coralberry*

Quite an improvement on the Coralberry of which this is a hybrid. Always neat and well furnished in appearance particularly handsome when the slender branches are laden with the bunches of coral red fruits, which last until midwinter.

3	to	4	ft.....	.50	4.50	40.00
4	to	5	ft.....	.60	5.00	

racemosus. 4'-5'*Snowberry*

Well loved for the large white berries which weigh down the willowy branches in September, widely used for inside decorations. Happiest in half shady spot but most adaptable.

1½	to	2	ft.....	.30	2.50	20.00
2	to	3	ft.....	.40	3.00	25.00
3	to	4	ft.....	.50	4.00	

Each Per 10 Per 100

SYMPHORICARPOS vulgaris. 4'-5' **Coralberry**

Like the Snowberry is not fastidious as to soil and location, in fact does well even in a dry shady place where the bunched coral berries remain bright until early Spring. Somewhat straggling but splendid for massing and naturalizing.

1½ to 2	ft.....	.30	2.50	20.00
2 to 3	ft.....	.40	3.00	25.00
3 to 4	ft.....	.50	4.00	

SYMPLOCOS paniculata 20'-25' **Turquoise Berry**

Just imagine a well grown Hawthorn heavily laden with turquoise blue berries and you have an idea of what this rarity looks like in autumn, a magnificent sight. In spring white flowers are quite conspicuous and an intricate arrangement of branches show in winter. Prefers well drained place.

1½ to 2	ft.....	1.00	9.00	75.00
2 to 2½	ft.....	1.50	12.00	

SYRINGA chinensis. 12'-15' **Chinese Lilac**

Slender graceful branches terminate in compact clusters of purple lilac flowers. This hybrid form is generally conceded as better than its parent "persica" for general uses and cutting.

2 to 3	ft.....	.40	3.00	25.00
3 to 4	ft.....	.60		

— **saugeana. 12'-15'** **Purple Chinese Lilac**

An even better variety with glowing purple-red flowers and far better foliage. Grows more vigorously too. Both are at their best in May and develop into handsome specimens.

2 to 3	ft.....	.40	3.00	25.00
3 to 4	ft.....	.60	5.00	

persica. 8'-10' **Persian Lilac**

Doubtless will always be popular for its fragrant pale lilac flowers which are loosely arranged on thin arching branches.

1½ to 2	ft.....	.50	4.00	
2 to 3	ft.....	.60		

— **alba. 7'-8'** **White Persian Lilac**

The white flowers are faintly tinged blue before fully expanded.

1½ to 2	ft.....	.50	4.00	
2 to 3	ft.....	.60	5.00	
3 to 4	ft.....	.75		

vulgaris. 12'-15' **Common Purple Lilac**

A great old commoner, the mere mention of which never fails to recall the delicious fragrance of May. By close association with man from early days, has become an institution. No matter where you place it the lovely flowers will smile at you every year, so don't fuss about a particular spot.

1½ to 2	ft.....	.30	2.50	20.00
2 to 3	ft.....	.40	3.50	25.00
3 to 4	ft.....	.50	4.00	30.00
4 to 5	ft.....	.60	5.00	

— **alba. 12'-15'** **Common White Lilac**

Is the white form more fragrant? Just try them side by side.

1½ to 2	ft.....	.40	3.00	25.00
2 to 3	ft.....	.50	4.00	30.00
3 to 4	ft.....	.60	5.00	40.00
4 to 5	ft.....	.75	6.00	50.00

1½ to 2 ft.	B. & B.....	4.00		

— sieboldi. 12'-15' Siebold Yew

A vigorous bushy "cuspidata" that develops real character in a few years. Quickly forms a strong well filled hedge.

1 to 1½ ft.	B. & B.....	1.20	9.00	75.00
1½ to 2 ft.	B. & B.....	2.00	18.00	
2 to 2½ ft.	B. & B.....	2.50	22.50	
2½ to 3 ft.	B. & B.....	3.75	33.00	
3 to 3½ ft.	B. & B.....	6.00	54.00	
3½ to 4 ft.	B. & B.....	8.25		

media. 12'-15' Hybrid Yew

Quite similar but more vigorous and bushy than "nana." Doubtless one of the handsomest evergreen shrubs for supplying the deep green note. Will form a characterful hedge.

9 to 12 in.	B. & B.....	1.00	9.00	75.00
12 to 15 in.	B. & B.....	1.50	12.50	100.00
15 to 18 in.	B. & B.....	2.00	18.00	150.00
1½ to 2 ft.	B. & B.....	3.00	25.00	225.00
2 to 2½ ft.	B. & B.....	4.50	40.00	350.00
2½ to 3 ft.	B. & B.....	6.00	54.00	

— hatfieldi. 12'-15' Hatfield Yew

Forms a compact perfectly furnished cone shaped bush that offers many possibilities especially in the small neat garden.

15 to 18 in.	B. & B.....	3.00	27.00	225.00
1½ to 2 ft.	B. & B.....	3.60	33.00	300.00
2 to 2½ ft.	B. & B.....	5.25	48.00	420.00
2½ to 3 ft.	B. & B.....	6.75	60.00	
3 to 3½ ft.	B. & B.....	8.25		

— hicksi. 10'-12' Hicks Yew

The logical substitute for the columnar Irish Yew in cold climates. Upright branches are covered all around with typical dark green leaves. Planted closely you have ready made hedge.

1½ to 2 ft.	B. & B.....	3.00	27.00	
2 to 2½ ft.	B. & B.....	4.50	40.00	
2½ to 3 ft.	B. & B.....	6.00	54.00	

— wellesleyana. 8'-10' Wellesley Yew

Another child of Hatfield's that promises to be outstanding as a real hardy substitute for Irish Yew. The closely packed branches all grow upward to make, in youth at least, a well shaped fat column well furnished with thick rich green leaves.

12 to 15 in.	B. & B.....	2.75	25.00	
--------------	-------------	------	-------	--

	Each	Per 10	Per 100
TEUCRIUM chamaedrys. 12"-15"			<i>Germander</i>
<i>EVERGREEN.</i> Interesting rock garden shrub with glossy deep green leaves and rose-purple flowers in loose spikes.			
3 in. pots.....	.35	3.00	25.00

THUYA ALL EVERGREEN.
occidentalis. 30'-35' *American Arborvitae*

Certainly a most prolific species giving rise to many handsome widely differing forms. Too often is this "Tree of Life" prejudged in its infancy, for surely does it assume its natural place among the patriarchs of the tree world. Generally useful for hedging or formal work, its well clothed pyramidal outline can be sheared severely without hurt. Brown inside foliage can be vigorously shaken out in early spring. Most Arborvitae prefer a moist place where they see the sun all day.

2 to 3 ft.	B. & B.....	1.20	10.00	90.00
3 to 4 ft.	B. & B.....	1.50	13.50	120.00
4 to 5 ft.	B. & B.....	2.25	20.00	180.00
5 to 6 ft.	B. & B.....	3.50	30.00	
6 to 7 ft.	B. & B.....	5.00	45.00	
7 to 8 ft.	B. & B.....	7.50	67.50	

— compacta. 4'-5' *Parson's Arborvitae*

Naturally almost globe shape. Light green foliage. Wears well.

1½ to 2 ft.	B. & B.....	1.25	10.00	
2 to 2½ ft.	B. & B.....	1.50	13.50	
2½ to 3 ft.	B. & B.....	2.00	15.00	

— douglasii aurea. 15'-20' *Douglas Golden Arborvitae*

Bronzy yellow foliage clothes the well shaped pyramid. Very hardy and quick growing.

2 to 2½ ft.	B. & B.....	1.00	9.00	75.00
2½ to 3 ft.	B. & B.....	1.35	12.00	105.00
3 to 4 ft.	B. & B.....	2.00	18.00	150.00
4 to 5 ft.	B. & B.....	2.70	24.00	225.00
5 to 6 ft.	B. & B.....	3.75	33.00	300.00
6 to 7 ft.	B. & B.....	5.25	48.00	420.00
7 to 8 ft.	B. & B.....	7.50	67.50	

— pyramidalis (plicata). 20'-25' *Douglas Arborvitae*

Easily identified by the curiously twisted fern like branchlets covered with typical shiny green scale like leaves. A narrow pyramid with short lateral branches. Often called T. spiralis.

2 to 2½ ft.	B. & B.....	1.00	9.00	
2½ to 3 ft.	B. & B.....	1.35	12.00	
3 to 4 ft.	B. & B.....	2.00	18.00	150.00
4 to 5 ft.	B. & B.....	2.70	24.00	225.00
5 to 6 ft.	B. & B.....	3.75	33.00	300.00
6 to 7 ft.	B. & B.....	5.25	48.00	420.00

— elegantissima. 15'-20' *Golden Tipped Arborvitae*

Fleshy lustrous green leaf-branches are in spring conspicuously tipped with gold but retain their vivid green throughout the winter. A well formed broad based pyramid. This is one of the finest of the varieties.

2 to 2½ ft.	B. & B.....	1.00	9.00	75.00
2½ to 3 ft.	B. & B.....	1.35	12.00	105.00

2 to 2½ ft.	B. & B.....	1.80	15.00	

— hoveyi. 3'-4' *Hovey Arborvitae*

Broadly oval in outline, bright green foliage, fresh in spring.

2 to 2½ ft.	B. & B.....	1.80	15.00	
2½ to 3 ft.	B. & B.....	2.25	20.00	
3 to 3½ ft.	B. & B.....	3.00		

— Little Gem. 2'-3' *Little Gem Arborvitae*

Apparently has been overlooked for whenever seen this appropriately named little fellow rarely fails to excite admiration and desire to possess. Hugging the ground all through life it slowly spreads and expands in billowy humps creating an age old effect. For edging, a low informal hedge, rock garden or any low planting decidedly fitting and permanent.

9 to 12 in.	B. & B.....	1.00	9.00	75.00
12 to 15 in.	B. & B.....	1.25	11.00	90.00
15 to 18 in.	B. & B.....	1.75	15.00	120.00
18 to 21 in.	B. & B.....	2.25	20.00	

— lutea. 12'-15' *Geo. Peabody Arborvitae*

Conspicuous at all times with bright yellow foliage throughout the well shaped pointed column. Helped by trimming.

2 to 2½ ft.	B. & B.....	1.00	9.00	75.00
2½ to 3 ft.	B. & B.....	1.35	12.00	105.00
3 to 4 ft.	B. & B.....	2.00	18.00	150.00
4 to 5 ft.	B. & B.....	2.70	24.00	225.00
5 to 6 ft.	B. & B.....	3.75	33.00	300.00
6 to 7 ft.	B. & B.....	5.25	48.00	
7 to 8 ft.	B. & B.....	7.50		

— pumila. 3'-4' *Dwarf Arborvitae*

In juvenile stage practically a globe but eventually becomes a notably round topped bush withstanding very severe climate.

1 to 1½ ft.	B. & B.....	.90	7.50	60.00
1½ to 2 ft.	B. & B.....	1.35	12.00	105.00
2 to 2½ ft.	B. & B.....	1.80	15.00	
2½ to 3 ft.	B. & B.....	2.25	20.00	

— pyramidalis. 25'-30' *Pyramidal Arborvitae*

Is a narrow column clothed with lively green foliage that retains its color throughout winter. Useful alike in formal or informal planting for the spire like shafts or as a hedge.

2 to 2½ ft.	B. & B.....	1.00	9.00	75.00
2½ to 3 ft.	B. & B.....	1.35	12.00	105.00
3 to 4 ft.	B. & B.....	2.00	18.00	150.00
4 to 5 ft.	B. & B.....	2.70	24.00	225.00
5 to 6 ft.	B. & B.....	3.75	33.00	300.00
6 to 7 ft.	B. & B.....	5.25	48.00	420.00
7 to 8 ft.	B. & B.....	7.50	67.50	

— riversi. 10'-12' *Rivers Arborvitae*

With a broad base this well defined pyramid is always well furnished with pleasing soft green foliage quite bright in spring.

3 to 4 ft.	B. & B.....	2.00	18.00	
4 to 5 ft.	B. & B.....	3.00	27.00	
6 to 7 ft.	B. & B.....	6.00	54.00	

THUYA.		ALL EVERGREEN.		Each	Per 10	Per 100
occidentalis rosenthali. 8'-10'		Rosenthal Arborvitae				
Decidedly worthy of wider use, as it grows slowly and its knobby rugged appearance improves with age, maturing as a "weathered" column of dark green, good even in winter.						
1½ to 2	ft.	B. & B.....	1.25	10.00	75.00	
2 to 2½	ft.	B. & B.....	1.50	12.50	100.00

3 to 4	ft.	B. & B.....	2.75	22.50	200.00	
4 to 5	ft.	B. & B.....	3.50	30.00		
— woodwardi. 3'		Woodward Arborvitae				
Difficult to detect any difference between this and "globosa".						
12 to 15	in.	B. & B.....	.90	7.50	60.00	
15 to 18	in.	B. & B.....	1.00	9.00	75.00	
1½ to 2	ft.	B. & B.....	1.35	12.00		
orientalis (BIOTA) 25'-30'		Oriental Arborvitae				
Flat fan like branches pressed together "on end" form at first an oval shape column brilliantly clothed in emerald green foliage. Eventually develops into a bushy pyramidal tree.						
2 to 3	ft.	B. & B.....	1.00	9.00		
3 to 4	ft.	B. & B.....	2.00	18.00		
4 to 5	ft.	B. & B.....	2.70	24.00		
— aurea conspicua (BIOTA) 10'-12'		Goldspire Arborvitae				
Gayly dressed in bright yellow foliage that deepens to glowing old gold and warm brown in winter. Broad colorful column.						
1½ to 2	ft.	B. & B.....	1.50	13.50	120.00	
2 to 2½	ft.	B. & B.....	2.00	18.00	165.00	
2½ to 3	ft.	B. & B.....	3.00	27.00	225.00	
3 to 4	ft.	B. & B.....	4.00	35.00	300.00	
4 to 5	ft.	B. & B.....	5.25	48.00		
5 to 6	ft.	B. & B.....	6.75			

THUYA orien. ALL EVERGREEN. Each Per 10 Per 100**aurea nana (BIOTA) 4'-5' Berckman Golden Arborvitae**

From the "bed plant" to old age the same compact neat egg-shape mass is retained, changing from the brilliant yellow high lights of spring to warm reddish brown tones, tipped with gold in winter. A favorite for window boxes, edgings.

12 to 15 in.	B. & B.....	1.20	10.00	90.00
15 to 18 in.	B. & B.....	1.50	13.50	120.00
1½ to 2 ft.	B. & B.....	2.25	21.00	180.00
2 to 2½ ft.	B. & B.....	3.25	30.00	
2½ to 3 ft.	B. & B.....	4.50		

— bakeri (BIOTA) 5'-6' Baker Arborvitae

From a low oval bush will lengthen out to a broad column of soft green. Succeeds in a hot dry place and it's hardy.

1½ to 2 ft.	B. & B.....	1.25	10.00	75.00
2 to 2½ ft.	B. & B.....	1.50	12.50	100.00
2½ to 3 ft.	B. & B.....	2.00	17.50	150.00
3 to 4 ft.	B. & B.....	3.00	27.00	

— compacta (BIOTA) 4'-5' Siebold Arborvitae

Except for its vivid constant green foliage is similar to "Berckman." A most useful member when color isn't wanted.

15 to 18 in.	B. & B.....	1.25	10.00	80.00
1½ to 2 ft.	B. & B.....	1.50	12.50	100.00
2 to 2½ ft.	B. & B.....	2.25		

— elegantissima (BIOTA) 10'-12' Yellow Column Arborvitae

In outline a broad swelling column, quite compact and well furnished. Few if any conifers can compare favorably to this handsome bush for warm rich coloring throughout the year. Spring covers the surface with sparkling yellow tips ripened by the summer sun to golden brown, and winter even sub-zero temperature, brings out the rich reddish bronze coat flecked with yellow brilliants, with vivid green inside.

1½ to 2 ft.	B. & B.....	1.20	10.00	90.00
2 to 2½ ft.	B. & B.....	1.50	13.50	120.00
2½ to 3 ft.	B. & B.....	2.25	20.00	180.00
3 to 4 ft.	B. & B.....	3.00	27.00	240.00
4 to 5 ft.	B. & B.....	4.25	36.00	330.00
5 to 6 ft.	B. & B.....	6.75		

plicata atrovirens (lobbi) 35'-40' Giant Arborvitae

Lustrous green fleshy leaves clothe the branchlets assuming warm bronze tones in winter. Given a sunny reasonably moist spot will quickly develop into a splendid dignified irregular tree. Quite unlike any other arborvitae, handsome.

2 to 3 ft.	B. & B.....	1.25	10.00	90.00
3 to 4 ft.	B. & B.....	2.00	18.00	150.00
4 to 5 ft.	B. & B.....	2.70	24.00	225.00
5 to 6 ft.	B. & B.....	3.75	33.00	300.00
6 to 7 ft.	B. & B.....	5.25	48.00	
7 to 8 ft.	B. & B.....	7.50		

standishi. 12'-15' Standish Arborvitae

Rather sorrowful but provides a welcome "break" with its open branches, irregular pyramidal habit and coarse growth. The south side tones down to a warm bronze in winter.

2 to 3 ft.	B. & B.....	2.00	17.50	150.00
3 to 4 ft.	B. & B.....	2.75	22.50	200.00
4 to 5 ft.	B. & B.....	4.00	35.00	300.00
5 to 6 ft.	B. & B.....	5.25	50.00	450.00
6 to 7 ft.	B. & B.....	6.75	60.00	

Each Per 10 Per 100

TILIA americana. 80'-90'
American Linden

In a fairly moist location this native Basswood will, once started, quickly develop into a large limbed round topped tree, handsome in its dress of great heart shaped leaves, conspicuous in June when the fragrant flowers attract bees.

9	to	10 ft., 1¼ to 1½ in.....	2.50	22.50
10	to	11 ft., 1½ to 1¾ in.....	3.25	28.50
11	to	12 ft., 1¾ to 2 in.....	4.00	35.00
12	to	14 ft., 2 to 2½ in.....	5.00	45.00
12	to	14 ft., 2½ to 3 in.....	6.75	60.00

cordata. 70'-80'
Littleleaf European Linden

Generally conceded the best form for street planting as the dark green leaves remain good until late autumn. The compact low branched head is particularly fitted to lawn purposes where the branches make a natural canopy, fragrant in June.

8	to	9 ft.....	3.00	27.50	250.00
9	to	10 ft., 1¼ to 1½ in.....	4.00	37.50	325.00

11	to	12 ft., 1¾ to 2 in.....	6.50	57.50	500.00
12	to	14 ft., 2 to 2½ in.....	8.00	70.00	650.00
12	to	14 ft., 2½ to 3 in.....	11.00	100.00	900.00
12	to	14 ft., 3 in.....	13.50		

euchlora. 70'-80'
Crimean Linden

Shiny yellow branchlets, distinctive—good clean foliage.

8	to	10 ft.....	3.00		
8	to	10 ft., 1¼ to 1½ in.....	3.75		
10	to	12 ft., 1½ to 1¾ in.....	4.50		
10	to	12 ft., 1¾ to 2 in.....	6.00		

platyphyllos (grandiflora) 80'-100' Bigleaf European Linden

Maybe not as popular as the small leaved brother but a robust handsome fellow that has made famous the stately avenues of Europe. Both types are often formally clipped.

9	to	10 ft., 1¼ to 1½ in.....	3.50	30.00	270.00
10	to	11 ft., 1½ to 1¾ in.....	4.50	40.00	350.00
11	to	12 ft., 1¾ to 2 in.....	6.00	52.50	450.00
12	to	14 ft., 2 to 2½ in.....	7.50	67.50	
12	to	14 ft., 2½ to 3 in.....	10.00	90.00	

— pyramidalis. 40'-50'
Pyramidal Linden

For narrow avenues or even an accent tree this would be a good choice as the clean branches all grow upward. Scarce.

6	to	8 ft.....	3.75		
---	----	-----------	------	--	--

tomentosa. (argentea) 50'-60'
Silver Linden

Few trees could be more handsome than this striking species. The heart-shaped leaves are green above and silvery white beneath. Grows into a compact specimen: in June surrounded by bees gathering honey from the sweetly fragrant flowers.

8	to	10 ft., 1¼ to 1½ in.....	5.00	45.00	
---	----	--------------------------	------	-------	--

TSUGA canadensis. 70'-80'
Canada Hemlock

EVERGREEN. Grace, dignity and beauty have conspired successfully to make this American a living example of magnificent stateliness. With plenty of space the tree claims right to its noble forest stature, but is willing to be clipped into hedges—splendid walls of close textured green. Half shade or a north slope is preferred but sun is alright too.

2½	to	3 ft.	B. & B.....	2.00	18.00	165.00
3	to	4 ft.	B. & B.....	3.00	27.00	240.00
4	to	5 ft.	B. & B.....	5.00	45.00	400.00
5	to	6 ft.	B. & B.....	7.50	67.50	600.00

ULMUS americana. 100' *American Elm*

Almost wherever you go the lofty arching branches silently pronounce a benediction on the traveller. No tree it would seem can be more majestic than our dear old American Elm, a tower of strength, grace and beauty. Plant an Elm.

10 to 12 ft., 1¾ to 2 in.....	2.25	20.00	180.00
12 to 14 ft., 2 to 2½ in.....	3.50	30.00	250.00
12 to 14 ft., 2½ to 3 in.....	4.50	40.00	350.00
14 to 16 ft., 3 to 3½ in.....	7.00	60.00	
16 to 18 ft., 3½ to 4 in.....	8.25		

— **molini. 80'-100'** *Moline Elm*

Unexpected in the Elm family, nevertheless a most useful and handsome member is this vigorous youngster of broad conical outline clad in splendid large leaves. Ideal for narrow streets.

8 to 10 ft.....	1.75	15.00	120.00
8 to 10 ft., 1¼ to 1½ in.....	2.00	17.50	135.00

16 to 18 ft., 3 to 3½ in.....	8.25		

— **Vase shaped. 80'-100'** *Vase Elm*

Selected to emphasize the graceful lines of the vase shape top, and it has handsome foliage to boot. Where uniform shape is desired these budded trees must be used—not seedlings.

8 to 10 ft.....	1.75	15.00	120.00

16 to 18 ft., 3 to 3½ in.....	8.25		

VIBURNUM

Each Per 10 Per 100

lantana. 12'-15'*Wayfaring Tree*

Becomes most attractive when the handsome foliage turns red and the fruits change from crimson to black in autumn.

Apparently at home in a lime soil. Useful for bold accents.

1½ to 2	ft.....	.40	3.00	25.00
2 to 3	ft.....	.50	4.00	30.00
3 to 4	ft.....	.60	5.50	45.00
4 to 5	ft.....	.75	6.00	55.00
5 to 6	ft.....	1.00		

lentago. 20'-25'*Nannyberry*

Almost a tree eventually, having clean looking foliage that becomes rich purple and crimson in Fall. Black berries are decorative all winter too. Extremely hardy, prefers moist place.

2 to 3	ft.....	.50	4.00	35.00
3 to 4	ft.....	.60	5.00	45.00
4 to 5	ft.....	.75	6.00	

molle. 10'-12'*Kentucky Viburnum*

The rounder darker green leaves constitute the main difference between this and *dentatum*, if anything is more adaptable.

1½ to 2	ft.....	.40	3.50	
2 to 3	ft.....	.50	4.50	
3 to 4	ft.....	.60	5.00	

opulus. 10'-12'*European Cranberry*

Runner-up to the American variety to which it is similar.

2 to 3	ft.....	.50	4.00	
3 to 4	ft.....	.60	5.00	
5 to 6	ft.....	1.00	9.00	
6 to 8	ft.....	1.50	13.50	

— nanum. 1'-2'*Dwarf Cranberry*

Forms a dense globular affair packed with shoots and foliage but rarely blooms, a stunning plant for edging or hedging.

6 to 9	in.....	.40	3.50	30.00
9 to 12	in.....	.50	4.50	40.00
12 to 15	in.....	.60	5.50	50.00
15 to 18	in.....	.70	6.50	

prunifolium. 12'-15'*Black Haw*

A sturdy clean cut shrub with few stiff upright stems and a maze of horizontal branches. Attractive pure white May flowers give place to large bunches of pink fruits turning to black. Decidedly best in masses when the intricate branches form one vast clump beautifully softened with smallish leaves, purple in fall. Effective when combined with cedars.

1½ to 2	ft.....	.50	4.00	35.00
2 to 3	ft.....	.60	5.00	45.00
3 to 4	ft.....	.80	7.00	60.00
4 to 5	ft.....	1.00	9.00	

pubescens Canby. 7'-8'

Somewhat similar to Arrow Wood but has rounded leaves and more compact habit.

2 to 3	ft.....	.60		
3 to 4	ft.....	.75		

rhytidophyllum. 8'-10'*Leatherleaf Viburnum*

EVERGREEN. Rough deeply veined *Rhododendron*-like leaves quickly distinguish this bold southerner. If the brilliant red berries are to mature a sheltered half shady spot is needed.

1½ to 2	ft.	B. & B.....	1.50	12.50	100.00
2 to 3	ft.	B. & B.....	2.25	20.00	150.00
3 to 3½	ft.	B. & B.....	3.00	27.00	

Each Per 10 Per 100

VIBURNUM sieboldi. 8'-10'

Siebold Viburnum

Tree-like, few stemmed shrub with handsome dark green lustrous foliage, creamy flowers and berries that start out green changing to pink to black. Certainly a "dominant" shrub.

1½ to 2	ft.....	.40	3.00	25.00
2 to 3	ft.....	.50	4.00	30.00
3 to 4	ft.....	.60	5.00	45.00
4 to 5	ft.....	.90	7.50	
5 to 6	ft.....	1.50		

tomentosum. 8'-10'

Doublefile Viburnum

The Beau-Brummel of the family whose neatness is of little note beside the handsome spectacle afforded by a well grown specimen in full bloom. The flat topped clusters of pure white flowers are thickly strung along the top of the horizontal branches so as to resemble a fall of snow. The purple foliage color is distinctive too. By all means an indispensable.

2 to 3	ft.....	.50	4.00	30.00
3 to 4	ft.....	.60	5.00	40.00
4 to 5	ft.....	.90	7.50	

— plicatum. 7'-8'

Japanese Snowball

In June the familiar white three inch "Snowballs" are generously studded over a well clothed shrub, a cheerful picture; no fruits.

2 to 3	ft.....	.40	3.50	25.00
3 to 4	ft.....	.60	5.00	

wrighti. 8'-10'

Wright Viburnum

Somewhat like dilatatum with the same brilliant scarlet fruit.

1½ to 2	ft.....	.50	4.00	35.00
2 to 3	ft.....	.60	5.00	
3 to 4	ft.....	.75	6.50	

VINCA minor

Periwinkle

EVERGREEN. Accepted as THE ground cover, its close blanket of dark green foliage is well known. Shade is best but a sunny spot is alright too, if not too dry and hot.

3 in pots.....	90.00 thousand	1.50	12.00	
----------------	----------------	------	-------	--

VITEX macrophylla. 5'-6'

Bigleaf Chaste Tree

A dainty shrub with branching spikes of very attractive lavender blue flowers in September beautifully offset by the star shaped gray green leaves. Must have sun, prune in spring.

1½ to 2	ft.....	.50	4.00	
2 to 3	ft.....	.60	5.00	
3 to 4	ft.....	.75	6.50	

WEIGELA candida. 6'-8'

Snow Weigela

Creamy white trumpets try to outnumber the young leaves in May. Vigorous upstanding subject. Prune out the old wood.

2 to 3	ft.....	.40	3.00	25.00
3 to 4	ft.....	.50	4.00	30.00
4 to 5	ft.....	.60	5.00	40.00
5 to 6	ft.....	.75		

— Eva Rathke. 4'-5'

Red Flowering Weigela

Almost continuously throughout the summer the short branches are actually covered with reddish carmine blossoms.

1½ to 2	ft.....	.40	3.00	25.00
2 to 3	ft.....	.60	5.00	40.00
3 to 4	ft.....	.75	6.00	

Each Per 10 Per 100

WEIGELA candida Feerie. 6'-8'

If you plant only one take this which opens a little earlier than *Venusta* and is even more profuse, and a shade lighter.

2	to	3	ft.....	.50	4.00	30.00
3	to	4	ft.....	.75	6.00	

— **Venusta. 6'-8'***Venus Weigela*

Really an improvement on the old sorts, with large rose trumpet bells just crowded on the long sturdy branches.

1½	to	2	ft.....	.40	3.00	25.00
2	to	3	ft.....	.50	4.00	30.00

rosea. 6'-8'*Pink Weigela*

After the long term of admirable service should be retired in favor of its lovely daughters. Just as vigorous as any.

1½	to	2	ft.....	.30	2.50	20.00
2	to	3	ft.....	.40	3.00	

WISTERIA multijuga. Vine, 25'-30'*Longcluster Wisteria*

Properly trained the three foot sprays of purple flowers can never be forgotten. Even in May the fragrance is noteworthy.

3	yr., field grown, GRAFTS.....	1.00	9.00		
---	-------------------------------	------	------	--	--

— **rosea.***Rosy Weeping Wisteria*

Similar in every way to type except in color which is a good pink. These are fine specimens, have bloomed consistently.

6	to	8	ft. strong B. & B.....	12.00		
---	----	---	------------------------	-------	--	--

sinensis. 30'-40'*Chinese Wisteria*

Shorter and therefore more compact sprays of the beautiful pea blossoms open a little before "Longcluster". That same delectable scent thrills the senses. Sun, drainage needed.

Lavender or White.

3	yr., field grown, GRAFTS.....	.90	7.50		
---	-------------------------------	-----	------	--	--

YUCCA filamentosa. 2'-3'*Adam's Needle*

EVERGREEN. Much abused, poorly used, but withal a handsome exotic when the six foot spikes of creamy nodding bell flowers force attention in July. Try it in masses among dry rocky outcroppings, or in the wide flower border.

3	yr.....	.40	3.00	25.00	
4	yr.....	.60	5.00	40.00	

ZANTHORHIZA apiifolia. 2'-2½'*Yellow Root*

For under planting with leggy shrubs no better selection could be made. Either in sun or shade, moist or dry places it will quickly spread to form a light ground cover and open its curious brownish purple flowers. Will not thrive in lime soil.

9	to	12	in.....	.30	2.50	20.00.
12	to	18	in.....	.40	3.00	25.00

Information on any matters pertaining to plants and planting will be gladly given on request, and we expect to maintain a stock of the following supplies, prices of which will be quoted as needed.

Juniperus chinensis sargentii, 1½'
Juniperus communis mont., 1½'
Juniperus com. suecica nana, 3'
Juniperus conferta, 9''-12''
Juniperus horizontalis, 1'-1½'
Juniperus horiz. douglasi, 1'-1½'
Juniperus horizontalis plum. 2'
Juniperus horiz. Bar Harbor 1'
Juniperus sabina tamarisci, 1½'
Juniperus squamata, 1'
Juniperus squamata meyeri, 3'-4'
Juniperus squamata variegata, 1'
Leiophyllum buxifolium, 1½'
Mitchella repens, 4''
Pachistima canbyi 3''-4''
Picea exc. clanbrasiliana, 4'-5'
Picea excelsa maxwelli, 1'-2'
Picea exc. procumbens, 1½'-2'
Picea excelsa repens, 1'
Picea glauca conica, 3'
Pinus densifl. umbraculif., 3'-4'
Pinus montana mughus, 2½'-3'
Potentilla tridentata, 8''
Taxus baccata compacta, 3'-4'
Taxus bac. repandens, 1½'-2'
Taxus canadensis, 2'-2½'
Taxus cuspidata nana, 2'-3'
Thuja occidentalis Little Gem, 2'
Thuja occ. pumila, 2'-2½'
Thuja occ. umbraculifera, 2'-3'
Thuja orien. aurea nana, 2½'-3'
Thuja orientalis compacta, 3'-4'
Vaccinium vitis-idaea, 6''

Deciduous Shrubs

Caryopteris incana, 2'-3'
Cotoneaster adpressa, 1'
Cotoneaster horizontalis, 1½'-2'
Cotoneaster perpusilla, 1½'
Deutzia gracilis, 3'
Genista pilosa, 3'
Hypericum buckleyi, 1'
Hypericum moserianum, 2'
Hypericum patulum forres., 2'
Jasminum nudiflorum, 3'
Lonicera spinosa alberti, 2'
Lonicera thibetica, 3'-4'
Potentilla fruticosa, 3'-4'
Rosa Rouletti, 6''
Viburnum op. nana, 1½'-2'

Herbaceous Perennials

Acaena microphylla, 2''
Achillea lewisi, 6''
Achillea tomentosa, 9''
Aethionema coridifolium, 6''
Aethionema grandiflorum, 1½'
Aethionema persicum, 6''
Ajuga genevensis, 1'
Ajuga brockbanki, 8''
Ajuga reptans, 6''
Allium pedemontanum, 9''
Allium sp., Thibet, 9''
Alyssum montanum, 3''
Alyssum rostratum, 6''
Alyssum saxatile compactum, 1'
Alyssum spinosum, 6''
Androsace lactiflora, 4''
Androsace lanuginosa, 6''
Androsace sarment. chumbyi 3,,
Anemone huphensis, 1½'
Anemone pulsatilla, 1'
Anemone pulsatilla alba, 1'
Anemone pulsatilla rubra, 1'
Anemone sylvestris, 9''
Anemone vernalis, 3''
Antennaria dioica, 6''
Anthemis styriaca, 4''
Aquilegia alpina 1'
Aquilegia ecalcarata, 1'
Aquilegia flabellata nana alba, 9''
Aquilegia glandulosa, 15''
Aquilegia pyrenaica, 6''
Arabis albida, 6''
Arabis albida flore-plena 7''
Arabis albida nana compacta, 4''
Arabis alpina, 6''-9''
Arabis alpina rosea, 6''-9''
Arabis kelleri, 3''
Arabis procurrens 6''-9''
Arenaria montana, 4''
Arenaria purpurascens, 2''
Arenaria caespitosa, 1''
Artemisia frigida, 4''
Aster alpinus, 8''
Aster alpinus albus, 8''
Aster subcaeruleus, 1'
Aster yunnanensis, 9''
Aubrietia in variety, 6''
Bellis rotundifolia caerulescens, 4''
Bellis sylvestris, 6''
Calamintha alpina, 6''
Campanula barbata, 8''
Campanula carpatica, 6''
Campanula carpatica alba, 6''
Campanula garganica, 3''
Campanula portenschlagiana, 3''
Campanula pusilla, 3''
Campanula rotundifolia, 1'
Carlina acaulis, 6''
Cerastium tomentosum, 6''
Chimaphila maculata, 9''-12''

PLANTS FOR SHADED SITUATIONS

Deciduous Trees and Shrubs

Acanthopanax pentaphylla, 7'-8'
Amelanchier canadensis, 12'-15'
Amelanchier stolonifera, 4'-5'
Aronia arbutifolia, 6'-8'
Aronia melanocarpa, 8'-10'
Azalea arborescens, 10'-12'
Azalea nudiflora, 6'-8'
Azalea vaseyi, 5'-6'
Azalea viscosa, 4'-5'
Benzoin aestivalis, 10'-12'
Calycanthus floridus, 4'-5'
Cephalanthus occidentalis, 5'-6'
Cercis canadensis, 12'-15'
Chionanthus virginica, 15'-18'
Clethra alnifolia, 4'-5'
Cornus alternifolia, 15'-18'
Cornus amomum, 8'-9'
Cornus florida, 15' 25'
Cornus florida rubra, 15'-20'
Cornus mas, 15'-20'
Halesia tetraptera, 12'-15'
Hamamelis mollis, 15'-20'
Hamamelis vernalis, 8'-10'
Hamamelis virginiana, 15'-20'
Hydrangea arbores. grand, 4'-5'
Hydrangea quercifolia, 3'-4'
Hypericum aureum, 3'-4'
Ligustrum ibota regelian., 5'-6'
Lonicera fragrantissima, 6'-8'
Lonicera morrowi, 7'-8'
Lonicera tatarica, 9'-10'
Oxydendrum arboreum, 25'-30'
Philadelphus, 9'-10'
Rhodotypos kerrioides, 4'-5'
Symphoricarpos chenaulti, 4'-5'
Symphoricarpos racemosa, 5'-6'
Symphoricarpos vulgare, 4'-5'
Viburnum acerifolium, 4'-5'
Viburnum dentatum, 10'-12'
Viburnum lentago, 18'-20'
Viburnum molle, 10'-12'
Zanthoriza apiifolia, 2'-3'

Evergreens

Azalea amoena, 2½'-3'
Azalea hinodegiri, 3'-4'
Buxus sempervirens suf., 12'-15'
Epigaea repens, 4''-6''
Euonymus radicans color. 6''-9''
Gaultheria procumbens, 4''-6''
Ilex crenata microphylla, 6'-8'
Ilex glabra, 5'-6'

Ilex opaca, 25'-30'
Juniperus communis, 2½'-3'
Kalmia latifolia, 5'-7'
Leucothoe catesbaei, 3'-4'
Mahonia aquifolium, 4'-5'
Mitchella repens, 3''-4''
Pachysandra terminalis, 6''-8''
Pieris floribunda, 3'-4'
Pieris japonica, 4'-5'
Rhododendron catawb., 6'-9'
Rhododendron hybrids, 3'-8'
Rhododendron maxim., 8'-12'
Taxus canadensis, 2'-2½'
Taxus cuspidata, 4'-5'
Tsuga canadensis, 75'-90'

Herbaceous Perennials

Aconitum (all)
Ajuga genevensis
Ajuga reptans
Anemone japonica
Aquilegia
Chimaphila maculata
Cimicifuga
Convallaria majalis
Dicentra cucullaria
Dicentra formosa
Dicentra spectabilis
Digitalis
Eupatorium fraseri
Hepatica
Heuchera (all)
Hosta (all)
Iberis sempervirens
Lithospermum prostratum
Lobelia cardinalis
Lobelia syphilitica
Lychnis chalconica
Lythrum
Menthella requieni
Myosotis scorpiodes
Physalis
Platycodon grandiflorum
Polemonium
Primula (all listed)
Saxifraga trifurcata ceratophylla
Sedum kamtschaticum
Sedum oreganum
Sedum sarmentosum
Sedum spurium
Sedum ternatum
Thalictrum
Vinca minor
Viola

PLANTS FOR BINDING AND COVERING SOIL ON STEEP BANKS

Shrubs

Acanthopanax pentaphyll., 7'-8'
Berberis thunbergi, 4'-5'
Forsythia suspensa, 5'-6'
Lonicera spinosa alberti, 3'-4'
Lonicera tatarica, 9'-10'
Myrica carolinensis, 4'-5'
Rhus canadensis, 4'-5'
Rosa nitida, 12''-18''
Rosa rugosa, 4'-5'

Rosa setigera, 5'-6'
Symphoricarpos racemos., 5'-6'
Symphoricarpos vulgare, 4'-5'
Zanthoriza apiifolia, 2'-3'

Vines

Celastrus scandens, 20'-25'
Lonicera halleana, 15'-20'
Rosa lucida, 5'-6'
Rosa wichuriana, 15'-20'

PLANTS FOR DRY SOIL

Trees

DECIDUOUS

Betula populifolia, 30'-40'
Phellodendron amurense, 40'-50'
Quercus alba, 100'

EVERGREEN

Juniperus virginiana, 30'-50'
Pinus resinosa, 80'-100'
Pinus strobus, 80'-100'
Pinus sylvestris, 70'-80'

Shrubs

DECIDUOUS

Acanthopanax pentaphyl., 7'-8'
Colutea arborescens, 8'-10'
Cornus paniculata, 10'-12'
Genista tinctoria, 3'-4'
Hypericum prolificum, 2½'-3'
Lespedeza formosum, 5'-6'
Myrica carolinensis, 4'-5'
Prunus maritima, 9'-10'
Rhamnus cathartica, 9'-10'
Rhus canadensis, 4'-5'
Rosa setigera, 10'-12'
Symphoricarpos racemos., 5'-6'
Vaccinium corymbosum, 5'-6'
Viburnum acerifolium, 4'-5'
Viburnum lantana, 15'-18'

EVERGREEN

Arctostaphylos uva-ursi, 6''
Juniperus sargentii, 2'-2½'
Juniperus communis, 2'-2½'
Juniperus comm. depressa, 1½'
Juniperus comm. montana, 1½'
Juniperus horizontalis, 1'-1½'
Juniperus sabina, 6'-7'

PLANTS FOR WET OR MARSHY PLACES

Deciduous Trees

Acer rubrum, 50'-75'
Betula nigra, 50'-60'
Larix leptolepis, 50'-60'
Liquidamber styraciflua, 50'-60'
Quercus palustris, 75'-90'
Quercus phellos, 75'-90'
Salix babylonica, 50'-60'
Taxodium distichum, 100'
Ulmus americana, 80'-100'

Shrubs

Aronia arbutifolius, 6'-8'
Aronia melanocarpa, 8'-10'
Azalea viscosa, 4'-5'
Benzoin aestivalis, 10'-12'
Calycanthus floridus, 4'-5'
Cephalanthus occidentalis, 4'-5'
Clethra alnifolia, 4'-5'
Cornus amomum, 8'-9'
Cornus stolonifera, 7'-8'
Ilex glabra, 5'-6'
Ilex verticillata, 6'-8'
Rhododendron canadense, 4'
Sorbaria sorbifolia, 5'-6'
Viburnum cassinoides, 5'-6'
Viburnum dentatum, 10'-12'
Viburnum lentago, 18'-20'

Mahonia aquifolium, 4'-5'
Pachysandra terminalis, 8''
Pinus montana mughus, 2½'-3'

Herbaceous Perennials

SUNNY PLACES

Achillea ptarmica, The Pearl
Achillea tomentosa
Anthemis tinctoria
Armeria in variety
Asclepias tuberosa
Baptisia australis
Cerastium tomentosum
Dianthus barbatus
Euphorbia corollata
Gypsophilla paniculata
Helianthemum
Helianthus
Lavendula vera
Linum perenne
Lupinus polyphyllus
Oenothera youngi
Pentstemon barbatus
Phlox subulata
Sedum
Sempervivum

SHADY PLACES

Ajuga genevensis
Aquilegia canadensis
Aquilegia chrysantha
Aster alpinus
Heuchera sanguinea
Iberis sempervirens
Liatris pycnostachya
Platycodon grandiflorum
Sedum Spectabile

Herbaceous Perennials

Aruncus sylvester
Asclepias tuberosa
Aster novae-angliae
Boltonia latisquama
Caltha palustris
Cimicifuga racemosa
Helenium autumnale
Hemerocallis
Hibiscus moscheutos
Iris chrysographes
Iris forrestii
Iris kaempferi
Iris sibirica
Liatris spicata
Lobelia cardinalis
Lobelia siphilitica
Lythrum salicaria roseum
Myosotis scorpioides (palustris)
Physostegia virginica
Primula cachemiriana
Primula japonica
Primula japonica, Red Hugh
Primula pulverulenta
Trollius europaeus
Trollius, Orange Globe

PLANTS FOR WALL-GARDENING

Achillea lewisi	Erysimum pulchellum
Achillea tomentosa	Geranium sanguineum & varieties
Aethionema (all)	Gypsophila repens
Alyssum (all listed)	Helianthemum in variety
Androsace chumbyi	Hypericum coris
Androsace lanuginosa	Hypericum repens
Antennaria dioica	Hypericum reptans
Arabis in variety	Leontopodium alpinum
Arenaria montana	Lithospermum prostratum, Heavenly Blue
Aubrietia in variety	Oenothera missouriensis
Calamintha alpina	Oenothera speciosa
Campanula garganica	Phlox subulata and varieties
Campanula portenschlagiana	Plumbago larpentae
Campanula pusilla	Primula auricula (shady)
Cerastium tomentosum	Saponaria ocymoides
Chieranthus allioni	Sedum (all except spectabile)
Dianthus allwoodi	Sempervivum (all)
Dianthus arenarius	Silene alpestris
Dianthus arvensis	Silene maritima fl.-pl.
Dianthus caesius	Silene schafta
Dianthus deltoides	Statice armeria
Dianthus neglectus	Teucrium chamaedrys
Dianthus plumarius, & garden var.	Thymus (all)
Dracocephalum	Tunica saxifraga
Erinus alpinus	Veronica pectinata
Erysimum linifolium	Veronica teucrium rupestris & var

PLANTS FOR SPACES BETWEEN FLAGSTONE
AND ROCK WALKS

Achillea lewisi	Sedum dasyphyllum
Achillea tomentosa	Sedum hispanicum
Antennaria dioica	Sedum lydium
Arenaria caespitosa	Sedum middendorffianum
Campanula pusilla	Sedum nevi
Erinus alpinus	Sedum oreganum
Erysimum pulchellum	Sedum pruinaum
Euonymus radicans minimus	Sedum sexangulare
Linaria pallida	Sedum spath. purpureum
Menthella requienii	Sedum ternatum
Nierembergia rivularis	Sempervivums (all)
Phlox subulata varieties (for large steps)	Silene alpestris
Sedum acre	Statice armeria
Sedum anglicum	Thymus (all)
Sedum brevifolium	Tunica saxifraga
	Veronica repens

GROUND COVERS

For Shady Places

Ajuga reptans
Asarum shuttleworthii
Chimaphylla maculata
Convallaria majalis
Epigaea repens
Euonymus radicans coloratus
Euonymus radicans minimus
Gaultheria procumbens
Hedera helix and varieties
Mitchella repens
Pachistima canbyi
Pachysandra terminalis
Shortia galacifolia
Taxus canadensis
Vaccinium vitis-idaea
Veronica filiformis
Veronica repens
Vinca minor

For Sunny Places

Arctostaphylos uva-ursi
Arenaria caespitosa
Calluna vulgaris and varieties
Helianthemum in variety
Juniperus chinensis sargentii
Juniperus communis depressa
Juniperus communis montana
Juniperus horizon. Bar Harbor
Juniperus horizontalis plumosa
Juniperus sabina tamariscifolia
Juniperus squamata
Leiophyllum buxifolium
Pachysandra terminalis
Phlox subulata
Sedum in variety
Thymus serpyllum
Veronica teucrium rupestris
Zanthorhiza apiifolia

Euonymus alatus (Corky-winged bark)
Fagus varieties (Gray bark)
Kerria japonica (Green bark)
Laburnum vulgare (Green bark)
Liquidambar styraciflua (Corky ridged bark)
Platanus orientalis (Spotted creamy yellow bark)
Rosa lucida alba (Green bark)
Rosa rubrifolia (Dull red bark)
Tilia platy. aurea (yellow bark)

PLANTS SUITABLE FOR HEDGES

Evergreens

TALL

Berberis julianae
Chamaecyparis pisifera and var.
Euonymus patens
Picea excelsa
Pinus strobus
Taxus cuspidata capitata
Thuja occidentalis and varieties
Tsuga canadensis

LOW

Berberis triacanthophora
Berberis verruculosa
Buxus
Chamaecyparis obtusa gracilis
Ilex crenata bullata
Ilex crenata microphylla
Juniperus chinensis pfitzeriana
Mahonia aquifolia
Taxus cuspidata
Taxus cuspidata nana
Taxus media
Thuja occidentalis compacta
 and dwarf varieties
Thuja occ. Little Gem
Thuja orientalis nana aurea

Deciduous

TALL

Acer ginnala
Carpinus betulus
Cotoneaster acutifolia
Crataegus coccinea
Crataegus crusgalli
Crataegus oxycantha
Euonymus alatus
Fagus sylvatica
Hibiscus syriacus
Ligustrum amurense
Ligustrum ovalifolium
Lonicera minutiflora
Photinia villosa
Rhamnus frangula
Salix pentandra
Syringa vulgaris
Viburnum dentatum
Viburnum prunifolium

LOW

Berberis thunbergi
Berberis thunbergi minor
Berberis verna
Cotoneaster divaricata
Cydonia japonica
Deutzia gracilis
Ligustrum ovalifolium (clipped)
Ligustrum regelianum
Philadelphus lem. and varieties
Rhodotypos kerriodes
Rosa rugosa
Spiraea Anthony Waterer
Spiraea thunbergi
Spiraea trilobata
Spiraea van houttei
Stephanandra flexuosa
Viburnum opulus nana

VINES

Flowering

Actinidia
Bignonia
Clematis
Hydrangea petiolaris
Lonicera
Polygonum
Rosa wichuriana and varieties
Wisteria

Foliage

Actinidia
Akebia
Ampelopsis
Euonymus
Hedera
Lonicera
Rosa

Rapid Growth

Actinidia
Clematis
Polygonum

Fruiting

Actinidia
Akebia
Ampelopsis heterophylla
Celastrus
Clematis

Self-Clinging (by roots)

Ampelopsis tricuspid. (veitchi)
Ampelopsis tricuspidata lowi
Bignonia
Euonymus
Hedera
Hydrangea petiolaris
Schizophragma hydrangeoides

Self-Clinging (tendrils or stalks)

Actinidia
Ampelopsis heterophylla
Ampelopsis quinquefolia
Celastrus
Clematis
Lonicera
Wisteria

EVERGREEN CONIFERS

Tall

Abies concolor, 50'-60'
Abies homolepis, 60'-80'
Abies nordmanniana, 80'-100'

Koelreuteria paniculata
Oxydendrum arboreum
Prunus serrulata and varieties
Sorbus aucuparia
Sorbus quercifolia
Styrax japonica
Styrax obassia
Symplocos paniculata

LIST OF HERBS

Herbal Name	Botanical Name	Use
Alpine Savory	<i>Satureia alpina</i>	Seasoning
Angelica	<i>Archangelica officinalis</i>	Soups
Anise	<i>Pimpinella anisum</i>	Cordials
Apple Mint	<i>Mentha rotundifolia</i>	Julep
Balm	<i>Melissa officinalis</i>	Salads, Balm tea
*Basil	<i>Ocimum bacilicum</i>	Seasoning
Beebalm	<i>Monarda didyma</i>	Fragrance
Bergamot	<i>Monardia fistulosa</i>	Tea
*Borage	<i>Borago officinalis</i>	Summer drinks
Burnet	<i>Sanguisorbia officinalis</i>	Cucumber flavor
Betony (big)	<i>Stachys grandiflora</i>	Medicinal
Betony (Woolly)	<i>Stachys lantana</i>	Purgative
Calamintha	<i>Calamintha alpina</i>	Seasoning
Camomile	<i>Anthemis nobilis</i>	Tonic
*Caraway	<i>Carum carvi</i>	Seed cake
Cat nip	<i>Nepeta cataria</i>	Cats
Chive	<i>Allium schoenoprasum</i>	Salads, Soups
Chicory	<i>Cichorum intybus</i>	Salad
Clary	<i>Salvia sclarea</i>	Seasoning
*Coriander	<i>Coriandrum sativum</i>	Soups—Salads
Creeping Mint	<i>Mentha requieni</i>	Drinks
Costmary	<i>Chrysanthemum balsamita</i>	Medicinal
*Dill	<i>Anethum graveolens</i>	Soups, Sauces
Fennel	<i>Foeniculum vulgare</i>	Garnishing
Garden Heliotrope	<i>Valeriana officinalis</i>	Nervousness
Germander	<i>Teucrium chamaedrys</i>	Medicinal
Greek Valerian	<i>Polemonium caeruleum</i>	Medicinal
Hoarhound	<i>Marrubium vulgare</i>	Colds
Hyssop	<i>Hyssopus officinalis</i>	Aromatic
Lavender	<i>Lavendula vera</i>	Fragrance
Lavender cotton	<i>Santolina incana</i>	Aromatic
Lemon Geranium	<i>Pelargonium limoneum</i>	Fragrance
Marjoram (pot)	<i>Origanum onites</i>	Seasoning
Meadow Sage	<i>Salvia pratensis</i>	Seasoning
Parsley	<i>Petroselinum hortense</i>	Flavoring
Pennyroyal	<i>Mentha pulegium</i>	Seasoning
Peppermint	<i>Mentha piperita</i>	Drinks
Rose Geranium	<i>Pelargonium graveolens</i>	Flavoring
Rosemary	<i>Rosmarinus officinalis</i>	Headaches
Roman Wormwood	<i>Artemisia pontica</i>	Tonic
Rue	<i>Ruta graveolens</i>	Garnish, Soup
Sage	<i>Salvia officinalis</i>	Filling, Flavoring
*Savory (summer)	<i>Satureia hortensis</i>	Seasoning
Savory (winter)	<i>Satureia montana</i>	Seasoning
Skirret	<i>Sium sisarum</i>	Salads
Sorrel	<i>Rumex scutatus</i>	Salads
Southernwood	<i>Artemisia abrotanum</i>	Medicinal
Spearmint	<i>Mentha spicata</i>	Flavoring
Sweetflag	<i>Acorus calamus</i>	Aromatic
Sweet Marjoram	<i>Origanum majorana</i>	Flavoring
Sweet Woodruff	<i>Asperula odorata</i>	Punch
Tansy	<i>Tanacetum vulgare</i>	Flavoring
Tarragon	<i>Artemisia dracunculus</i>	Pickles
Thoroughwort	<i>Eupatorium melissoides</i>	Medicinal
Thyme (common)	<i>Thymus vulgaris</i>	Seasoning
Thyme (citron)	<i>Thymus citriodorus</i>	Seasoning
Watercress	<i>Radicula nasturtium</i>	Salads
Wild Ginger	<i>Asarum canadense</i>	Spice
Wormwood	<i>Artemisia absinthium</i>	Medicinal

*Annuals

Plant Combinations

Most of the pleasing effects created in the garden are made by arranging complimentary things in such order as to supplement their individual beauty. It seems best to have one item dominant and plant with the whole picture in mind. For example, low spreading subjects should be planted in large numbers as ground cover, from which can spring up definite spikes or mounds of another color. Sometimes succession of flowers or berries, or perhaps mingling of colored bark will supply the missing interest in your garden, sure it is, that careful thought with some fun-giving practice will produce many a thrill. Don't stint with materials or try too many ideas in a small area. Here are a few suggestions:

PERENNIAL BORDER

SPRING

Heuchera sanguinea — Aquilegia caerulea
 Delphinium chinense album — Erigeron speciosus
 Heuchera sanguinea — Aquilegia caerulea — Iris germanica
 Paeonia festiva maxima — Dianthus latifolius atrococcineus
 Phlox Miss Lingard — Campanula persicifolia caerulea
 Phlox Miss Lingard — Aquilegia chrysantha — Heuchera sanguinea
 Hemerocallis flava — Baptisia australis
 Anthemis tinctoria kelwayi — Delphinium formosum
 Rosa hugonis — Aquilegia caerulea
 Mertensia — Trillium — Phlox divaricata
 Delphinium chinense — Aquilegia chrysantha
 Dicentra spectabilis — white Iris — Iberis
 Alyssum — Euphorbia polychroma — Iris pumila
 Hemerocallis flava — Iris sibirica

SUMMER

Monardia didyma — Phlox Mrs. Jenkins
 Dianthus plumarius White — Viola Jersey Gem
 Lilies — Papaver Mrs. Perry
 Linum perenne — Cerastium tom. — Papaver orientalis Mrs. Perry
 Coreopsis lanceolata — Delphinium
 Chrys. Shasta Daisy — Anthemis tin. kelwayi — Delphin. bella.
 Anchusa italica — Anthemis tinctoria kelwayi
 Phlox pan. — Lilium speciosum — Veronica longifolia subsessilis
 Hemerocallis flava — Campanula glomerata
 Campanula persicifolia — Heuchera
 Lilium candidum — Delphiniums
 Lychnis chalcedonica — white Astilbes
 Scabiosa caucasica — Campanula carpatica
 Trollius — Anchusa myosotidiflora
 Trollius — Myosotis palustris
 Campanula persicifolia — Delphinium Belladonna
 Gypsophila paniculata — Monarda didyma
 Hemerocallis — Delphinium
 Shasta Daisy — Scabiosa caucasica
 Gypsophila paniculata — Lychnis chalcedonica
 Statice latifolia — Eryngium

AUTUMN

Thalictrum dipterocarpum — Anemone japonica Alice
 Eupatorium fraseri — Helenium Riverton Gem
 Aster Climax — Helenium Riverton Gem
 Thalictrum dipt. — Veronica long. subsessilis — Anemone jap.
 Buddleia — Anemone japonica
 Anemone japonica — Aconitum autumnale
 Helenium autumnale — Delphiniums
 Salvia pitcheri — Helenium pumilum
 Chrysanthemum articum — Eupatorium coelestinum

ROCK GARDEN

Arabis alpina — *Pulmonaria azurea*
Iris pumila coerulea — *Viola lutea*
Linum perenne — *Androsace lanuginosa*
Phlox subulata Nelsonsi — *Viola Jersey Gem*
Iris gracilipes — *Heuchera*
Aubrietia Lavender — *Viola lutea*
Aubrietia Lavender — *Alyssum citrinum*
Dianthus neglectus — *Campanula muralis*
Dianthus deltoides — *Veronica rupestris*
Geranium lancastriense in front of *Iris gracilipes*
Saxifraga macnabiana — *Androsace lanuginosa*
Cheiranthus Allioni — *Viola cornuta*
 Yellow Sun Rose — *Veronica rupestris*
Campanula carpatica — *Oenothera missouriensis*
Geum sibiricum — *Phlox subulata Wilsoni*
Gypsophila repens — *Campanula muralis*
Anemone pulsatilla — *Arabis* — *Doronicum*
Arabis — *Iris pumila* varieties
Campanula carpatica alba — *Heuchera*
Alyssum saxatile compactum — *Anchusa myosotidiflora*
Arabis alpina — *Viola Jersey Gem*
Cerastium tomentosum — *Heuchera sanguinea Rosa Mundi*
Arenaria montana — *Aquilegia flabellata*
Papaver alpinum — *Linum perenne*
Papaver nudicaule — *Phlox subulata G. F. Wilson*
Geranium sanguineum — *Aquilegia hybrida alba*
Nierembergia rivularis — *Plumbago larpentae*
Arabis alpina fl. pl. — *Aubrietia*

GROUPINGS

Magnolia — Dutch hyacinths (red)
Forsythia suspensa — *Arabis alpina*
Prunus subhirtella pendula — Grape hyacinths
Iris pumila — *Spiraea thunbergi* — Red Flowering Peach
Spirea thunbergi — Tulips soft lavender
Cercis canadensis — *Crocus* (white)
Pinus strobus — *Rhododendron carolinianum*
Juniperus virginiana — *Cotoneaster horizontalis*
Crataegus — *Taxus cuspidata*
Pieris japonica — *Phlox G. F. Wilson*
Leiophyllum buxifolium — *Ajuga reptans*
Cornus florida — *Vinca minor* — Daffodils
Amelanchier canadensis — *Phlox subulata*
Rosa carolina — *Cephalanthus occidentalis*
Tusga canadensis — *Ilex verticillata*

SHRUB PLANTINGS

Amelanchier canadensis — *Azalea vaseyi* — *Viola Jersey Gem*
Hypericum moserianum — *Buddleia*
Amelanchier canadensis — *Daphne cneorum*
Forsythia intermedia spectabilis — *Azalea mucronulata*
Chionanthus virginica — *Lonicera tartarica*
Clethra alnifolia — *Potentilla fruticosa*
Syringa vulgaris — *Symphoricarpos racemosa*
Symphoricarpos racemosa — *Viburnum americanum*
Berberis thun. — *Ligustrum ibota reg.* — *Eleagnus angustifolia*
Cornus stolonifera — *Kerria japonica flore-pleno*
Cornus stolonifera lutea — *Vaccinium corymbosum*

Scott's Lawn Seed

The finest general purpose mixture containing deep-rooting perennial grasses with Creeping Bent. Does not contain Clover. Most weed-free of any lawn seed mixture. Directions in each package.

1 lb. can— .60 10 lb. bag—5.25 50 lb. bag—22.50

Scott's Shade Mixture

A carefully prepared combination of shade tolerant grasses including three essential imported varieties. Produces lasting turf in shaded locations. Weed free. Complete directions in each package.

1 lb. can— .75 10 lb. bag—6.75 50 lb. bag—30.00

Scott's Turf Builder

10 lb. sack—1.25 100 lb. sack—6.50

GRASS SEED should be sown at the rate of 5 lbs. to 1000 sq. ft.

FERTILIZER (complete) can be added at the rate of 10 lbs. to 1000 sq. ft.

QUANTITY OF PLANTS FOR FILLING BEDS

Our table is based on round beds, the outer row being planted one-half the distance from the edge that the bulbs or plants stand apart. For a square bed, add 25% to the number required for a round bed of the same diameter. For an oval bed, length and width is to be added and then divided by 2, thus: 8 and 6 feet equals 14 feet, divided by 2, gives 7 feet. Such a bed requiring the same number of bulbs or plants as a round bed 7 feet in diameter.

Diameter of Round Bed	Planted 4 in. Apart	Planted $\frac{1}{2}$ ft. Apart	Planted 1 ft. Apart	Planted $1\frac{1}{2}$ ft. Apart	Planted 2 ft. Apart
3 feet	65	30	8		
4 "	125	50	13	7	
5 "	175	83	21	10	
6 "	265	118	30	15	8
7 "	350	158	40	20	10
8 "	460	206	52	25	13
10 "	720	325	82	40	20
12 "	1020	456	115	57	30
14 "	1400	615	155	78	40
16 "	1820	810	202	100	50
18 "	2290	1020	255	126	64
20 "	2840	1260	315	156	78

HOW MANY PER FRAME

When small sizes are transplanted into beds or frames, some estimate of the area required can be made from the following figures. If the frame or bed is 6 feet wide and 100 feet long, the following quantities of plants set out at these distances will fill the frame:

Planting Distance	Trees per Bed
4x 4 inches	5,400
5x 5 inches	3,456
6x 6 inches	2,400
7x 7 inches	1,763
8x 8 inches	1,333
10x10 inches	864
12x12 inches	600

MULCHING TABLE

1 cubic yard will cover approximately:

- 50 square feet to a thickness of 6 inches
- 100 square feet to a thickness of 3 inches
- 150 square feet to a thickness of 2 inches
- 300 square feet to a thickness of 1 inch
- 600 square feet to a thickness of $\frac{1}{2}$ inch

1 bale of Peat will cover

- 300 square feet to a thickness of 1 inch.

1 cubic yard of Top Soil will plant

- 5 trees or 10 shrubs of average nursery size.

1 cubic yard of Cow Manure will fertilize

- 30 trees or 60 shrubs of average nursery size.

SUITABLE DISTANCES FOR PLANTING

Large street trees.....	50 to 60 feet apart.
Medium street trees.....	40 to 50 feet apart.
Small street trees.....	30 to 40 feet apart.
Large shrubs.....	8 to 10 feet apart.
Medium shrubs.....	4 to 6 feet apart.
Small shrubs.....	2 to 3 feet apart.
Herbaceous Perennials.....	6 to 18 inches apart.
Ground covers.....	6 to 12 inches apart.

QUANTITY OF COMMERCIAL FERTILIZER TO APPLY ON SMALL AREAS

100 lbs. per acre equals approximately	1 lb. per	436 square feet.
200 " " " " " "	1 " "	218 " "

Some Facts About Controlling Insects on Ornamental Plants

Because of the many different kinds of ornamental plants and the thousands of insects attacking these plants it is impossible to give control methods here for all these insects. Therefore, this brief article is presented on some of the fundamental principles of insect control. Difficult cases of insect control should be referred to us or to your State Entomologist for advice.

IMPORTANCE OF FEEDING HABITS

The method of controlling any specific insect is largely determined by the manner it obtains its food. If it bites off, chews and swallows solid particles of the foliage, bloom or fruit it can often be best controlled by stomach poisons, such as arsenate of lead, fluorine compounds, etc.; if it obtains its food by inserting its mouth parts through the surface and sucking out the plant juice, one must use contact poisons, such as nicotine, rotenone, pyrethrum, etc. The above two methods are effective where the insects feed upon exposed surfaces. If they bore inside the leaves, fruit, stems, trunk or roots, other methods are often necessary. Thus, how the insects feed and their habits have an important place in how to control them.

STOMACH POISONS

The most common stomach poison for use on ornamental plants is arsenate of lead. It may be obtained in a white powdery material, or in a paste form. The powder is usually used at the rate of $1\frac{1}{2}$ pounds to 50 gallons of water or in smaller quantities 1 ounce to 2 gallons or 1 rounding teaspoonful to 1 quart of water. Spray thoroughly all parts of the plant likely to be fed upon.

Powdered derris root or powdered pyrethrum flowers or dusts containing these insecticides also have some value as stomach poisons for ornamental plants where one does not wish to use an arsenical poison. These powders may be dusted upon the plants or applied as a spray by diluting at the rate of 1 pound to 3 to 5 gallons of water. They act as contact poisons and repellents as well as stomach poisons, but will not protect the plants for as long a time as lead arsenate against leaf eating insects.

Stomach poisons may be used against insects such as most beetles, grasshoppers, caterpillars, etc. They are not effective against plant lice, scale insects, leaf hoppers, various plant bugs, etc.

CONTACT SPRAYS

Contact sprays are of two kinds. Those used on plants during the growing season and known as summer contact sprays, and those used on hardy plants while they are in a resting or dormant stage, are known as dormant sprays.

Summer contact sprays are of many kinds. The most common ones contain either nicotine, extracts of pyrethrum flowers (pyrethrins) or extracts of derris or cube roots (principally rotenone) as the principal killing agent in water, alcohols or oils. Soaps and the so-called white oils are also effective against some insects, such as plant lice, crawling stages of scale insects or other young insects. There are so many different kinds of contact sprays and they vary so much in their composition and formulae that general directions are difficult to give. State and Federal laws require that they be true to label and directions; therefore, they should be used as directed on the containers.

Contact sprays kill by wetting the surface of the insect to be killed. Therefore, the spraying should be thoroughly applied to all parts of the plant, both upper and lower leaf surfaces. Many contact sprays contain either soap, oils or other materials to make the diluted spray wet better. If they do not contain a wetting agent or if the dilution with water is rather high they can often be made more effective by adding soap. Powdered or dry soaps should be used 1 part to about 200 parts of the diluted spray. Liquid soap should be used diluted from 2 to 4 times as much as the actual amount of soap they contain. Thus, a liquid soap containing 15% actual soap should be added 1 part to 30 to 60 parts of the diluted insecticide spray or liquid soap containing 40% actual soap should be added 1 part to 80 to 160 parts of the diluted insecticide. The concentration of soap will depend upon how hard the insects are to kill and whether the plants are tender or hardy.

The insects controlled with summer contact sprays may be divided into several groups according to their habits and difficulty of control. These groups are as follows:

PLANT LICE (also called aphids and green fly), infest many different kinds of plants. Soft bodied, whitish, green, brown or sometimes almost black in color, usually not more than $\frac{1}{8}$ inch long. Generally found clustered on the under surface of leaves, or along the new growth of stems. To control, dip or spray

plants in any of the summer contact sprays diluted with water as recommended on the container. Be careful to wet the lower surface of the leaves. It is often advisable to give a second treatment in 5 or 6 days.

PLANT BUGS. such as leaf hoppers, tarnished plant bugs, "white fly," thrips, etc. All are sucking insects and they are more active than plant lice, therefore, much more difficult to wet all the insects with the spray material. Use summer contact sprays as recommended on the container or at strength slightly stronger than recommended for plant lice. Use considerable volume of spray where possible and wet lower surface of leaves. It is often necessary to give 3 or 4 treatments at weekly intervals. Nicotine or pyrethrum dusts are very good where plants are crowded or close together.

MEALY BUGS. These are sucking insects covered with a white, powdery or woolly, wax-like material. The eggs are pinkish, small, laid in masses of 100 or more and covered with the white, woolly, wax-like material. Both the insects and egg masses are difficult to wet with the spray material. Sprays containing nicotine are usually better for mealy bugs than those containing pyrethrum or rotenone. Sprays containing summer oil or wetting agents with oil are more effective than soap or other common wetting materials. Spray with considerable force and where possible repeat the applications at 3 or 4 day intervals until the infestation is cleaned up. Large masses of mealy bugs or egg masses that are hard to wet may be painted with a solution of the spray material 4 to 6 times as strong as recommended for control of plant lice. After a few minutes or when these painted places have been wet thru syringe with clean water and spray with the regular strength recommended for mealy bugs.

SCALE INSECTS. Two types are commonly found on ornamental plants. One type is called armored scales because the body is covered with a round or oval, flat, wax-like scale, usually not more than $\frac{1}{8}$ inch in diameter. The second type is called soft scales, because they have no protecting waxy scale, or they are sometimes called lecanium scales because of their shape. They are usually oval in outline, flat to hemispherical in shape and from $\frac{1}{4}$ to $\frac{3}{8}$ inch in greatest diameter. Both types are difficult to control with summer sprays after they become half grown or more. Regular spraying at about 10-day intervals with a summer contact spray about twice as strong as recommended for control of plant lice will kill the young insects and clean up an infestation. Contact sprays containing summer oils are more effective against scale insects than those containing soap as the wetting agent. On hardy ornamental plants scale insects are best controlled by a delayed dormant application of miscible oil or concentrated lime sulfur solution.

SPIDER MITES. A number of different kinds infesting many plants. They are extremely small, greenish, reddish or brown, 4-legged creatures. They occur most abundantly on the lower surface of the leaves, often several hundred to a single leaf. Their injury can be determined by the fine speckled or mottled greenish or brownish appearance on the upper surface of the leaves. The small, round, pinkish eggs or white empty egg shells or cast skins are usually abundant and easily seen with a magnifying glass.

Summer sprays containing pyrethrum or rotenone are more effective against spider mites than those containing nicotine. Sprays containing summer oils are also more effective than those containing soap or no wetting materials. The sprays should be diluted as directed on the container or usually at a strength about twice that given for plant lice. Be careful to wet the lower surface of all leaves and give two or three applications at intervals of about a week. Thorough applications with superfine ground sulphur dust has been found most effective. The overwintering eggs of spider mites on hardy plants may be destroyed by delayed dormant applications of a miscible oil.

OTHER INSECTS. There are many other insects such as beetles of various kinds, some caterpillars, etc., that may be killed by summer contact sprays. If they are hardy insects the spray should be used from two to three times as strong as recommended for plant lice.

DORMANT CONTACT SPRAYS

Dormant sprays are used for the control of the overwintering stage of certain insects on hardy plants. The dormant condition of the trees makes possible a stronger spray solution and the absence of foliage on deciduous plants permits a more thorough application. Dormant sprays usually consist of oils made miscible with water or concentrated solutions of lime sulfur liquid. The miscible oils are usually used at dilutions of 1 part to 15 to 20 parts of water and the lime sulfur solution at a dilution of 1 part to 9 parts of water. Oil sprays are usually to be preferred but should not be used on hard maples, hickory, walnut, up-right type of junipers, or evergreen trees where the "bloom" will be destroyed. Lime sulfur should be used on such trees. Lime sulfur should not be used near buildings as it discolors badly.

Dormant sprays are usually used for the control of the eggs of plant lice, spider mites and other stages of insects that might hibernate on the trees or shrubs.

INSECTS INJURING THE ROOTS OF PLANTS

The most common forms are various plant lice, wire worms, various kinds of white grubs, such as the Japanese beetle grubs, weevil grubs of several kinds and nematodes. Plant lice may sometimes be controlled by mulching with $\frac{1}{8}$ to $\frac{1}{4}$ inch of tobacco powder or by watering the plants with a nicotine solution at the strength used for spraying plant lice. Root infesting plant lice are often attended by ants; therefore, control of the ants will help in getting rid of the root aphids.

BORING INSECTS

There are many insects that bore on the inside of the trunk, stem, twigs or even the foliage of plants. Usually they cannot be reached with either a contact spray or a stomach poison spray. When they occur in woody plants and make a distinct opening to the outside through which the borings are pushed they may be destroyed by poking with a flexible twig or by poking a small rag dipped in free nicotine into the hole or by injecting a nicotine paste material into the hole. A second type of wood borers tunnel in the cambium layer of the bark or in the sap wood. They are usually not found until considerable damage has been done. Stimulating plant growth by watering and the use of fertilizers will help to prevent their occurrence as they usually attack trees that have been transplanted or that have been weakened from some other cause.

Borers infesting herbaceous plants such as the common stalk borer, the iris borer, etc., often pass the winter in the egg stage on the foliage of dead plants. The raking up and burning of these dead plant remains will help very much in keeping down infestations of these borers.

RABBIT AND RODENT REPELLANT

Sulphonated oil is a new remedy for the protection of fruit and shade trees from the ravages of rabbits, mice and other rodents, which often do much damage in winter. Trees sprayed or painted with the oil are entirely avoided by all rodents unless they become extremely hungry and if they do attack the trees they speedily die.

The mixture is prepared by heating linseed oil until it is smoking hot—about 470 degrees Fahrenheit. The mixture should be set outdoors and flowers of sulphur added, one part to nine parts of oil by weight, making a 10 per cent solution. It is best to sift the sulphur slowly into the hot oil and stir. The mixture will become hotter until all the sulphur is dissolved. When it cools it will be ready for use; but if it is to be sprayed on the tree trunks, thinning with turpentine may be necessary to put it through the spray pump.

BORDEAUX MIXTURE

4 lbs. copper sulphate crystals
4 lbs. storelime
50 gallons water

Plant Diseases of Ornamentals

FUNGICIDES

Satisfactory control measures for the diseases of ornamental plants are preventatives rather than cures. Control measures must, therefore, to be most effective, be initiated before the appearance of disease. When a plant is once infected there is often no cure, and the removal of such individuals and their destruction should be a general sanitary practice in all growing operations.

Disinfecting and protective fungicides serve two distinct purposes. A disinfecting spray is used as a dormant and summer spray to destroy the spores of fungi which cause disease, and which may be lodged on the bark or about the buds of deciduous trees and shrubs. Lime-sulfur solution diluted 1-9 is the most commonly used dormant disinfecting spray. Some sprays and dusts prevent infection by depositing a protective coating poisonous to fungous spores on the plant surfaces. Lime-sulfur 1-49. Bordeaux mixture, sulfur dusts and wettable sulfur sprays, are the most generally known and used protective sprays.
